Dr. AYERS.

Dr. A. W. CHASE

DISCOVERED NERVOUS TREATMENT DISEASES FOR

In his study of diseases of the nerves, Dr. A. W. Chase found that in nearly every case the cause of trouble was improper nourishment. About one-fifth of all the blood in the human body is found in the brain, and unless this blood is rich and pure the nerves cannot obtain proper nourishment, and become worn out and exhausted.

Nervous depression, nervous headache, nervous dyspepsia, loss of sleep and vital force, lack of energy, are symptoms of weak, watery blood and exhausted nerves.

It was as a food for blood and nerves that Dr. A. W. Chase's Nerve Food was prepared. Its remarkable success in curing all diseases arising from thin blood and impoverished nerves is proof that Dr. Chase's theory of feeding the nerves and blood is the proper one; stimulants only urge on the tired and worn out nervous system until there comes a complete collapse.

Dr. A. W. Chase's Nerve Food creates new brain and nerve cells, and makes the blood pure and rich. It restores to the exhausted nerves the vigor of perfect health. See a large box, at all dealers, or Edmansons, Bates & Co., Toronto.

Your neighbor as yourself when your neighbor is a pretty girl. It is just as to cure yourself of Catarrh Bronchitis or Asthma, if you use Catarrhozone, the new medicated air treatment for all diseases of the nasal and respiratory passages caused by germ life. Catarrhozone cures by inhalation without dangerous risk to the sufferer. It goes wherever air can go and never fails to reach the affected parts. This is why it excels treatment requiring the use of sprays, douches, powders, ointments, &c., which cannot reach the seat of the disease and are therefore useless. For sale at all druggists, or direct by mail, price \$1.00. Send 10c in stamps to N. C. POLSON & CO., Manufg chemists, Kingston, Ont., for sample outfit.

BETTER THAN ALL OTHERS

The Improved Double Lever and Roller Bearing

"QUEEN" CHURN

REASONS WHY

"QUEEN" CHURN IS THE BEST

It is easy to operate, as it is fitted with roller bearings. There are no cranks to turn. By a simple device the barrel is secured to the frame resting on roller bearings, and the Churn revolves with the slightest touch of the operator.

It does not get out of order, as in its construction the same of simplicity and durability has been resorted to.

Another convenient and valuable feature consists in the frame being mounted on two heels, thus allowing the Churn to be on the same to be moved about the room to any position, and with very little effort.

For sale by all our agents on the Island—see them before buying and you will have no other.
