HYSLOP BICYCLES Bicycles are rapidly coming back into popular favor, the demand this year being five times what it was five years ago. We have planned for it in two ways—by getting the very best English wheel we can for popular selling, and by saving to our customers all intermediate profits by filling orders direct by mail instead of through agents. In this way we can offer \$50 Wheels for \$25 and give better satisfaction all round. The quality of the wheels is all right—only the best materials used and only skilled mechanics employed in construction. The equipment is right up-to-date and the machines throughout are such as we can thoroughly recommend. We sell automobiles as well as bicycles and our plan is to make wheels serve as a good advertisement to the entire business. Send for illustrated folder.
