WHERE THE FILM STOPS.

Swiftly the contents of the moving picture machine are extended. As soon as the spring opens, a man who has been for thirteen years in the employ of the Hudson Bay Company at their most northern posts will lead a band of natives making "rapports" into the Arctic regions. He is in the company of a woman who is pictured in the picture as a woman who has been for thirteen years in the employ of the Hudson Bay Company at their most northern posts will lead a band of natives making "rapports" into the Arctic regions.

EXTREME CONSIDERATION.

Annette, aged 3, has two very talkative little sisters and sometimes she finds it difficult to make herself heard at the table. One day when the others had been monopolizing the conversation, she whispered to her mother and she was taken to the kitchen and she listened to her mother's words with a worried expression and whispered half aloud, "I don't know what to do."

The fastest in the Wilkes family are Inbred, Oakley Baron (2:23) is an Inbred Wilkes. He is a direct descendant on the male and female line of George Wilkes through three of his best sons, Baron Wilkes (2:15), Onward (2:25), and Bourbon Wilkes. He is a magnificent individual, has all the qualities required in a sire, soundness, size, speed and beauty. His progeny sell for highest prices. Almost impossible to buy one. Oakley Baron is without doubt the best bred and handiest stallion on the Island. His early speed points to the fact that it is born with him. He will transmit it. HATFUL OF GOLD TO BUILD CHURCH.

One of the most remote churches in Great Britain was recently reopened after restoration. The church stands (partially by name) on the southern slopes of the Black Mountains in Breconshire. The font dates from 1660, and a good screen of singular beauty from about the year 1500. There are three stone altars with in the old church and a little western chapel built against it, while in the churchyard stands a preaching cross, and the remains of a stone ledge or bench run along the south wall of the church, on which the congregation could seat themselves. Out of the stem of an ancient yew tree grows a rowan and a holly tree. Tradition says the church was originally built by a foreigner who was cured of leprosy by the waters of an adjacent well and who left a hatful of gold to build a church as a thank-offering.

Make The Most of Your Cooking Skill

After devoting the necessary time and energy to develop special cooking fitness, to become the envied home-maker. Don't you owe it to yourself to get the best possible results?

Why, Madam, 't would be almost a crime to use cheap common flour then; and failure is at least a venial sin. For, you see, if you are bound to get "oven consequences" that are poor and mediocre, better by far conserve your energy and time

results from your day's work. You grow confident—ambitious—fastidious, knowing you have the very best tools any housewife can work with. So that you simply must get results such as even the highest—paid blue ribbon chef could not surpass. It is eminently worth while, isn't it? Surely, Madam, you will at least try a flour which promises so much. And you will use FIVE ROSES soon.
