**HOW TO ENJOY LIFE**

Should a man look upon his bread-earning as an unwelcome task, to be hurried and done with confusion and at the risk of his health, with the hope of reaching an early period of retirement when he may do what he will and really "enjoy life"?

But suppose a man can hope to retire at an early period and live thereafter without gainful work, is he justified in regarding whatever respectable occupation he has as a bore or as merely a method of earning enough money to retire on? And, if he so regards it, is he likely to enjoy his retirement?

He will make every doubtful experiment. Whatever a man does during his active period, he ought to do with such orderliness and thoroughness as to get from his daily and monthly and yearly labor the pleasure that comes from doing his task well and the additional pleasure of so doing it that he performs a real service.

To do anything wholly for the money it brings is not to do it well enough. And those men who contract the habit of working wholly for the money are likely thereby to unfit themselves for the enjoyment of a period of retirement. For the right-minded man makes agreeable companionships in his daily work, he finds problems that call for all his brain and character—for endurance, for fair judgment, for just dealing, for doing as he would be done by, and all these are the very warp and woof of successful living.

The kind of man to retire from money earning labor with the hope of really enjoying life is the man who has really enjoyed life during his period of hardest work. And you will deceive yourself if you imagine that in idleness you will develop virtues or a capacity for sensible enjoyment that you did not have during your working days.

**JUDGE CHIPMAN SEIZED WITH STROKE OF PARALYSIS**

WINDSOR, Nov. 14.—Yesterday at the court house here, Judge Chipman, of Kentville, was seized with a slight stroke of paralysis and is lying ill at the Victoria Hotel. His condition is not considered serious and in a few days he is expected to recover sufficiently to return home. His honor has just finished the case of George Harris and sentenced him to five years in the penitentiary. After the trial he went into the judges room to prepare for departure when he was suddenly seized with a stroke and fell to the floor, but was not unconscious.

**FRANCE IS BEING DELUGED BY RAINS.**

PARIS, Nov. 14.—Torrential rains accompanied by gales are being experienced throughout France, and especially on the Eastern coast. In many districts the rivers are rising causing floods. This is true notably with unprecedented rapidity, and in the Province of Haute Saone, where the railway to Paris is interrupted and various factories have been forced to suspend. Three thousand persons have been thrown out of employment at Harcourt, a cotton spinning town in Haute Saone. The town is without gas or electricity.

The Seine, in Paris, is beginning to rise and it is feared if the rainfall continues for any length of time, there will be a repetition of the disastrous floods of 1910.

**ECHO OF HALLOWE'EN.**—An interesting sequel to one of the many pranks that were played by impish youths on last Halloween is now engaging the attention of the Stipendiary Magistrate's Court of Charlottetown. The prosecutor is Mr. George Morrison, of Great George Street, who is proceeding against seven young men of the city, all respectable young fellows, for the alleged wilful damaging of a wagon and buggy belonging to him. The case was to be heard on Saturday, but owing to the fact that the prosecutor had that morning urgently been called away to Pictou, the matter was adjourned for a week. Mr. Duffy appears for the defendants.

**CURLING.**—Good progress is being made with the arrangements for the promotion of curling this season. The bonds that have been issued in connection with the Charlottetown Curling Club are being well taken up, and if the public give to the Club that support which is needed in this direction, the arrangements in contemplation will be effected in such a manner as to ensure the proper and successful pursuit of this very healthy and very fitting winter pastime. The club have secured an option on a piece of land in Charlottetown as the site of the rink they propose to build; this is the property known as Duffy's lot, which is situated in Grafton Street in close proximity to the Fish Market. Plans for the erection of the rink have been prepared by Mr. C. B. Chappell, the architect, and they have been submitted to and approved by the committee of the club who are now calling for tenders for the contract for its construction. The rink will be a covered one, consisting of a building 140 in length and forty-five feet in width, in which the ice will be formed in the same way as at the Arena Rink, and there will be three courses to allow of three games being played at the same time, each course being separated from the other.

**CONCERT AT CRAPAUD.**—Lady Lane Hall, Crapaud, was packed to the doors on Thursday evening with a large audience, which heard with deep appreciation and pleasure the concert given by the members of the Coulthard Mission Band, assisted by several others. Suppose we were Missionaries; song, Come little Leaves; recitation, Zilpha MacQuarrie; solo, Edith Thomson; quartette, Misses Thomson, Reid, McLean and Cameron; exercise, other Nations; song, Over the River; solo, L. The singing of the National Anthem brought to a close this very interesting program, every number of which was well executed, particularly the beautiful wreath drill, and much credit is due to Mrs. W. A. Thomson and Mrs. Windsor for their great care in training the band children, and thus making the entertainment a general success. A snug sum was realized which goes towards the Coulthard Mission Band. The concert will be repeated on Tuesday evening, November 18th in aid of Lady Jane Hall fund.

**WANTS CAPTAINS TO INSURE CREWS**

TORONTO, Nov. 14.—The recent disasters on the great lakes has inspired R. R. Gamey, M. P., for Manitoba to investigate the lack of protection for sailors, with the result that at the next session of the legislature he will seek to have placed on the statute books of Ontario some provision for the protection of sailors and employees of sailing vessels and steamers of all kinds.

Mr. Gamey, speaking of the great loss of life in the recent storm, said: "Sailing is about the only calling where there is no effort made to protect human life."

"The absolute disregard of the storm signals by captains and vessel owners is a very serious matter. These storm signals are never displayed except when the circumstances warrant the precautions, yet they are rarely heeded."

"Every vessel owner should be compelled to insure the lives of the crew. Some provision must be made for the protection of the widows and children of the men who are forced to take their lives in their hands at this time of the year. Men are compelled to go and in times like this fully 75 per cent. of the sailors go out against their own good judgment. If they decline to go they are accused of mutiny and liable to arrest. It seems they must either take a chance with death in the storm or be branded as mutinous or cowards."

"Every captain should be compelled to supply to the office of the shipping company or at the port of departure, the names and addresses of the crew with the next of kin, the same as is done on the railways in the case of brakemen and conductors."

"British Cough Cure give the best results. Exceptionally good for children. 25c. bottle. E. A. FOSTER, Central Drugstore. 2682-11-15M31.

**IS THE FATHER OF 31 CHILDREN**

MONTREAL, Nov. 14.—Records were broken in Juvenile Court this week when Antoine Labelle, 62 years old, of 13 Monette lane, brought his two little sons before Judge Choquet on charges of disobedience, and at the same time announced to the court that he was the father of 31 children. "I have been married three times, your lordship," said Labelle, "and am the father of 31 children. This is the first time I have had any trouble with any of them, so I have brought them to court."

"Thirty-one children?" echoed Judge Choquet. "That's quite a record!"

"Well," continued Labelle while persons from the corridor began to pour in to have a look at him, "it is true, I have lived in this city for 56 years, and worked in one place—the Canada Horse Nail Company—

for 37 years. I am now working for a sewing machine company."

The boys Labelle brought to court were ten and eleven respectively. They wept as their father addressed the court.

"I was born in the Lake of Two Mountains district," said Labelle to a reporter afterward, "and later came to Montreal. I lived with my first wife 22 years, during which time we had eighteen children. After her death I married again, and in nine years of married life had six children more. After my second wife died, I married again, and I have had seven children in fourteen years."

Labelle stated that of the 31 children 28 were boys and three girls. Ten of the children are living. The eldest child Ferdinand Labelle, is a resident of Montreal, the father states. Mr. Labelle is well known in St. Joseph's Ward. When the district was known as the Antoine Division he was active in politics there. Judge Choquet, after admonishing the boys to obey their parents and

go to school hereafter, allowed the lads to go home with their father.

Lefontaine who accomplished the Codification of Church Law and Reform of the Roman Breviary.
