CROP REPORTS FROM THE NORTHWEST.

The Northwest Provinces have come to be looked upon as the great granary of the Dominion and are hoped yet to be the largest and most productive harvest field on earth.

The Northwest has been and doubtless will be in the future one of the Dominion's best assets. It has furnished the great attraction to immigrants and has in that way added a million to the population of Canada.

For these and other reasons any check upon the rapid growth and progress of the Northwest, whether arising from natural or other causes, is, as we have said, a detriment to the entire Dominion and a cause for national regret.

There are conflicting reports as to the extent of the damage wrought by the drought and heat. There is also a degree of sensitiveness among the people of the prairie country in regard to having the actual facts made known.

THE PROPOSED NEW CORONATION OATH.

The bill introduced in the British Parliament by Premier Asquith to amend the declaration to be made by the King proceeds along the lines which had before been suggested.

"I do solemnly and sincerely, in the presence of God, profess, testify and declare that I am a faithful member of the Protestant Church as by law established in England, and I shall, according to the true intent of the enactments which secured Protestant succession to the throne of my realm, uphold and maintain the said enactments to the best of my powers and according to law."

The amended declaration clearly asserts that the King is a Protestant and will guard the Protestant succession to the throne. It is quite as binding for that purpose as was the original formula.

A few weeks ago some effort was made to induce the Presbyterian General Assembly and the Methodist Conference of N. B. and P. E. I. to pass resolutions in opposition to any amendment of the coronation oath.

The Cape Breton collieries regularly employ from 7,000 to 10,000 men. The Alberta and British Columbia coal mines employ about 4,000. To these must be added 1,000 more employed in the Springhill and Pictou districts.

Railway building in Canada goes on apace. It is expected that this year 1,500 miles of new track will be laid down, which will be about the same length as was laid down last year.

Store Closes every Monday Afternoon at 1 o'clock.
