

Those Tired Nerves

When you are nervous, irritable, unstrung—when you worry and fret over trifles—when your appetite fails: then is when you need a direct nerve tonic.

Here is one which contains no alcohol. It's value comes from phosphates and tonic alkaloids, properly combined. The name? Penslar Dynamic Tonic. And of course the full formula is on the label. That is the Penslar way.

This splendid remedy supplies to the nerves the needed phosphates, restoring their tone and vitality—it is a builder, not a mere stimulant. We'd like to tell you a great deal more about it next time you are in. 75c bottle.

At Kansas City—Brooklyn 10; Kansas City 2.
Chicago-Newark postponed on account of wet grounds. Only three Federal games scheduled.

PROVINCIAL EXHIBITION

(Continued from page one)
CARTER AND CO. LTD.

Carter and Co. Ltd. are showing this year a splendid exhibit of samples of next seasons wall paper manufactured by Colin McArthur & Co. of Montreal, the largest wall paper Manufacturers in Canada. Carter and Co. are agents for this well known firm for P. E. Island. Very beautiful and varied patterns are shown for the drawing room, hall, dining room, bed room and kitchen. We are informed by Carter and Co. that this is the best line of wall papers ever shown by the firm. Some striking examples in bold artistic designs in rich coloring and gold outline were a notable feature. Some quiet tones of blue and brown for bedroom treatment, which give a sense of calm repose, are a speciality. No visitor to the Exhibition should fail to see this fine exhibit.

BEER & WEEKS.

The Island's biggest household supply house has a large and comprehensive display of high-class dining-room furniture and accessories of substantial workmanship and pleasing design. They occupy nearly the whole of the space from the entrance to the south-west end of the building. A ten-piece suite in mahogany, including buffet, china cabinet, extension table and serving table, and six chairs upholstered in real leather are well worthy of inspection.

Another companion suite in solid oak in the style of the Jacobean period, in dull polish finish, is a splendid example of Canadian workmanship.

A varied display of pedestals in oak, jardiniere in both polish and brush finish, mirrors in bevelled edge and figured oak and Circassian walnut frames, and also a unique selection of articles of Indian manufacture, including fancy hand-worked linens, souvenir cushion tops, birch bark and leather novelties, pennants, etc., go to make up a most attractive stall.

BRUCE STEWART & CO.

Charlottetown's premier engineering firm are making a general exhibit of their Imperial gasoline motors in their big booth in the grounds. The Ideal Farm engine and the West Chester farm engines have been on the market for a number of years and farmers everywhere can speak in the highest terms of their sterling qualities. There is also a fine 5 horse-power Universal Ford car on view. A friction hoist for use in discharging cargo on schooners is an interesting feature. Circular spindles and the saws of the celebrated "Gold Coin" brand, manufactured by Messrs R. H. Smith, are also shown, while Columbia batteries for all kinds of ignition work, farmers' feed boilers and feed boxes, etc., make up the balance of this fine exhibit. The different parts of the "Imperial" showing the internal workmanship were a very instructive feature.

MILLER BROTHERS.

Miller Brothers of this city specialize at their big stall at the North East end of the hall with the superb products of the Heintzman Piano Co. and other makers of the highest class. A grand player piano in Circassian walnut by Sherlock & Manning, and another in mahogany in Louis design are magnificent specimens of superb workmanship.

Some fine American organs, notably the Karn and Thomas organs are on view in three different styles. These instruments display the highest qualities of workmanship and bear a long record of sterling service in churches, schools, etc.

Two well-known, reliable makes of sewing machines are also exhibited, viz.: the New Home and the New Williams, in three different styles. Three splendid types of the Edison Cabinet phonograph in oak and mahogany demonstrate their superb qualities of tone and expression at intervals for the benefit of visitors.

A. E. TOOMBS.

Mr. A. E. Toombs represents the Willis Piano Co. of Montreal. This firm has the biggest and best showing of pianos on display in the Island.

The Willis piano was exhibited at the Toronto Exhibition and achieved a record there. Quality and workmanship are unrivalled.

A fine instrument in "sarcasm" walnut is a special attraction, the unique feature of which is the eccentric natural figuring of the grain of the wood on the front. A fine player piano and American organs are also exhibited.

The Edison Disc, the Edison Cy-

linder and the Columbia Grafonola are all featured in both mahogany and walnut. They possess a delightful mellow tone free from harshness.

The Edison Disc Phonograph, one of Edison's latest and best inventions is giving demonstrations at short intervals. This is one of the finest and best showings to be found. This is Mr. Toombs' first showing at the Exhibition and reflects great credit on his enterprise.

Mr. W. S. Gesner, of Amherst, the representative of Messrs. Willis & Co., is associated with Mr. Toombs in demonstrating the qualities of the Willis instruments.

THE AMHERST PIANOS.

This justly celebrated instrument, made in Nova Scotia by Canadian workmen holds a front rank place in the estimation of P. E. Islanders. From "Factory to Home" is the firm's slogan. Mr. R. T. Laury is here as the wholesale representative of the firm, while Mr. R. C. McDonald is the local manager. During the month of July last no less than 60 homes on the Island purchased Amherst pianos, which certainly shows the high estimation in which this fine instrument is held in P. E. Island. A magnificent lumberland player piano is shown; also instruments in the style of Louis XIV. and XV. Another player piano of superb finish, fitted with electric lamps, is also on view.

Miss Edna McDonald, an accomplished pianiste, will demonstrate the instruments' capabilities at short intervals. An inspection of these instruments will be well worth while.

THE "MADE IN CANADA" MAGNET CREAM SEPARATORS AND ENGINES

A magnet cream separator operated by a 1 H. P. "magnet" gasoline engine is one of the attractions of the machinery Hall. Both 5 and 6 H. P. engines are also in operation. This booth is in charge of Earl Foster, Marshfield, who is always willing to demonstrate the good qualities of the "magnet" engines. In the main building at the head of the butter and cheese stand may be found the attractive exhibit of the famous "Magnet" Separators. The Dominion gold Medalist. The remarkable increase of sales during the past year proclaims its popularity. The "magnet" separator and engine are manufactured by the Petrie, Mfg. Co. Hamilton, Ontario. Mr. L. H. D. Foster, their Provincial representative for the past four years will, on request, willingly demonstrate the good qualities of the Magnet.

FARMERS, ATTENTION!

The De Laval Separator and Alpha Engines Co. An old friend, the De Laval cream separator stands as a positive guarantee of excellence and splendid worth. For this very efficient, durable and satisfactory machine, Mr. A. E. Wood is representative in Prince Edward Island. The separator is supplied by the De Laval Dairy Supply Company, Ltd., the head offices of which are in St. Peter's Street, Montreal. Mr. Wood has secured a highly interesting and attractive booth facing the main entrance to the big Exhibition building for the display of the De Laval separator. There can be no question as to the popularity of this particular machine, for the sales it has commanded are sufficient evidence of that. About ninety per cent. of the butter factories of the world use the De Laval. This alone is striking evidence of the popularity of the De Laval Cream Separator. Isn't it? The admirable motto of the De Laval manufacturers is "Quality first—consideration—price after." Mr. Wood has something new in the line of a Milk Clarifier, which should interest every milkman. This machine clarifies the milk before it is delivered to the customers and thus enables them to give their customers clean, pure milk.

HALL MANUFACTURING CO.

The combined thresher and cleaner driven by a diminutive 2 1/2 h.p. I.H.C. engine is the main exhibit of the Hall Manufacturing Co. It includes a 74 feet stacker or straw carrier and a bagger. Messrs Irvine & Co. are the Charlottetown agents.

"ALPHA" GAS ENGINES.

In the Machinery Hall Mr Wood also exhibits the famous "Alpha" engines, the most convenient, reliable and economical power for the farm, dairy, creamery or shop. The "Alpha" Gas Engine is the highest grade and most reliable engine that you can buy.

GRAY HAIR

Dr. Tremaine's Natural Hair Restorative will positively restore gray hair to natural color and keep it so. It is not a dye, and will not injure the scalp. Satisfaction guaranteed or money refunded. Shield lined and finished with that care and devotion to detail that good dressers demand and appreciate.

We are exclusive agents.

Moore & McLeod
119-121 Queen Street Ch'Town
R. T. Holman Ltd.
Water Street Summerside

for any purpose whatever; but on account of its simplicity of construction and reliability of operation it is unusually well adapted for farm use.

INTERNATIONAL HARVESTER CO. OF CANADA.

The International Harvester Co., whose reputation for perfection and efficiency in their supplies is unsurpassed, have on exhibition the famous kerosene oil engines the "Mogul" and "Titan," one driving a feed grinder and the other driving a "Hall" thresher, which are wonderful pieces of machinery. No one who has any use for a first-class oil engine can afford to be without one of these engines. They are also showing a new and improved line of cream separators, the "Rose" and "Lily." These are the acme of efficiency in their line. Also on exhibition is a motor balling press for pressing hay. It is driven by an engine which can be worked equally well with kerosene or gasoline. This is an important

fact, as it is both convenient and economical to have an engine adapted to either kind of fuel. All accessories and necessary parts for repairs are supplied. The exhibit of the Harvester Co. is the largest of its kind, and the building in which their exhibits are displayed is their own private property. The exhibit is under the highly efficient and capable supervision of Mr. J. A. McIsaac.

CARRUTHERS-PATERSON MANUFACTURING CO.

The Carruthers-Paterson Manufacturing Co., Ltd., of St. John, Halifax and Sydney, present a fine showing in floor covering and roofing material, featuring the famous Congoleum rugs. This is a new material of superior hard wearing quality and handsome designs and coloring, made by an entirely new process. It has been largely used during the past three years in leading hotels, hospitals and institutions everywhere. Sydney hospital has just been equipped with

this material. Stair rugs of the same fire-resisting material are also shown. This material is waterproof, rot proof, and will stand the hardest kind of wear. This company are also manufacturers of Amatic, Everlastic and Panamatic roofing, also Barrett crocote shingle stain. Congoleum is stocked by Messrs Paton's, Prowse Bros. and Rogers Hardware Store. Amatic roofing is handled by Fennell & Chandler.

REFRESHMENT DEPARTMENT.

The needs of the inner man are very efficiently catered for this year as usual by Mr. George H. M. Carver, of the Forester House, Pownal, at his old stand underneath the back of the grand stand. Mr. Carver's reputation in this department is known and appreciated throughout the length and breadth of the Island. Special hot dinners are served during the day at 40 cents, also lunches, teas, etc., at reasonable prices. In the saloon only soft drinks are supplied, but these can

be had in great variety. Iced drinks and ice cream will also be on tap during the day.

Dr. S. E. MARTELL.

Doctor S. E. Martell, expert in optics and refraction, is again at his well known stall to the left of the entrance of the main building. Examinations are made free of charge, and visitors will find this an unique opportunity to have their eyes tested by an expert of many years experience, and suitable glasses prescribed for all varieties of defective vision.

Dr. Martell is ably assisted by Mr. R. H. Martell, a graduate of the Halifax Optical College. Patrons are assured of the most prompt and skillful attention of these capable refractionists.

BOY SCOUTS.

A feature of this year's Provincial Exhibition is the presence there of a
