Advertisers are asked to have 'changes' in not later than ten a. m. each Saturday for the Morning Daily and Rural Daily, as Guardian employees have a half holiday each Saturday. The business, and news departments are open as on other days.

Business men should remember that they can reach the country every day in the week except Sundays and stationary holidays by advertising in the Guardian's Rural Daily with a guaranteed average circulation for 1907 of at least four thousand per issue.

The Guardian's subscription department number is 132-2 and that of advertising 132-3. News department is 133-2 and editorial 133-3. And yet many people continue to ring the advertising department when they desire information about this paper or about news. They ring subscriptions when they really want advertising or news departments. They ring the news department when they really want advertising or subscriptions, etc. This continues mix up, which could be easily avoided by looking up the proper numbers, wastes an enormous amount of time besides giving so much trouble in the various departments.

Correspondents who send news items to The Guardian, but who forget to send their names in confidence, leave the news editor in doubt as to the reliability of the news. In all such cases the rule is not to insert the paragraphs, and thus no doubt mainly owing to forgetfulness on the part of the sender interesting news often fails to appear. Correspondents should always send their names with any news furnished to this paper. The name is not wanted for publication but it is necessary to ensure the appearance of the items sent.

The Correct Adjustment
of glasses is a matter of considerable importance. The beneficial effect of one's glasses may be largely nullified by ill-fitting mounts. We pay particular attention to the correct fitting of mounts, so that the full benefit of the lenses will be obtained. We supply the lenses of such shape and size as will be most becoming in each individual case. This is possible because we grind our own lenses and make them any desired shape. Our methods of examination give better results. Try us.

Wonderland

Continues from 7 to 10.30
Program changed every Monday, Wednesday and Friday

The excellent pictures of the film at two nights this week will be succeeded by a series equally as good for tonight and tomorrow night. They are "All for a Necklace" a tragic story told graphically by the pictures of a woman's vanity and the sorrow it causes; of her desperation and the remorse that followed the realization of vain desire. A very funny thing, is the picture entitled "A runaway motor" showing the various incidents in the career of a runaway motor and the adventures which befel it. A really beautiful piece of work is the colored picture entitled "Transformation." The film is a revelation of beauty in motion pictures and comprises some of the most entrancing results yet achieved. There are two other pictures making a program for tonight which will delight everybody. Mr. Harney will sing the illustrated songs and his singing will alone attract a large number.
Admission 5 cents to all parts of the hall

We will now receive dressed hogs from 125 to 250 lbs. Heavy hogs weighing over 200 lbs not wanted before 1st October.
Nothing but well-fatted stock will be received.
Would advise farmers to kill on cool days only, and allow hogs to hang over night as it will not do to market some day as killed.
