

Prince Edward TO-NIGHT

Daniel Frohman Presents
Laura Sawyer
In

A Daughter of the Hills

A Pastoral Drama of Ancient Rome
In Three Parts

With tranquil simplicity the story relates how a gentle Shepherdess all tenderness and sympathy who wed a powerful brutal gladiator wrought a reversion in his primitive heart and spiritually conquered his savage impulses. A drama that will guide the imagination back to the hills of Bethlehem

Coming Monday
Miss Ruth Blaisdell, Soprano of Boston

Coming Next Week Sixty Years A Queen

A Stupendous British Production
In 7 Parts and 286 Scenes

THE CENTRAL GUARDIAN

IT PAYS to buy in this Province. THE GREAT DETECTIVE PLAY.— Ticket of Leave Man at the Prince Edward on June 3rd.

HAWKSHAW the great detective at the Prince Edward on June 3rd, see how he runs the crooks to earth.

LOVE'S SEEKING, a beautiful song composed by Frank T. Watkis, City, is for sale at Miller Bros.' music store—Call and procure a copy. 2669-5-28M21.

SATISFACTORY SERVICE.—With his new ferry boat, Capt. Daniel Harris is making successful trips and performing a service that is proving satisfactory between Murray Harbour north and Murray Harbour south. This service is of great convenience to the residents of the Harbour.

GREATLY IMPROVED.—It is pleasing to learn that Miss Carrie Jardine, Charlottetown, who has been ill in the P. E. I. Hospital suffering from appendicitis, has almost completely recovered and will be able to return to her home shortly.

SAFE ARRIVAL.—Dr. Strickland, acting U.S. Consul at Charlottetown, has received a letter from former Consul Wesley Frost dated at Cork, May 16th, announcing the safe arrival of Mr. and Mrs. Frost in Ireland. They had a splendid trip and are delighted with the new surroundings. Dr. Strickland has not yet received any definite information as to when Mr. Frost's successor at Charlottetown, Mr. Hamilton Mayes of Columbia, Tennessee, will arrive here.

ALL ON HIS LONESOME.—An exciting incident occurred on Wednesday when Dr. Sharper, 2191, the erratic trotter owned by the McKinnon Drug Company, was being taken out to work on the track. The Doctor was being led along, when he suddenly plunged forward and escaped from his groom. He had all his harness on and at a two-minute trot made for the open country. He finally brought up at J. B. Andrew's hedge, about two and a half miles from the city. Turning there, he came back over the same road into the city. He was fairly flying on the trot, the loose harness striking him all the while and making him more and more excited. He

trotted back to the stable but finding nobody there, he made for J. A. Henderson's forge. On arriving there, however, there were so many teams and people about the forge that he would not go in but returned to the stable, where he was captured. His free exhibition of speed was witnessed by many, and several frantic endeavours were made to stop him, but he trotted past serenely contemptuous of such endeavours. Always on the trot, he would jump over such dogs as got in his way and would land on the trot, giving a wonderful exhibition of trotting. It is said that as he went by an old gentleman who was an admiring spectator, the force of the wind created by the Doctor's speed was too much for the old fellow and his equilibrium was disturbed, with a consequent disarrangement of the gravel nearby. The Doctor is now laid up in the stable for temporary repairs. Both his hind feet are in heavy poultices, having been severely bruised by the hard ground over which he passed at such a rapid rate. Strange to say, his harness remained almost all intact. Admirers of the Doctor are hoping that he will be able to repeat such displays of speed on race day.

PRESENTATION.—The most striking incident in connection with the recent convocation of Mount Allison University was the presentation of an address to Dr. R. C. Weldon, late dean of the law school of Dalhousie, on the occasion of his retirement from his life-work. The presentation was made by Lieutenant-Governor Wood, of New Brunswick, one of the earliest graduates of the University, an old and warm friend of Dr. Weldon. Dr. David Allison, who was president of the university when Dr. Weldon was professor on its staff, and Dr. A. D. Smith, one of his colleagues in those years, spoke in warm words of praise. Mount Allison is Dr. Weldon's alma mater.

DAILY SELECTIONS FOR GUARDIAN READERS

Furnished by W.S. Louso.

I HAVE NOT WROUGHT IT
Days I have sat, with passive hands,
and thought
How I might walk the heights with
godly men,
Who bring the hosts to Christ, by
tongue and pen;
Yes, I have thought dear Lord, but
have not wrought.

I have not wrought! Inspire me, Lord
stand!
Nights, I have prayed, until the ris-
ing sun;
Lord, help me, help some blind and
erring one—
Some wounded one; and then witheld
my hand.

I have not wrought! Inspire me, Lord
until
This faith I have, so meaningless
less and dead.
Is faith with works—rebaptized; Spir-
ited.
Bare armed and strong, I turn and
do Thy will.

REFERENCE and BANKERS

The Royal Bank of Canada, Charlottetown.

SOLICITORS

McKinnon & McNeill, Charlottetown, P. E. I.

Prince Edward Island has been raising Silver Black Foxes since 1877.

In 1910 a large shipment of Silver Black Fox pelts was sent to Lamson & Co of London and the average price realized was about \$1,400 per skin.

In 1909—1,827,000 Fox Skins were marketed, of which only 4300 were Silver Blacks. The best grades came from Prince Edward Island.

It will take from 15 to 20 years to supply the market with as many pelts as was procured from the wilds ten years ago. The wealth of the world is increasing the demand for furs every year.

Present prices of P. E. I. pedigreed live Silver Black Foxes range from \$15,000 to \$30,000 per pair.

A pair of extra choice breeders with a big producing record, sold in 1913 for \$32,500, and another pair of breeders and their first litter of four pups, were sold in 1913 for \$51,000.

The average life of the Silver Black fox is from 10 to 12 years and the size of the litter runs from 2 to 7 pups, the average being 3 1-2 to each ranch female.

Investors all over the world are waking up to the possibilities of fur farming, and that P. E. Island with only 1,602 pure bred Silver Black Foxes cannot supply the demand, hence the high and increasing prices for breeding animals.

The profits divided among investors in P. E. Island ranches in 1913 aggregate over \$3,000,000 according to the Government Report for the year ended 31st December, 1913.

So great is the demand for Silver Black Fox fur that even if every available pelt on Prince Edward Island was placed on the London market today there would not be sufficient supply to meet a two hour demand.

Wesley Frost, Esq., American Consul at Charlottetown, P. E. I. has estimated that \$900,000 of American capital has been invested in Prince Edward Island for enterprises to date.

The capital stock now issued is \$85,000 divided into 1700 shares at \$50.00 each. The authorized capital is \$170,000 so that the company can enlarge if necessary.

All expenses incurred in organizing and promoting the company, selling stock, etc., will be borne directly and solely by the promoters, every cent you invest goes to pay for five pairs of foxes at \$17,000 per pair.

Our five pairs of guaranteed, pure bred silver black foxes are from the best original ranch stock on Prince Edward Island, are from strains of high records for large litters and fur production, and are guaranteed free from any physical defect whatsoever.

One pair is from the ranch of Thomas Moyses of Bedeque, and is from stock closely related to two pairs that were sold by him in 1912. These two pairs produced eleven pups the next year and 13 pups in 1914.

We have arranged with Mr. Thomas Moyses of Bedeque, P. E. I., one of the most successful Fox Ranchers known and a man of unquestionable character, to ranch our foxes for one or more years. Mr. Moyses has had wonderful success raising foxes. The ranch in which he has full oversight sold in Sept. 1912 two pairs to a Company in Summerside, P. E. I., these two pairs were ranches with Mr. Moyses and in 1913 produced eleven pups which were sold in Sept. 1913 for \$17,000, per pair giving the Company a record dividend. We are therefore fortunate in securing such a capable and trustworthy man.

Ranching expenses will be 10 per cent. of the yearly increase for the first three years; after that period a vote of shareholders decides the disposition of this matter.

Mail your order for stock with 10 p. c. of the amount in cash the balance will be required Aug. 15; or write to the Secretary-Treasurer for a Prospectus or any information desired, or call at the office in Morris Block.

We are not promising absurd dividends. Our prospectus shows what others have done and we are confident of success.

This is a business man's proposition. The Directors are well known successful men in their line.

We recommend it as the best offering on the market.

Terms 10 p. c. with application. Balance August 15th, 1914.

Application for stock can be made to any Director or to the Secretary Treasurer
