THREE WOMEN CHARGED WITH HUSBAND MURDER IN N. B.

Two Men Dead and the Third Dying—Two Suspected Wives in Jail—Another Awaits Result of Disinterment and Inquest—Outline of the Cases.

FREDERICTON, N. B. August 28.—Mrs. George Marsden, charged with poisoning her husband at Meductic, a small village near Woodstock, is now in goal here awaiting trial, and is accompanied by her three weeks' old baby. Still another alleged husband-poisoning case has arisen, this time in Victoria County. A few days ago a young married woman named Rogers, who lives near the American boundary line, was placed under arrest on a charge of attempting to poison her husband by putting rough on rats in his food. She was lodged in goal at Andover, and the preliminary examination was commenced at that place on Monday before Police Magistrate McQuarry.

It appears that Rogers was taken ill several weeks ago, and a physician whom he called in pronounced it a case of poisoning. Since that the man's condition has shown but little sign of improvement, his eyebrows and finger nails are dropping off, and his general health seems to be considerably impaired. While he has a chance for recovery, it is feared by his friends that it is a very slight one. Mrs. Rogers' explanation of the affair is that she had been using Bough on Rats in the house, and a rat, after swallowing a quantity of the poison crawled into a jar of cream and died. Her husband afterwards drank some of the cream and her theory is that he got poisoned in this way. The preliminary examination of the prisoner has not yet been completed, as it was found necessary to postpone it for the prosecution to procure additional evidence as to the exact condition of the man.

Still another case is that of Thomas Wooden, a fairly prosperous and widely known farmer of Patterson Settlement, Sunbury Co., who died on January 7th last, apparently from the effects of two bullet wounds in his head. He was 63 years old. A jury empanelled by two justices of the peace of Blissville parish made investigation and gave it as their opinion

that the deceased was a suicide. The proceedings were hastily and, it is alleged, somewhat irregularly carried out and the body was buried. But instead of the circumstance dying out and being forgotten, the gossip of the little community gathered around certain peculiar incidents connected with the tragedy and suspicion arose and grew and spread until to satisfy the demands of the people of that and adjoining parishes, it has become necessary to take action and shall decisively clear up the mystery. A son of the deceased who has never believed that his father's death wounds were self-inflicted, is the prime mover in the affair and has declared his intention of immediately having the body exhumed and expert medical examination made of the remains. When this is done it is the belief of many conversant with the story that facts will be brought to light which will show that Thomas Wooden's death was not due to suicide, but to murder, treacherous and cruel, at the hands of one whose every care should have been to preserve his life and minister to his comfort.

Suspicion turned toward the widow as knowing more about her husband's death than she had told at the inquest. Reasons were whispered why we should wish him out of the way and the names of other men were mentioned in connection with the affair. Then Harry Wooden returned from the lumber woods early in the summer and he also refused to be satisfied with the verdict. After learning the details of the death it is stated that he did not hesitate to accuse his stepmother openly of complicity in the tragedy. He wished to investigate the matter further, but did not know how to go to work at it. He refused to live at home and has since been working with other farmers in the neighborhood.

One of the accusations made by rumors was that poison had been used on Thomas Wooden previous to the infliction of the bullet wounds. The body will be exhumed and another inquest held.

JOURNEY BY LAND FROM PARIS TO NEW YORK

Harry De Windt Tells of His Trip Made in 248 Days—Believes a Railway Will Yet be Built—Unpleasant Natives Met With—2,000 Miles with Horses, 2,000 with Reindeer and 2,000 with Dogs.

NEW YORK, August 23.—"I believe absolutely in an all rail route from Paris to New York," and Harry De Windt, the explorer, who reached this city early yesterday morning, having made the trip from Paris by an all land route, except for Behring Strait, in 248 days. "The railroad plan is absolutely feasible. The chief difficulty will be at Behring Strait, but this can be overcome with comparative ease by the building of a tunnel. A lot of fools over in France have been talking about a bridge, but this is ridiculous, for the ice moves four miles an hour, and it would never hold such a structure. I've just been there, and I know. If the money is forthcoming for this road, and I believe the funds will be secured, then it will be completed in twelve years. In another ten years the line will pay for itself."

Mr. De Windt, who is apparently in perfect good health, his face bronzed and his step buoyant, said he would not repeat the trip for anything. One fearful experience of his previous trip, in 1896—his forty-seven day visit with the Tchukches—he said he avoided this time by going three hundred miles to the north of that tribe. "In 1896," he said, "they stole all my tins and instruments, and they kept me eating raw seal meat, while they regaled themselves with my provisions."

With the explorer on his trip were G. Harding, his servant and Viscounts de Clainchamp Belle Garde. The latter went along as a paying guest and took photographs. He only reached Seattle, and then left for France. He had frozen his feet badly.

The journey was perilous throughout. Starting from Paris on December 10, the party first made their way by rail to St. Petersburg and thence to Irkutsk, on the Siberian Railway. Reaching that city in January, they undertook the more dangerous part of the trip. They travelled 2,000 miles of the distance to Behring Strait with horses, 2,000 with reindeer and

2,000 with dogs. Mr. De Windt said he saw a number of Russian political prisoners, and that their condition was sad in the extreme. "Their life is a hell upon earth," he said; "the expression is literally true." The Siberian trip was made with the temperature far below zero most of the time. The Russian officials warned them repeatedly, but they continued, though it cost them much hardship. In Alaska danger and discomfort were again met with, but after they had passed through Alaska they were able to take advantage of the American railroads. The Americans as well as the European roads, Mr. De Windt said, flanked him over the entire distance.

"Most of my friends," he said, "never expected me to do it. You see, I really had failed twice. In 1896 the Tchukches made me go back. Then in 1900 the Russian Government wouldn't let me go through on account of the troubles in China. So this time my friends were doubtful. In fact they bet with me, and I stand to win \$200 simply on long shots. Had I lost, I wouldn't have lost more than \$10. Mr. Pearson, of 'Pearson's Magazine,' wired me at Dawson City, Alaska: 'A thousand congratulations. I never expected you.'"

THE SKIN ON FIRE.

So dreadful are the sensations of burning, itching eczema that victims frequently describe their sufferings by saying that the skin is all on fire. The stinging, biting fires of eczema are quenched by the use of Dr. Chase's Ointment. The first few applications may cause a little uneasiness but cure is sure to result and the skin is healed without scar or blemish.

GEO. DOUGLAS BROWN DEAD.

LONDON, August 28.—George Douglas Brown, the distinguished author of "The House of Green Shutters" died here suddenly today.

SHAW VISITED LONDON.

PARIS, August 28.—The Shah of Persia visited M. Loubet today and lunched with the President, M. Delcasse, the minister of Foreign Affairs was present. The Shah returned to Paris during the afternoon.

The Unhappy Burden-Bearer Must Make Choice.

Paine's Celery Compound Takes Away the Load of Disease and Leads to New Life, Health and Happiness.

The unhappy victim of disease who has just dragged through the summer, and who is now racked with suffering and almost a physical wreck, must make immediate choice of two paths. One leads to increased misery and certain death, the other to new life, health and happiness.

The use of Paine's Celery Compound is a necessity for all who seek the path of health and long years. Victims of rheumatism, neuralgia, kidney disease, liver trouble, dyspepsia, nervousness and blood diseases, quickly and surely find new life, vigor and strength in Dr. Phelps' medical prescription—Paine's Celery Compound. It builds up the system, purifies the blood, braces the nerves and regulates digestion as no other medicine can do. Mrs. Chas. Charette, Cambly, P. Q., wonderfully rescued by Paine's Celery Compound writes as follows:

"I can honestly say that I would not be living to-day if it had not been for your wonderful medicine. For a long time I suffered terribly from nervousness, sleeplessness, head and stomach troubles, and never received much benefit from ordinary medicine treatment. I heard of your Paine's Celery Compound, and I have good reason to thank God that I used it. I can now eat well and sleep soundly, and my nervousness is a thing of the past. I now feel perfectly rested after a night's sleep, which was never the case before using the Compound. My neighbors are surprised at the great cure made by your medicine, and some are using it now. I thank you sincerely for the honest results given by Paine's Celery Compound."

SOUTH AFRICA RUMORS.

JOHANNESBURG, August 27.—A strong force of British troops has been despatched to the western border of the Transvaal, ostensibly to relief troops ordered to India, but it is currently reported this step is being taken owing to disturbances among the natives.

Rumors are also current here of an intention to annex or establish a protectorate in Swaziland, where a strong force of constabulary is now posted.

UNMISTAKABLE SIGNS OF CATARRH.

If you have a ringing in the ears, drooping in the throat, bad breath, headache, morning weakness, bad taste in the mouth—then it is catarrh. Use Catarrh-zone Inhaler four times daily and eradicate the awful disease from your system. Catarrh-zone kills the germs, heals the inflamed membranes, clears nose, throat, and air passage by one application. Catarrh-zone quickly remedies the head noises and deafness, prevents drooping, and is warranted to absolutely cure all forms of Catarrh, Bronchitis, Asthma, and Lung Troubles. Two months' treatment costs \$1.00; trial size 25c. Druggists or N. C. Polson & Co., Kingston, Ont.

| Raspberries. | 0 03 to 0 10 |

SUNDAY SCHOOL CONVENTION AT STURGEON.

The sixth Convention of the Georgetown District Sunday School Association met in the Baptist church at Sturgeon on the afternoon and evening of Aug. 28th. As the Pres. P. A. Dewar, Montague was absent the chair was occupied by G. F. Mellish Union Road.

The following schools were represented:
1. East, Whim Road, Union, Maggie Campbell, Emily Martin.
2. Lower Montague, Presby. Samuel Aitken,
3. Lower Montague, Meth, Richard Creed, Damaris Creed.
4. Montague, Presby, Rev Mr. Sinclair.
5. Sturgeon, Baptist, Jas. and Mrs. Creed, Mrs. W. Creed.
6. Sturgeon, Meth, Cephas Davy, E. Thompson, Tillie and Florence Conrad.
7. Montague, Meth, Bessie Stewart.
8. Union Road, Meth, D. E. Ross, G. F. Mellish, C. R. Moore, Miss B. A. Moore, Ira Ross.
9. Georgetown, Baptist, Mrs. Henry, Lizzie Leaman, James Manuel.

Brief reports were given by the delegates of the progress being made in the schools and also many discouragements are met, yet some increase in interest and members was reported. The Field Secretary Rev. G. P. Raymond conducted an open conference on "The Superintendent," which was interesting and profitable. Rev. Mr. Sinclair assisted in answering the questions and contributed much to the profitableness of the session. At the evening session the house was filled, and a large choir rendered several selections which added much to the interest of the meeting.

The devotional service was conducted by Rev. Mr. Sinclair who has lately come from Nova Scotia to take charge of the Montague Presby. congregation. He also gave an excellent address on "The Relation of the Parents to the Sabbath School, in which he emphasized the fact that the school belonged to the parents and they should always speak of it as "ours." He also spoke of the need of proper equipment in the school and pointed to some maps which the Field Secretary had hung on the wall recommending the purchase of them for the schools. Parents should show their appreciation of the work of officers and teachers by contributing to the funds of the schools so that all needed supplies could easily be obtained. Parents were urged to attend the school that their example would help to keep the young men in the school. Miss Bessie Stewart of Montague then gave a recitation "A child's question" it was well rendered and much appreciated. The Field Secretary gave a report of the International Convention recently held in Denver Colorado. There were 1383 delegates present representing 54 States, Territories and Provinces and 25 different denominations. This address gave the audience a good view of the great work being done by the congregation. There are now over fourteen million members in the schools of North America and nearly all using the International lessons. The next convention will be held in March at some place to be determined by the Executive Committee.

B. A. MOORE, Sec'y (protem)

TO PREPARE LEMONADE

is its home and expensive; Sovereign Lime Juice makes a tasty, delicious, inexpensive substitute.

DUMPED ON CANADA.

OTTAWA, August 28.—The American health inspectors at Quebec, since the opening of navigation rejected an average of ten diseased or pauper immigrants, destined for the United States, and these are now dumped in Canada. The Canadian authorities have not yet done anything under the law of last session.

SPEEDY CURE FOR CRAMPS AND COLIC.

THE D. R. A. ENTRIES.

OTTAWA, August 28.—Over 350 entries have already been received for the D. R. A. matches.

MESSERS. C. C. RICHARDS & Co.

Gentlemen,—In '98 I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal, until your agent gave me a bottle of MINARD'S LINIMENT which I began using, and the effect was magical. In five hours the pain had ceased, and in two weeks the wound had completely healed and my hand and arm were as well as ever.

Yours truly,
A. E. RO.
Garage-maker, St. Antoine, P. Q.

THE RIGHT TIME

To buy the proper thing in watches, necklaces, rings or other adornments is now. Of course values don't fluctuate much in our business, but we can serve you more satisfactory now than during the Christmas crush, for instance. Always ready to serve you, but now's a good time.

L. W. COOK
Jeweller.

Ch'town Business College

—AND—
WRITING ACADEMY
CH'TOWN, P. E. I.
This College re-opens for the Fall and Winter Course on

THURSDAY, AUG. 14, PROX.

Intending students will consult their own interests by entering as soon as possible after the date of opening. Last year we were most successful in placing our students in positions. To enable us to do the same this year they must enter early in the session. There are lots of splendid positions waiting for competent persons to fill. Business men are acquainted with our course and method of instruction and apply to us for competent young men and women. Come and get a live education; one with some backbone in it. If, perchance, you have made a mistake in the past, try an education in which you will be rewarded as you exert yourself. The past is gone, the future is yours. A special course in Shorthand and Typewriting will be given as soon as the term begins. "Phonography, What it is and What it Does," by Ben Pitman; also full particulars relative to the College will be cheerfully furnished on application to
L. B. MILLER, Principal
Ch'Town, July 17—d & w.

FORCE

Albany, N. Y., March 2, 1902
"FORCE" FOOD CO.,
