### MISSING LETTER CONTEST

Here is a chance to win a valuable prize. In some of the advertisements appearing in the contest you will find a missing letter. These missing letters put together will form the name of some firm on the page on which the prize winning solution will be decided. Accuracy in forming the correct name will be the first consideration, but neatness, originality and speed in getting a solution to the contest editor will also count. Four valuable prizes this week. Get busy. Find the missing letters. Compose them in to the firm's name and mail your answer to the Contest Editor Charlottetown Guardian, Charlottetown, P. E. I. to reach him not later than Tuesday night.

Contestants must enclose with their solution a current week paid bill from one of the advertisers in The Missing Letter Competition.

Last Week's Winners:

- Mrs. J. T. Ferguson, Marshfield.
- Mrs. J. A. Macdonald, Charlottetown, R. R. 5.
- Mrs. Wm. W. Murphy, Hunter River.
- Mrs. MacPherson, City.

## IMPERIAL PUPPY FOOD

The success, following the use of this popular "Imperial" product during past seasons, has clearly proven its merits to our experienced ranchers, who are planning on feeding liberally this year.

Our formula is specially suited to the needs of the young and growing foxes, is rich in vitamins, and a sure preventative of rickets.

Puppy Food may be ordered either "Fine" or "Coarse" to suit the rancher's requirements.

Order early so as to be sure of receiving your supply in good time as a heavy demand is anticipated.

### CAN FLY UPSIDE DOWN

The raven apparently is a past master of the aviator's trick of flying upside down, according to a communication to Nature, L.London, by the Danish ornithologist, A. Vedel Taning.

"I have had," he writes, "the opportunity of seeing many hundreds of these interesting birds in Iceland where the number is rapidly increasing, probably because of refuse from the fisheries. I have seen about 100 of them performing evolutions in the air around a favorite nesting place, and it is rather common to see them fly upside down.

"As far as I can judge this behavior is not particularly connected with courtship, although it is most often seen at mating time, when air acrobatics are especially prominent."
