Ice Races At New London

The second of the winter series of New London ice races took place on Friday afternoon, Jan. 31st. The weather was ideal, and the ice in fair condition. A large number of enthusiastic race fans attended.

The races this winter bid fair to surpass the enviable records of other years. The New London Racing Association was started in the winter of 1913 by Mr. Walter Found and a coterie of residents of New London who dearly love to see a trial test of speedy horses. Mr. Found is now a prominent lumber merchant in Nebraska. Let he has an able successor in the person of Mr. John Lockhart who is assisted by a conscientious and capable committee.

At the race on Friday the spectators were called to the judges stand by the announcer Mr. Harry Morrison and told that in order to provide attractive purses for a big free-for-all to take place in the near future the Association-needed more funds—the result was instantaneous—the "hat" was passed, and over \$30.00 were donated, which with the contributions of those who have not yet had a chance to donate will go a considerable distance on a good purse for the free-for-all.

The people of New London take an especial pride in their institution and are willing to back it up with the coin of the realm. A fast exhibition half-mile was given by Aloyone (owned by William Carew, Kensington) driven by T. Semple and Merry wid.

DREADFUL SITUATION IN MOSUL CONSTANTINOPLE, February 3. (Canadian Press Despatch from

Reuters, Limited.) — The little news that has been received from the Asiatic provinces of Turkey indicates that there is considerable distress among the population owing to the shortage of foodstuffs, high prices and great insecurity and lawlessness prevailing. The winter is fortunately mild thus far, which tends to alleviate somewhat the precarious situation of the people. Four American relief ships, bringing large cargoes of flour and clothing are under way. Reuter's correspondent reports a terrible story of cannibalism which occurred eight months ago at Mosul, where six small children were sacrificed and their flesh roasted for food. There would seem to be no doubt as to the truth of the story which is confirmed by a photograph showing the execution of the men and women at Mosul, who perpetrated this horrible crime. The heads of the unfortunate little victims were found in the house of the two culprits
