Ladies! Secret To Darken Gray Hair BRING BACK ITS COLOR AND LUSTRE WITH GRANDMA'S SAGE TEA RECIPE

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked hair beautifully dark and lustrant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss. While gray, faded hair is not sinful we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

Our informant was unable to mention the sales price or give the names of the parties who made the purchase, but at the same time the amount of money changing hands would be sure to run over the thousand dollar mark. The Mac horse, as he is familiarly called is one of the Commodore colts and is Island bred. He holds numerous track records, and has everything raised in the Provinces surpassed as far as speed is concerned.
