SO. DAKOTAN OWNS OLD BOOK

OUSTER, S. D., April 6—What may be the oldest book in the state is owned by O. E. Harris of Sanator. The book is called "Iamblichus" and is said to contain mysterious knowledge of Egypt, Chaldea and Assyria. It is printed in old Latin. The volume was printed just 60 years after the Gutenberg production with movable type. It was produced in Lyons France by John Torsellum in 1552.

Persian Balm appeals instantly to the dainty woman. Stimulating the skin, making it velvety soft in texture, it creates and preserves complexions of exquisite charm. Delicately fragrant. Cool and delightful to use. Especially recommended to sooth and dispel roughness or chafing. Stimulating and invigorating. Imparts a youthful loveliness and protects and enhances the most delicately-textured skin. Persian Balm is the unrivalled toilet requisite.

BABY RATTLE FOUND IN STREET

VISALIA, Cal., April 6 (U. P.)—I. E. Oldfield discovered on a street here the first rattlesnake reported found in Visalia in many years. Oldfield noticed a flock of birds behaving strangely and investigated. He found and killed a baby rattlesnake.

Aircraft builders in Italy are sending many planes to Russia.

PULSE BEAT IMPERCEPTIBLE

IRONWOOD, Mich., April 6—A 60 year old patient at Grand View Hospital has so faint a pulse beat that it is imperceptible to physicians, it was reported today. He is suffering from clogging of the arteries. Blood pressure instruments show nothing and his pulse cannot be felt in the ordinary way.

Japan is launching several irrigation projects.

FACTORY MIXED FERTILIZERS

Experience has shown that larger and more uniform yields can be produced by using Factory Mixed Fertilizers, which increased yields pay many times over for the additional cost of the Mixed Fertilizers are compared with the cost of straight Chemicals which are mixed at home.

The percentage of farmers who have gone back to mixing their own Chemicals after having used Mixed Fertilizers is practically negligible, which is surely sufficient proof that there must be something to the argument that Factory Mixed Fertilizers are BETTER and worth the additional cost.

When we advocate the use of Mixed Fertilizers we feel we are working in the interests of the farmers, otherwise we could not recommend them. As the success of the farmers on Prince Edward Island means our success.

After making allowance for plant overhead, interest on our investment, and additional labor involved, our net profit on straight Chemicals. You will see, therefore, that it is not with the idea of material gain that we strongly recommend every farmer on Prince Edward Island who is not already using Mixed Fertilizers to try them out this year.

ROCKY POINT AND VICINITY
Farmers are anxiously looking for good transporting facilities to market their produce which was somewhat retarded during the winter months owing to such poor travelling on ice and roads to the city. The motor boat now on duty is doing all in her power, but not being able to take horses renders it very inconvenient to take produce to market and carrying home what you have purchased. The caterer has been over and have the floats in readiness to be put in at the very earliest convenience.

The continued illness of Jessie McMillan the eight year old daughter of Mr. and Mrs. Allison McMillan is causing her many friends great concern, all are looking forward to her speedy recovery.

Mr. Frank Smith who was so unfortunate to loose his comfortable home by fire, is busy rebuilding. The indisposition of Mr. John Quilly, South Shore, is very much regretted. His many friends hope as the warm, bright days come again it may be helpful to him and that he may soon regain his former health.

We are sorry to learn Miss Ella Murphy was compelled to give up her school owing to ill health, she is at present in the city under medical treatment. Restored health is anxiously looked for.
