

Zam-Buk

The old Roman charioteers and heroes wounded by wild beasts in the ruined Colosseum at Rome, anointed their wounds with secret balms made from the roots and herbs of the field. Instinct tells us to rub a place that hurts, and in Zam-Buk, the great herbal balm, is found the ideal substance with which to rub. Zam-Buk differs from ordinary salves, ointments, etc., in the important fact that it contains no trace of any mineral substance, and is also free from animal oil or fat. It is composed of the finest herbal essences and juices, and is so refined that the most delicate skin can absorb it with beneficial effect. It is at one and the same time healing, soothing and antiseptic. It does more, does better, and does it in less time than any other known balm.

Eczema, Scalp Sores and Eruptions Cured.

Mrs. Henry Harvey, of Charlottetown, Ont., says: "I am glad to state that Zam-Buk in my case has done all it was recommended to do. I had some sores on the scalp which have caused me such a pain that I could not bear to touch the part. These remained for nearly two years, and defied all remedies. I tried Zam-Buk and was astonished to find, after a fair trial, that I was glad to report that the sores are quite cured. I can strongly recommend Zam-Buk for scalp ailments."

Mr. T. Bull, of Cooksville, Ont., says: "I consider Zam-Buk splendid value. I have used it on my face, neck, and arms, and have found it to be a most valuable remedy for nearly two years, and defied all remedies. I tried Zam-Buk and was astonished to find, after a fair trial, that I was glad to report that the sores are quite cured. I can strongly recommend Zam-Buk for scalp ailments."

What Zam-Buk Cures. Cuts, bruises, burns, scalds, eczema, pimples, raising sores, sore feet, poison, wounds, frost-bites, piles, bad legs, disease, rashes, abscesses, boils, ring worms, etc. It is a most valuable remedy for nearly two years, and defied all remedies. I tried Zam-Buk and was astonished to find, after a fair trial, that I was glad to report that the sores are quite cured. I can strongly recommend Zam-Buk for scalp ailments."

KING'S COUNTY GUARDIAN

P. G. SEAMAN, Souris, will be glad to receive news and advertising for "The King's County Guardian," as well as new and renewal subscriptions for the "Morning Daily" and the "Rural Daily." Telephone connection.

The death occurred at Sturgeon, King's County, on Sept. 26th, after a brief illness, of Edward Mahar, aged 65 years. Deceased leaves a family of five sons and three daughters to cherish his memory. He was a kind and loving father, and was held in high esteem by all who knew him. The deceased was an extensive contractor and built many wharves and bridges throughout the Province, and was also a very successful farmer, and built one of the finest farms in this section of the Island. He was ever ready to assist in the cause of temperance and all other good works, and will be greatly missed. Rev. Wm. Phelan performed the obsequies at the church and grave.

Most every person has something to dispose of. All who reside in this county should have an advertisement of same to their nearest Guardian Branch Agent and thus sell it quickly.

W. A. JOHNSTONE, Montague, will be glad to receive news and advertising for "The King's County Guardian," as well as new and renewal subscriptions for the "Morning Daily" and the "Rural Daily." Telephone connection.

ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadcast declaration, and the broader the scope of the announcement, the better the advertising. No occupier of space that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended in this end be adjudged exp.

50,000,000 FOR ADVERTISING

"James B. Duke, the tobacco king of Long Branch, New Jersey, recently declared in an interview that he had spent almost a million dollars in advertising in the past year, more money in advertising than any other living man. He said that the figures would reach fifty million dollars.—Newspaperdom."

Yet James B. Duke is today one of the wealthiest men in the world. When you see a liberal advertiser you see a rich man. The business man who in this age of advertising is afraid to invest his money in publicity will never accumulate a fortune.

GREAT SPECIALISTS IN STOMACH CATARRH.

Though often they fail to give even temporary relief, Mr. W. Seymour of Hantsville, Ont., cured himself with Ferreroze. "My trouble," he says, "was chronic catarrh of the stomach. There was constant bad taste in my mouth, I was constipated and usually nauseated before and after meals. I also had a grinding sensation in the stomach. Ferreroze gave me great relief, and I also used Catarrhoxone which is good for catarrh. Although it took a number of boxes of Ferreroze, I feel better in my health and my stomach is now normal. A marvel worker is Catarrhoxone which prevents thousands of Catarrh victims from contracting consumption. It is recommended by doctors, proven by time to be unfailing. Catarrhoxone is just what you need. 25c and \$1.00, sold every where."

BUY HIGHLAND MARY

Several months ago we offered Two Million Five Hundred Thousand Shares of Blue Bell at 10 cents per share. It was quickly over-subscribed, and thousands of dollars were returned to disappointed applicants. Soon after we placed our new offering on the market, and offered One Million Shares at 10 cents per share. Applications were received for three times the amount offered, and were again compelled to discontinue many clients.

The fortunate purchasers of Blue Bell and Lucky Boys have already witnessed an advance in these shares of fifteen times the purchase price in the Larder Lake district. These advances are insignificant, however, in comparison to the advances that are still to take place in these shares. We are pleased to announce the development, and are advised by our engineers that there are now thousands of tons of rich values in which amounting to millions of dollars. We strongly advise every shareholder of Blue Bell and Lucky Boys to keep what they have. Within the next year or so ten times the present value will be reached.

Never in the history of mining has such an opportunity for making money been presented as is now offered in the Larder Lake gold district. In the wonderful Highland Mary properties, there is a gold mine of the greatest opportunity that have ever been offered for investment in a gold mine. The Highland Mary district will be the wonder of the world, and Highland Mary is in the heart of it. Miners and prospectors from all parts of the world are flocking to the Larder Lake district, and their disposal are sending their representatives and mining engineers into the field, and are snapping up everything that can be purchased. The time for investors to get in on the rock bottom is NOW—THE PRESENT TIME.

The opportunity offered in Highland Mary will probably never occur again in this district. Investors should accept this opportunity and buy in one of the greatest mining companies that will be known in this new Eldorado at the present rock-bottom prices of 10 cents per share. We have gone to great expense, and have used every method available to learn and know the exact situation in the Larder Lake district. We have sent a number of reliable mining men in different directions and to different locations. We have established our own assaying office on the ground at Larder Lake, putting in charge of it mining engineers of known ability and reputation. We have not taken over a single claim that has not shown actual merit. That is to say, with visible gold in quantities, and in quantities. We are informed by our engineers that there has never been a gold district known that has shown the wonderful yield of quartz veins containing free, visible gold as now actually running in the Larder Lake district. We have quartz vein assays of gold from \$20 to as high as \$12,000 to the ton, that vary in width from 8 feet to 10 feet.

The Highland Mary properties consist of 1,200 acres, being 20 well-selected 60-acre gold claims, undoubtedly and unquestionably the choicest of the district at the present time. Now, we want to make this comparison. In the gold fields of Nevada, where the gold camps have gained renowned reputation—in camps as well known as Tonopah, Goldfield, and others—gold has been made from claims varying in size from 10 to 20 acres. Just think of it! Ten or twenty acres running into values as high as \$10,000,000! Mining men we have in the Larder Lake district who are well acquainted with the Nevada camps claim that the Larder Lake district is so far ahead of the mining camps in Nevada that there is no comparison whatever. Even the Rand in Africa, it is believed, will not come up to the wonderful gold district of Larder Lake. We have received in our office in the past week many samples taken from every claim owned by the Highland Mary Company. Out of these we have had a great number of assays made by our own assayer on the ground. These assays run all the way around \$200—the lowest to \$20,000—the highest. Our assayers on the ground, of course, cannot obtain as high assays as in laboratories in Toronto, where we have obtained the highest assays, running from \$27,000 to \$12,000 to the ton. Therefore, it is safe for us to estimate that the assays made by our own engineers on the ground are considerably under what we would actually receive were the stamp mills that the Company will install on the property in actual operation, together with the existing process, by the use of which every particle of gold produced will be saved. Could every investor come to our office and see the wonderful quartz samples, with gold showing in every portion, they would need no further urging or any further argument to convince them what Larder Lake is and what it is bound to be. Investors who do not take advantage of this wonderful opportunity will, in a year from today, see and realize the great opportunities that they had to invest their money with great profit. We are in a position to judge, and we feel that we are judging rightly when we say to these investors: "Put your money into Highland Mary now. Every hundred dollars that you invest at the present time will, in a year from today, bring you ninety times that amount." This may seem to be a broad assertion, but consider well the great amount of territory, and consider well the millions that are made from properties consisting
