

WORLD'S TALLEST AVIATOR

(Continued on page 4) Forest prize. Sopwith's performances in the last month have stirred the English public to wild enthusiasm. While he has been an aviator for only two months he has accomplished more in that time than any other birdman. Only a few weeks after he learned to fly he held the record for the Michelin Cup in the British Empire, traveling a distance of 107 miles in three hours and twelve minutes.

The young giant birdman is coming to this country to give his sister and her husband, Gen. Grubb, a ride in his aeroplane. Besides, he is going to try to outfly some of the American aviators for some of the big prizes now standing. His trip from England to Beaumont, Belgium, in three and a half hours was the first flight across the Channel in an all-English machine, the Howard-Wright biplane. It took him twenty-two minutes to connect the English and French coasts via the air, keeping 1,100 feet above the surface of the water.

When Sopwith reached the French coast on his De Forest prize flight his compass failed, and he had to steer his machine by the sun. Later the sun became hidden behind clouds, and he had to trust to chance for his direction. Cecil Grace, who tried for the same prize after Sopwith lost his way while trying to fly back to England and has never been found. It is believed he was drowned.

Mrs. Grubb is enthusiastic about taking a trip with her brother. She said: "My sister, Miss May Sopwith, has been up with Tom, and was delighted with the experience. It will also please me, I am sure, because Tom is a good flyer, and I don't think I will have any fear. My husband wants to learn to fly while Tom is here."

FINED FOR BLASPHEMY

LONDON, Ont., Jan. 14—Two lads, members of respectable east end families and both workers in an east end Sunday School, appeared in the police court yesterday charged with using profane language on Dundas St. Both pleaded guilty to the charge.

HIGH HONOR FOR MONTREAL LAWYER

OTTAWA, Jan. 17—By agreement between the governments of Mexico and the United States, Eugene Lafleur, K. C., of Montreal, has been appointed arbitrator in the dispute as to the location of the boundary line between the two countries in what is known as the Chanzel tract near El Paso. The dispute is of long standing, and arises from the shifting of the bed of the river which forms the boundary line. Last year the two governments agreed to submit the matter to the arbitration of a Canadian jurist and the Canadian government was asked to nominate a man. Mr. Lafleur was, however, selected by the two countries, his name being among those submitted by the Canadian government as suitable men.

THOUSANDS OF SHEEP DIE IN SEVERE WEATHER IN WEST

LETHBRIDGE, Alta., Jan. 18—Reports from Sweet Grass, Mont., just across the border from Coutts, says that thousands of sheep have been driven from their ranches by a storm and herders have been forced to abandon them. One herd of 1,100, went over a bank. Only the heroism of their herders saved them all from suffocation, and as it was fifty were dead.

In the Sweet Grass country it is estimated that between 10,000 and 15,000 sheep are lost. Many of them have been smothered in drifts. Reports from Southern Alberta ranchers say that cattle did not suffer as the wind blew the snow off the grass.

LODGE HAS CLOSE CALL

BOSTON, Jan. 17—Although backed by eight majority in the upper branch of the legislature, U. S. Senator Henry Cabot Lodge failed by three votes to obtain a re-endorsement in the house today, but if there is no shift during the night, the joint convention tomorrow will send him back to Washington for a fourth term with the vote necessary for a choice. Mr. Lodge polled 24 out of 40 votes in the senate, but in the house only 117 out of the 240 members lined up for him.

Justice court yesterday charged with using profane language on Dundas St. Both pleaded guilty to the charge. "There is too much of this going on altogether," said the police magistrate, Mr. Beattie, "and I intend to make an example of you. I have often heard swearing on the streets, and thought that the police were not strict enough in enforcing the law. It is not a nice thing to have women forced to hear such language. Young men of your age ought to know better than to set a bad example to smaller lads. I fine you five dollars, or fifteen days in jail."

SPORTING NEWS

FROM ABROAD

BOSTON, Jan. 17—Dr. Ben Roller, the big Seattle wrestler, arrived in Boston Sunday to complete plans for his match with Zbysko, which is planned for Jan. 27, in Mechanics' building. Roller had signed the articles of agreement previously, but Zbysko has been backing and filling for the past week. Last night George V. Tuohy wired Jack Herman, manager for the mighty Pole, that unless he signed the articles today and posted a forfeit immediately some other man would be selected to meet Roller.

Roller appears to be in grand shape, and the rest he had at Mount Clemens has done him a lot of good. "I am a whole lot better than when I met Hackenschmidt here," he said, "and I know that if I get the Pole on the canvas he will have the merriest run he ever enjoyed." John Kilonis, the Greek middle-weight wrestler, who on January 6 fought Sam Anderson, the middle-weight champion of the world, for two hours to a draw in Manchester, New Hampshire, is open to meet any man in the world from 155 to 165 pounds.

The Manchester Union in speaking of the match, which was witnessed by a very large crowd, says: "Kilonis has a big following in this city, who will hand him to the finish, but even his most ardent admirers were dumfounded by his work last night. He was as fast as lightning and appeared to grow stronger as the bout progressed. He was also full of confidence and the fact that he was battling the champion of his class did not phase him in the least. "Every hold known to the wrestling game was worked by both men to no avail. When science failed, they tried brute strength to gain the coveted fall but without success."

Kilonis' eastern address is 138 Chestnut street, Manchester (N. H.), Western address, 1105 South Halsted, Chicago (Ill.)

HALIFAX, N. S., Jan. 17—The amateur league hockey match tonight was between the Wanderers and Crescents, both of Halifax, and was won by the Wanderers with a score of 8 to 4. It is the first victory for the Wanderers over the Crescents in four years. The game was fast and interesting, but was inclined to be rough. At half time the score was 4 to 2 in favor of the Wanderers, and at the end of the game the score had been doubled.

LITTLE INTEREST IN WASHINGTON

(Continued from page one.) with Canada. It was one of the great planks in their platform and they have to do something in the matter to save their faces. I don't say the outcome may not be beneficial to both countries, but remember the American people entertain no delusions on the subject. Canada is prospering too well under its present system for us to expect that there will be any wholesale lowering of her tariff. We don't expect much in a general way from these negotiations, hence we are not interested in anything less than a degree as Canada appears to be."

The foregoing is a typical representation of the point of view of the average American citizen so far as he is represented in the inhabitants of Washington. It may be said—and of course it is true—that Washington is not a typical city. The great cry for a change in the tariff relations appears to come from the crowded industrial centres, while the high cost of living is pressing hard upon the wage earners. They are crying not for reciprocity, that is too airy a dream, pleasing though it be to them, but for such a lowering of the duties as would permit of the United States becoming a much greater importer of food products from her neighbours and from agricultural Canada. And it is very problematical whether they will finish on that day.

These various demands, making some kind of tariff revision an economic necessity for the United States, are being seized upon and utilized by the politicians and the manufacturers to obtain from Canada glory for the one and extended market for the other. It is an interesting situation and it will be instructive to see how it will work out in the treaty that is now being prepared at the state department by the American and Canadian representatives—a treaty which, according to Sir Wilfrid Laurier, is to be a measure of reciprocity which will not hurt the Canadian farmers on the one hand, nor the Canadian manufacturers on the other.

This much it is possible to state—Messrs. Fielding and Paterson are finding the preparation of such a treaty a ticklish job and many a long and weary session are they having between themselves in discussing the questions introduced in the daily meetings with Secretary Knox and his officials. Today, owing to the weekly cabinet meeting, there is no reciprocity session at the state department, but the negotiations will be resumed tomorrow. Secretary Knox is so hard pressed with many other important matters that he is anxious to see this week. Messrs. Fielding and Paterson are similarly anxious to avoid delay. An effort is to be made, therefore, to get through with the

Trappy Thimbles

Every lady likes to have a good thimble in her work basket. It is a sort of complete touch of taste—in fact most women think with a good thimble. We are showing a decided nice line and we want you to see them.

Sweaters 1.95 Men's Stanfields sweaters, very heavy weight, worth \$1.95, for 1.18.

COMMISSION TO LOOK INTO BANK CASH

TORONTO, January 17—Two important meetings were held today in connection with the Farmers' bank failure. In the morning the creditors assembled and after hearing Commissioner Clarkson's statement of the bank's affairs nominated Mr. Clarkson as permanent liquidator. A petition was forwarded to the Dominion government praying for a royal commission to investigate the bank's collapse and a resolution was passed approving of government inspection of all banks.

DUKE OF TECK MAY COME

OTTAWA, Jan 19—It is learned from high authority that His Serene Highness the Duke of Teck, oldest brother of Queen Mary, may be the next Governor General of Canada.

Get Out Of The Wash Tub

The doctor will tell you there is nothing more dangerous than going from the steamy, sushy wash tub to the yard to hang out clothes. The steam from the wash tub penetrates your wearing apparel and opens the pores, and in this way many people contract severe and in some cases disastrous cases attacks of pneumonia. Better send your washing to this laundry and save time, worry and danger.

Star Steam Laundry A. F. Webster, Prop.

Although no official advice have been received by Government yet, until the Duke of Connaught will be unambiguous to assume the duties of his position, representative of the King, owing to the need of his presence in England.

Get after Business

The man who knows how to use printed matter has no difficulty in securing customers. I have ideas to put into your printed jobs.

Can you go out into any market in the country and get a good customer for the price of a thousand mailing cards,—or folders, or circulars?

Try mailing some special printed matter to a list of prospective customers. Don't you think they will be interested in what you have to tell them.

And, really, it will cost you very little. Please telephone No. 201-J and talk about it.

Arch'd Irwin Book and Job Printer 13 Richmond Street Charlottetown.

Nyals Cod Liver Compound

Cod Liver Oil is prescribed for many people who cannot take it because it nauseates them. When you pay \$1.00 for a large bottle of NYALS' COD LIVER COMPOUND you invest in a remedy that you can take. It is pleasant to the taste and can be taken by any one at any season.

There is nothing better for those who do not properly assimilate their food. It increases the appetite, aids digestion and builds the bodily tissue, giving health and strength to ward off disease. The more you trade here the better you'll like the store.

E. A. FOSTER Central Drugstore Sunnyside.
