THE IMPETUS OF VICTORY IS STEADILY INCREASING

Since Yesterday the British Alone Captured 7,000 Prisoners and Over a Hundred Guns, Forcing the Enemy Back from Important Strategic Positions and Winning a Victory Whose Importance is Very Far Beyond What is Expressed by the Big Haul of Prisoners. Enemy Resistance Although Determined is Gradually Melting Before the Onslaught of the Victorious Allied Armies.

(Special to the Guardian) LONDON, Oct. 25.—The British troops have overcome the enemy along the whole front between the Sambre Canal and the Scheldt and their advance is being continued. The main objective of the moment is the outflanking of the great forest of Mormal which is a serious obstacle to the advance on Mons and Mauberge. Since yesterday morning the British have taken seven thousand prisoners and more than one hundred guns. We have taken the villages of Poix Du Nord and Les Tuilleries and progressed beyond them toward Engle Fontaine. The village of Ghissignies was taken after a sharp struggle, the enemy defending with determination the crossing of the Ecailion in that vicinity. Northwest of Ghissignies we have secured the river crossings at Beaudriches which is in our hands after vigorous resistance. We captured a number of batteries including guns of heavy calibre. North of Valenciennes we have cleared the enemy from the Raismes Forest. The Canadians are in this part of the line and captured the villages of Thiers, Sautte River and Thume. Determined local fighting took place also west of Tournai with one kilometre on a three kilometre front and the Bois Bultruy, the Bois De Houpey and the Bois De Bellu are within the American lines as also a part of the Bois De Wavrille and Piyon De Traye. THE ALLIED ARMIES IN FRANCE, AND BELGIUM, Oct. 25.—Since Wednesday morning the British third army has taken 6,000 prisoners and at the first and fourth armies each has taken 1,200 making a total of 8,400.

This extension map shows the whole battle area in an interesting fashion and enables the reader to grasp what a tremendous battle is in progress. In 1 (the coast sector) Ostend and Zeebrugge the ports of Belgium held by the Germans have been taken in 2 (the Ypres sector) the enemy is being steadily driven back in 3 (the Lille sector) the coal fields have been regained; in 4 (the Cambrai sector) the Canadians, with the British, are putting up a desperate battle; in 5 (the St. Quentin sector) the French have crossed the Crozat canal and cut the German communications; in 6 (the Champagne sector) the French have driven the enemy back from Challerange and smashed the strongest part of the Hindenburg line; in 7 (the Verdun sector) the French and Americans are pressing on towards Metz which is already under their fire; while in sectors 8 and 9 fighting.

GENERAL OFFENSIVE ON ITALIAN FRONT

British Troops Have Attacked Austrian Positions Capturing 300 Prisoners.

(Special to the Guardian) WASHINGTON, Oct. 25.—The Italian embassy tonight received a cablegram from General Diaz, the commander in chief of the Italian army, indicating that a general offensive may have been opened on the Italian front. At the same time French sections attacked the enemy positions at Mount Sismel ordering the defenders to give way and capturing three officers and about 800 men. British troops have attacked the Austrian positions south of Asiago and have captured six officers and about 300 men.

Turn Back the Clock

Tomorrow morning at two o'clock the watches and clocks throughout the Dominion are to be set back to one o'clock. This delicate operation may be performed tonight before retiring and thus save an hour's sleep. The thing to bear in mind is that from two o'clock tomorrow morning the old sun times, that is, one hour before just stop the clock for an hour, move the present time, comes into effect. back the hands of the watch an hour and forget it. Everything goes by the old sun time from tomorrow morning.

AIRMEN DROP BOMBS ON HUNS

LONDON, Oct. 25.—The official statement dealing with the operations of the Independent Air Force says: On Wednesday night we saw ways at Burbach and Saarbrucken, chemical factories at Mannheim, and railways at Coblenz, near Mainz, at Metz Sablons.

Good Suggestion

A SPLENDID IDEA—The Guardian is pleased to note that it is proposed the campaign for the Victory Loan will be conducted by canvassers without any personal commission. This is as it should be in this Province where every other national or patriotic effort is conducted by men who truly and generously give their time as citizens imbued with a high sense of their duty in our Empire's need. It has been suggested that the commission allotted by the Government on these bonds be given to the two Hospitals in this city. This is an excellent idea. It is most opportune at a time when funds are greatly needed for those institutions and it will be a splendid spur to collectors. More it will be to contributors an added stimulus to generous subscription and absolutely erase any thought from their minds of underhand gain by any one. The Guardian has no doubt of the success of such a canvass, for we have the men, and the spirit.

The remains of the late Everett LeRoy Mismar, who died in Aberdeen Hospital, New Glasgow on Thursday from the effects of a fall from a train near Stellerton, N. S., arrived last night and were forwarded to the late home in Stanhope, whence the funeral will take place today at 2 p. m. The late Mr. Mismar was a son of Mr. John Mismar, Stanhope.
