## HOME AND SCHOOL ASSOCIATION

There's a Good Reason You're Constipated!

When there's something wrong with you, the first rule is to get to the cause. If you are constipated, don't fiddle around with makeshift remedies. Find out what's giving you the trouble!

Changes are it's simple if you eat only what most people do: meat, bread, potatoes. It's likely you don't get enough "bulk." And "bulk" doesn't mean a lot of food. It's a kind of food that isn't consumed in the body but leaves a soft "bulky" mass in the intestines and helps bowel movement.

It's that you, your ticket is a crisp crunchy breakfast cereal—Kellogg's All-Bran. It contains the "bulk" you need plus the great intestinal tonic, vitamin B. Eat All-Bran every day, drink plenty of water, and just watch the old world grow brighter! Made by Kellogg in London, Ont.

reasonable bounds in central Europe will be on the agenda. The following questions were also expected to be reviewed: 1. Italo-French relations and the stand to be taken by France and the British when the League of Nations Council meets on May 9 to consider among other things, London's request for "settlement" of Ethiopia's status—that is, recognition of Italy's sovereignty over the East Africa region.

2. Africa in French North Africa and other Arab territories. 3. The Spanish situation, with Britain stressing it is necessary to come to an understanding with In-surrender General Franco, and a study of Anglo-French strategic interests in the western Mediterranean.

Economic negotiations with the Soviet Union with a view to counter-balancing Germany's economic influence there.

SEEKS CLOSER TIE—PARIS, April 19—(AP)—Premier Edouard Daladier dropped work on the subject of the League of Nations to concentrate the Cabinet's attention on foreign affairs—including, in-formed quarters said, the idea of seeking closer ties among Great Britain, the United States and France.

Officials were silent about the report that Daladier and Foreign Minister Georges Bonnet were going to London April 28 primarily to confer with the British about the possibility of opening conversations with Washington.

The Van Zeeland report, some quarters said, was the vehicle by which the French and the British hoped to win American economic co-operation.

This report, made last January by former Premier Paul Van Zeeland of Belgium at the conclusion of a world survey, proposed an international pact under which democratic and autocratic nations would collaborate to remove trade barriers, stabilize currencies, consolidate international debts and open up colonies.

There would be no attempt to "drag" the United States into European politics, it was said, but the French and British long have held that any attempt to rehabilitate the world economy was impossible without American co-operation.

Daladier whose prestige soared this morning when 90 per cent of the 160,000 striking French metal workers returned to work, had associates in the chain of decrees laws he planned would have to wait while he and Bonnet worked on foreign affairs.

The first job was to complete the Franco-British agreement before the Spanish Foreign Minister, Julio Alvarez del Vayo could use the League of Nations Council meeting May 9 as a sounding board for his possible objections to the negotiations.

## Elder Dionne Girls Enter Convent Today

(C. P. by Guardian's Special Wire) QUEBEC, April 19—Two sisters of the Dionne quintuplets will enter the Ursuline Sisters' convent today to begin their 12-year-old brother Ernest will be enrolled as a student in College Apostolique at St. Alexandre at Gatineau in the Ontario-Quebec border.

The sisters, Rose, 11, and Therese, nine, arrived in Montreal late yesterday, accompanied by two nuns in a motor car. Their whereabouts were not known but a doctor at Notre Dame Hospital said they visited the institution this morning.

Purpose of the visit was not known but the physician said their names were not on the hospital's registration.

At the convent, the Sister Superior confirmed the expected arrival of the Dionne girls but said she knew no further details, not even their names. "We were just asked if we could accommodate them and we replied that we could," she added.

From the Gatineau Point college came an announcement that Ernest had accompanied his sisters there from their Callander home, would be enrolled tomorrow. But details were lacking there, too, and other members of the family were non-committal.

## LIVE CATTLE INDUSTRY LOSES JITTERS

Look To The Future With Optimism Reports Indicate.

(By R. K. CARNEGIE Canadian Press Staff Writer) OTTAWA, April 19—(CP)—The live cattle industry in Canada is losing the jittery which seized it early last month and now looks to the future with optimism, judging from reports reaching the Department of Agriculture. Prices held reasonably well through the lull in the week anticipated because they did not materialize.

The outlook was exceedingly gloomy a month ago. Lent always tends to bring on a buyers' market in the beef business because of the lighter domestic consumption of meat. Prices in the leading United States markets were down and exporters were unable to get sufficient appetite to maintain all the live cattle they desired.

Cattle feeders, particularly in Ontario, had brought in thousands of cattle from the drought areas of Saskatchewan and Alberta to finish. Bureau of statistics figures for Dec. 1 last estimated there were 1,436,500 cattle being prepared for slaughter. The year before the figure was 1,256,400.

Fear spread among the livestock men the domestic market would be glutted and prices break, entailing heavy losses. Appeals pointed into the department and to members of Parliament urging something be done to increase the ocean space.

Parliament was told by Agriculture Minister Garneau everything possible was being done to get more ships into the cattle trade.

Officials of the department now feel the most critical period is past and the domestic market held unexpectedly firm throughout last week. A top price of \$7 a hundredweight for heavy steers was paid in the Toronto yards. Total exports for the week were 2,384 heads, which 1,132 went to United States and 1,252 to United Kingdom. While this was a considerable reduction from 3,696 in the corresponding week last year, all of which went to United States, it was a substantial improvement.

The chief reason for the search for ocean space is the lack of wheat for export. A sharp market advance recently carry cattle without other cargo. If exports of goods which can be stored below decks increase, it is possible the ocean shipping will be doing more to Britain would assist in the movement of cattle, which could be carried on the same ships.

Canada should export around 200,000 head of cattle annually. Last year, it ran almost 210,000 of which 2,852 went to United States and the remainder to Britain.

## HALIFAX MAYOR RETURNED BY ACCLAMATION

Contests Assured In Three Wards In Civic Elections April 27.

HALIFAX, April 19—(CP)—Contests were assured in three wards in Halifax civic elections April 27, after nominations closed tonight. Mayor Walter Hamel was returned for a second term when no opponent appeared.

Three of the six retiring aldermen sought reelection but only one, J. F. McDonald, in ward four was unopposed. At least two new faces will appear around the Council Board when J. H. Brennan, in ward one, and Gordon Kinley, in ward two, received nominations.

In the three remaining wards, retiring aldermen will meet newcomers to civic politics. A. H. W. Frear will contest ward five with Dr. Richard Hamer and three with a race between veteran alderman F. W. Curtis and Edward Arab, youthful barrister.

In ward six alderman John Walker, one of the Council's most respected members, will oppose James Clarke, retired civil service worker.

Aldermen are elected for three years, one in each ward retiring each year. The Mayor is elected for a period of one year but it has been customary not to oppose him until he has served three terms.

## Compensation For Damages Awarded

OTTAWA, April 19—(CP)—Residents of the State of Washington who claimed nearly \$3,000,000 as compensation for damages allegedly caused by fumes from the smelter at Trail, B. C., were awarded \$78,000 by the tribunal set up to deal with the matter. Its unanimous report was made public today.

At the same time the tribunal instructed Consolidated Smelting and Refining Corporation operators of the Trail plant to maintain a corrective regime designed to prevent any further damage. The tribunal will meet again at the end of 1940 to ascertain if correction measures have been effective.

and it was reported of the correct grade, it was alleged. They therefore claimed damages for loss of the City's refusal to permit the car of asphalt to be used.

Explanation was made that possibly the car had contained a lighter material previously and a small quantity remained in the dome.

Recorder Martin said that after looking into the facts of the case as he could ascertain them he decided that the City was not responsible for the amount claimed.

Claimed Paving Co. Owed City Money

Coun. Holman declared that not only did the City not owe the paving company any money but rather the paving company owed money to the City for rent of equipment.

The City was not credited with the proper amount for the use of rollers and similar machinery, he said. Paving and street cleaning meeting decided to defer decision as to what action to take until a thorough investigation could be made into the question.

The City was not credited with the proper amount for the use of rollers and similar machinery, he said. Paving and street cleaning meeting decided to defer decision as to what action to take until a thorough investigation could be made into the question.

Referring to another point raised by Coun. Holman concerning the matter of the City's equipment, Coun. Douglas informed the meeting that, acting on the advice of the tender and street committees, the City had decided to purchase new machines at \$500 per day each in place of the usual rate of \$100.

Reason for the action was given by Coun. Holman as being the fact that the City was paying \$1.95 per square yard for paving, another company was charging the City \$2.45 per square yard.

Coun. MacIntyre explained that the paving of the roadway was undertaken against the advice of the engineer. The thought uppermost at the time was the providing of work for unemployed men in the city, he said. It was felt that unless the work was completed before the fall closed the money provided by the Federal Government would not be available another year.

those who have criminally used the blood and brave spirit of our youth for the purpose of destroying Spain.

Government leaders, he declared, "are still sacrificing life and strength in a doubly criminal resistance. Addressing the Barcelona regime, he said: "It is already known that you will obtain nothing (by resistance) and that you are defeated."

"It is time that all people who have got beneath your tyranny know that this prolonged and absurd resistance is only a means to prepare your escape. But do not forget that every day that passes, every life, every home you sacrifice, every other crime you commit will be a new sin against you the day you confront our justice."

## CITES EXECUTIONS

VATICAN CITY, April 19—(AP)—(A. P.)—L'Osservatore Romano, the Vatican newspaper, published statistics today listing 1,379 priests and members of religious orders allegedly slain by Government forces in Spain.

The newspaper said the figures, supplied by the college of propaganda of the faith, did not include secular priests who have been killed by the hundreds.

The victims were members of 27 different religious orders or congregations. The article detailed gruesome methods employed in executions.
