## Y Defeats Army 5-3; Tied With S.D.U. For First Place In Schedule

A Y.M.C.A. hockey team last night defeated an Army team 5-3 in a regular game of the senior city hockey league schedule. It was the final game for the Y and the victory gave them 14 points putting them in a tie position for first place with the St. Dunstan's University team. For the Army it was just another played eight games and lost all of them. But they were game and battled to the last second.

Only one more game remains to be played in the schedule, tonight at the Forum the Army meets the fifth place team, the R.A.F. The result of tonight's game will not affect the playoffs. Last night's game was played at the S.D.U. rink.

Last night the Y got into action midway through the first period and before it ended had rolled up a 4-0 lead.

It was Army's turn in the second period and for a time it looked as though they might pull themselves out of the hole but the best they could do was collect two goals while holding the Y at a standstill.

In the final session, however, Carmichael, Y defenceman clicked at the four minute and 20 second mark to make it 5-2. Less than a minute later Dickie for the Army scored the final goal of the game.

NEW YORK, Feb. 15 (AP)—The battered New York Rangers received another blow today when it was discovered that Gordon Davidson, young defence player, suffered fracture of the metatarsal bone in his foot in Sunday's game against Toronto Maple Leafs. Davidson will be out of the lineup for about three weeks.

The Rangers also will lose Angus Cameron, centre, after Thursday's game against Detroit. Cameron has been called for duty by the Royal Canadian Air Force and will leave Friday for his home at Regina.

## GRATEFUL DIABETICS

LONDON (P)—Between 150,000 and 200,000 people in Britain are always ready to praise Food Minister Lord Woolton and declare his war-time diet is good for them. They are the diabetics. "It seems paradoxical to talk about wartime benefits," the Diabetic Association said, "but it is nevertheless true that we have learned much about diabetic treatment in the war years and the physical status of the diabetic has improved beyond recognition."

# All Commercial Vehicles Will be Rationed Under New Regulations IN FORCE APRIL FIRST

ON MARCH 31 the present gasoline ration licenses will expire, and no gasoline will be sold except upon the presentation of a 1943-1944 ration book. Commercial vehicle operators are urged to complete at once the necessary application for each of their vehicles, so that there may be the least possible delay in issuing new gasoline licenses and ration coupon books.

Under the new system, effective on April 1, all commercial vehicles will be rationed. After investigation, an allowance will be fixed for each commercial vehicle. This allowance will be individually tailored to the essential needs of the vehicle in wartime. When a vehicle has been approved for inclusion in a commercial category, the owner will be issued a gasoline license and two ration coupon books containing a maximum of 100 coupons each. After he has used up his first book, he will mail the cover to the Regional Oil Control Office where the book was issued, and if eligible will be issued a new coupon book or portion thereof. At the Regional Office receipt of the cover will be recorded, and charged against the individual vehicle. In this way the Office will know when the allowance for a vehicle has been exhausted, and thereafter will issue no more books to the owner for that vehicle.

With the gasoline ration licenses gummed windshield sticker, bearing the letter "T", will be issued. Until this sticker is affixed no gasoline may be purchased for the vehicle.

As a guide to the Regional Oil Control Offices, but not as a fixed yardstick of allowance, two classes comprising five Commercial categories have been established for the new system. Details of these categories are printed in the application form.

### Procedure to be followed by applicant for a Commercial Category:

1. He secures his 1943 license plates.
2. He secures an application form from his nearest Post Office.
3. He fills out this form, answering every question completely and accurately.
4. He has the form vouched for by the mayor, chief of police, county or municipal clerk, or a barrister, solicitor or notary public, in the community where he resides. (Owners of vehicles in the Transit Category must also obtain a Transit Control permit from the nearest Regional Transit Control Office).
5. He sends by mail to the nearest Regional Oil Control Office his application, his motor vehicle license, and a \$1 registration fee. (The fee is \$1 for each application).
6. He will receive, after a week or more during which his application is carefully investigated, his gasoline license and ration coupon books, and the return of his motor vehicle permit.

### Regional Control Offices—

- NEW BRUNSWICK: 88 King Street, Saint John
