WINTER FAIR MEETING.—The Amherst News says: A meeting of the Prize Committee of the Maritime Winter Fair was held in Amherst Tuesday afternoon. Among those in atendance are F.L. Fuller and J.P. Landry of Truro, A.E. Trites of Salisbury, J. F. Roper from the Island and Stanley Logan, Amherst Point. In a short interview Mr. Fuller, Secretary of the Fair, stated that there had been a deficit last year but it was hoped that a larger attendance could be brought about so that the Fair, which was a great success so far as exhibits were concerned, would also be a financial success. The grand from the federal government this year is a little larger than last year.

SADIE McAULAY CASE.—The adjourned session of the June Circuit Court opened in St. John Tuesday morning, before Mr. Justice Chandler. In view of the fact that the principal matter to come before the Court was the fourth trial of John Paris, charged with the wilful murder of little Sadie McAuley in August last year, an additional panel of 31 jurors has been called in order to ensure an adequate number from which to select the jury to try the case. As on the occasion of the last trial the Attorney General, the Hon. J. P. Byrne, K. C., with Dr. Wallace, K. C., appeared for the Crown and G. H. Vernon, K. C., of Truro for the accused. On the Attorney General moving for trial, Mr. Vernon said he wished to make application for a continuance of the case for a few weeks in order that he might have an opportunity to investigate some further evidence which had recently come to light and such he was given to understand ought to be of considerable value to the accused. The Attorney General said he felt it his duty to oppose the application, which was made upon such general grounds that it was almost impossible to frame any proper answer. No sufficient grounds had been put forward to warrant any postponement, nor was there any indication of any kind as to the value of the new evidence it was hoped to get. It seemed to him that the only reason for the application was to delay the trial, notwithstanding what Paris said to the contrary. During the hearing of the arguments, Paris sat in the dock apparently but little concerned as to the outcome, although he appeared to be following the proceedings very closely. The only time he manifested a particular interest was when his counsel announced his withdrawal from the case.

War Stores Sales Realize Large Sum

LONDON, July 20.—Sir Howard Frank, chairman of the Disposal and Liquidation Commission in an introductory note to Cmomand Paper 1640 on the disposal of surplus Government property, and on liquidation for the financial year 1921 states that from the armistice to March 31st, 1922, the sales of surplus Government property amounted approximately to $3,123,401,530.

With regard to the future, Sir Howard states that "although approximately 87 per cent of the total quantities of stores reported as available for disposal to March 31, last, have been sold including block sales on forward contracts, a large amount of work yet remains to be done."

During the year several large factories, including Gretna, Queensferry, and Lancaster, were declared surplus and handed over for custody and sale. In the case of Gretna it was felt that every effort should be made to sell the whole property as it stood, including its power stations, townships, etc. Although extensively advertised, no reasonable offer for purchase as a whole has yet been received. Unless such an offer is received shortly, it will be necessary to offer parts of the factory and the townships for sale in lots, and to dispose of the machinery and stores.

The sale of 800,000 barrels of herrings, declared surplus in January, 1921, has been completed the gross amount realized being about $4,500,000. The herrings were shipped to the Continent and have been sold mainly to Germany and Russia.

In regard to general sales, it is stated that 143,550 huts have been sold. Furniture sales realized $1,437,000. Thirty million bricks have been declared surplus by the Ministry of Health and are now for sale; plant and machinery sales, including railway material, amount to $25,320,000; sales to home Government departments during the twelve months approximated $500,000; and $500,000 has been realized by the sale of olive oil and castor oil during the year.
