Mrs. Topley won the first prize. Other prize winners were Mrs. P. W. Turner, Mrs. H. T. Jamieson, Mrs. W. A. Rix, Mrs. J. Brady. The prizes were donated by Mr. J.O. Hyndman, Mr. G.D. DeBlois, Mr. Allan Stewart, Mr. Roy Cudmore, Mr. Noel DeBlois, Miss Emma Nicholson and Miss Isobel Storey.

RECEIVES CALL.—Rev. E. B. S. Miller, M. A., of Trenton, has received a unanimous call to St. James United Church, Antigonish, the pastorate of which has been vacant since June 1st. Rev. Mr. Miller and Mrs. Miller have been in Antigonish for the past month while he was filling the vacancy. Mr. Miller, who is a son of Mr. and Mrs. George Miller, of Trenton, and a brother of Mrs. M. L. Neima, New Glasgow, resigned his previous charge at St. Peter's Bay, P. E. I., a year ago to do post graduate work at the University of Toronto, receiving his Master of Arts degree this Spring, while Mrs. Miller pursued her studies in Music in Toronto.—New Glasgow News.

COMPLETES 26th. FLIGHT—Completing his 26th successful air operation over Europe, Pilot Officer Clarence W. Higgins of Charlottetown arrived safely back at his base in the British Isles after the raid on Osnabrueck Tuesday night. Fire in one of the engines of the Halifax, which the local airman was piloting, did not deter him. This broke out as he neared the target but the flames were blown out when the plane "feathered" and the machine lost 6,000 feet in altitude, PO. Higgins crossed the English Channel at 12,000 feet on the return trip. He was one of a combined force of British and Canadian airmen that raided the German industrial city. He is a son of Sgt. Watson Higgins of the City Police Force and Mrs. Higgins.

Personals

Miss Helen Woolner of the Civil Service, Ottawa has returned to her duties after a short holiday at her home in North Rustico.

Mrs. Clara Curran, Pleasant Grove accompanied by Mrs. Peter Oatway, Charlottetown spent Sunday in St. Stephen N. B. on their way to visit relatives and friends in Boston and Maine.

Want Normal Pep, Vim, Vitality? Does weak, rundown, exhausted condition make you feel fagged out, old? Try Ostrex. Contains general tonics, stimulants, often needed after 30 or 40. Supplies iron, calcium, phosphorus, vitamin B1. Helps you get normal pep, vim, vitality. Introductory size Ostrex Tonic Tablets only 35c. For sale at all good drug stores everywhere.

KELLY'S CROSS SCHOOL

Following is the report of the Kelly's Cross School for the month of September.

Gr. X.—1. Austin Bradley, 2. Noreen Trainor, 3. Minerva McDonald, Edith Kelly (equal).
Gr. IX.—1 Vivian Trainor, 2. Noreen Flood.
Gr. VIII.—1. Eddy McDonald, 2. Clarence Flood, 3. John Johnston.
Gr. VI. —1. Leonard Kelly, 2. Agnes Trainor, 3. Laura Binns.
Gr. III.—1. Carl Molyneaux, 2. Pauline Kelly, 3. Mary McDonald.
Grade II —1. Cyrl Moleyneaux 2. Eileen Kelly, 3. Frances Flood.
Rita Bradley, Teacher.

FREETOWN SCHOOL

Honor roll for August and September.

Grade X.—1. Kathleen McCarville, 2. Mary Matheson, 3. Thelma Andrews.
Grade VIII.—1. Joan Scales, 2. Lorne Reeves, 3. Austin Curley.
Grade VII.—1. Edna Evans, 2. Jean Francis, 3 Georgie Francis.
Grade VI.—1. Katherine Auld, 2. Gerald McCarville, 3. David Scales.
Grade V.—1. Shirley Lewis, 2. Marion Taylor, 3. Vernon Paynter.
Grade IV.—1. Marjorie Smith.
Grade III.—1. Henry Scales, 2. Wanda Curley and Edgar Taylor (equal) 3 Hilford Anderson.
Grade II.—1. Lorne Moase, 2. Allan Scales, 3. Mary Lewis.
Grade I. A.—1. Brewer Auld.
Grade I. B. —1. Gordon Smith.
Grade I. C.—1. Gerald Gauthier, 2. Patric Curley and Kay Reeves (equal).
Wendell L. Mayne (Principal).
Mamie M. Mill (Assistant).
Patriot Please Copy)

CRAPAUD SCHOOL

Honor Roll for the month of September.

Senior Department
Grade X.—1 Hubert Harvey.
Grade IX.—1. Pauline Casely. 2. Harry Ferguson, 3. Ralph Lowther.
Grade VIII.—1. Greta Rogerson. 2. Juanita Harvey, 3. Marian Fall.
Grade VII.—1. Jimmy Nicholson, 2. Shirley Myers, 3.Jean Myres.
Grade VI.—Doris Parker. 2. Ernest Parker, 3. Norman Lowther.
Highest Average—Jimmy Nicholson, 95 p. c.
Perfect attendance — Norman Lowther, Jean Myers, Shirley Myers, Billy Wood.
Teacher—Lois MacKay.

Primary Department
Grade V. A.—1. Jackie Johnston. 2. Doris Boyce, 3 Gwendolyn Fall.
Grade V B.—1. Dorgen Maynard, 2 Glenda Simmons, 3. David Lowther.
Grade IV.—1. Valerie Myers 2. John Parker, 3. Donald Rogerson.
Grade III.—1. Esther Johnston.
Grade II.—1. Lionel Lowther, 2. Florence Parker, 3. Marian Parker.
Grade I No Tests.
Highest average—Doreen Maynard 96 p. c.
Perfect Attendance — Doreen Maynard, Esther Johnston, Lionel Lowther, Frances Myers.
Teacher, Edith Leard.

AMERICAN GROWN LILIES AVAILABLE FOR GARDENS

With the exception of a very few imported from England, all lily bulbs offered for planting in this country this fall were grown in America.

For many years before Pearl Harbor lily bulbs imported from Japan, which was the chief source, had proved unsatisfactory for garden use, and American production had been increasing.

While the supply is limited, there are enough to provide a few bulbs for everyone, and few lilies will go a long way in providing garden beauty. Lilies are not effective in mass plantings. They are best used in small group, or even single plants, as accents at garden focal points.

Hardy lilies are best planted in the fall. Bulbs are dormant now and must spend the winter either in the ground or in cold storage. They are better off in the ground.

The notion that lilies are hard to grow has small basis in fact. Quite the reverse is true in the case of most varieties.

If your soil is a good sandy loam it should be suitable for most of the hardy lilies. They do best in a light soil perhaps because of its superior drainage Most of the lilies dislike wet soil and will show immediately the effects of standing water. A good loam, rich in leaf mold, is good for them.

Do not treat the soil to make it acid, as you would for rhododendrons and do not limit it. A neutral soil is best. Manure should not be used except as a top dressing and then it must be a year or more old and well rotted.

A balanced plant food is fine, and some varieties will need additional spring applications. Use one pint to a bushel of soil. Spade your bed deeply before setting out the bulbs. If you think the ground will be frozen before the bulbs arrive, give the bed a mulch of leaves or straw to keep it from freezing until you can get the bulbs in.

A location where the base of the plant is in light shade is a good one for most lilies. While they dislike standing water, they also dislike drying out; and a summer mulch of peat moss or rotted leaves is appreciated. Depth of planting is important. Lilium candidum, canadense, martagon and superbum should be planted only 3 to 4 inches deep; but the others should go in about four times the diameter of the bulb, usually from 8 to 10 inches.

Many lilies blossom in midsummer when there is a natural letdown in garden color, and the lilies are more than welcome. We find ourselves admiring and depending upon them well into September. Regal, lily, a queen of lillies, should be in every garden, where its gorgeous pink striped flowers with golden throats are unsurpassed for beauty.

DOEION AND MCISAAC NUPTIALS

St. James church, Hope River, was the scene of a pretty wedding Aug. 26th when Mary E. McIsaac, daughter of Mr. and Mrs. James E. McIsaac, was united in the Holy Bonds of matrimony to Edward Doiron, son of Edgar and Mrs. Dorion, Hope River, during the Nuptial Mass was sung by the Pastor Rev. E. Oulton who also performed the marriage ceremony.

Appropriate hymns were sung by Wilfred McAleer, while Mrs. McAleer presided at the organ. The winsome young bride looked lovely in light blue Heaven crepe dress, with silver trimmings and blue hat with white accessories. She was attended by Miss Eileen Dorion, sister of the groom, who wore a blue sheer dress with white accessories. The groom was ably supported by Mr. Pius McIsaac, brother of the bride. A dainty and refreshing breakfast was served at the home of the bride's parents to the near relatives of the contracting party also Rev. E. Dalton the officiating clergyman. The wedding party then motored to Charlottetown where they had dinner at Hotel Charlottetown, returning about 6.30 to the home of the bride where a sumptuous supper was served to invited guests and relatives. The evening was pleasantly spent in music and songs and dancing, music being furnished by Mr. Carl and Mr. Wilfred Greenan, accompanied on the piano by Mrs. Robert Bustin, Somervier, Mass, aunt of the bride a shower was tendered the bride where she received some lovely gifts. All left wishing Mr. and Mrs. Dorion many years of happy wedded life.

"Old West" Comes To Life In Film

All the glamour and romance of the Old West lives again in Republic's de luxe action drama, "In Old California," which will open to-day at the Capitol Theatre for a three day run.

John Wayne and Binnie Barnes head the large cast, which also includes Albert Dekker, Dick Purcell, Edgar Kennedy and Patsy Kelly.

Placed against the colorful setting of the California gold rush days, the picture deals with the efforts of a forthight and two-fisted young Bostonian to establish himself in business in early-day Sacramento in spite of the opposition of outlaw political powers.

COWBOY STARS DECLARE WAR ON AXIS, TOO!

Let's hope America wins the war as fast as Hollywod is licking problems growing out of the crisis.

A few weeks ago, producers at Columbia got ready to make a western picture. Now, westerns perennially bring furrowed brows on every lot. The question is, whether to keep such films in the "old west" or to modernize them a little, such as showing trucks and tractors.

The war brings the whole question to a sharper point. But Columbia has answered it neatly in "Riders of the Northland," with Charles Starrett and Russell Hayden in leading roles at the Empire Theatre.

Starrett and Hayden are Texas Rangers, usually at grips with rustlers, in the series of open air dramas they make for Columbia. "Riders of the Northland" keeps them in character, but instead of Lone Star State sagebrush the boys ride a cattle ranch in Alaska. They are there on government business tied in with the war, and take along a short wave radio. The outlaws, instead of cattle thieves, are dupes of an enemy agent on a submarine off the Alaska coast Instead of running off longhorns, the crooks, before Starrett and Hayden intervene, are building a runway for enemy planes.

GEORGETOWN SCHOOL

Honor Roll of Georgetown School for September.

Grade X— 1. John Parker; 2. Lorne Mair; 3 Maurice DeLory.
Grade IX—1 Myrtle Prosper; 2. Richard DeLory; 3. Frances Prosper.

Miss MacDonald's Dept.

Grade VIII—1. Connie Mair; 2. Gladys Fouchere; 3. Harry MacConnell.
Grade VII—1. Eleanor Hobbs; 2. Mary Roach; 3 Wanda Jay.

Grade III—1 Marguerite David; 2 Betty Arthur; 3. Elizabeth Grant.

Miss Keenan's Dept.

Grade II —1. Bernice DeLory; 2. Bernard Walsh; 3 Peggy Johnson and Mary Stewart (equal).
E. M Webster, Principal.

In Memoriam

MRS. JOHN BISHOP

Mrs. John Bishop passed peacefully away at her home in Murray River, September 15th, 1942. She was in her seventy-sixth year and had been in failing health for some months.

Mrs. Bishop was a highly respected neighbour and always ready to lend a helping hand to those in need. She was twice married. Her first husband the late David Hooper predeceased her twenty years ago. From this union there are left to mourn the loss of a kind and loving mother, Mrs. Watson White; Mrs. Alexander Dutney, Leonard Hooper of Murray River; James Hooper, Pictou Landing, N. S. and Fred Hooper United States.

The funeral service was conducted by her past Rev. W S Pickett from the United Church. Interment took place in the Murray River Cemetery. Pall-bearers were William Hume Vance Strickland, Fred Johnston, John A. McSwain, John E. Jenkins and Benj. Reynolds.

TRANSFERRING THE PULLETS FROM RANGE TO WINTER QUARTERS

(Experimental Farm News)

The time is approaching when the pullets that show signs of laying must be transferred from the range to their laying quarters. One vitally important factor leading to a satisfactory egg yield from the flock, from now on, is the careful selection of only vigorous and well matured birds. The profits will be determined by the quality of the flock and the good bird with proper care and feeding will prove to be an asset. Any amount of feed and care can make nothing but a liability of the poor bird, states W. T. Scott, Head Poultryman, Dominion Experimental Station, Harrow, Ont.

Before being placed in the laying house, every bird should be examined individually and any showing physical defects or those that are under-developed for their age should not be held under any circumstances. Glossy, tight, smooth feathering, a bright eye, healthy red comb and wattles and good weight for age are accurate indications of vigorous health and constitution.

Though culling should be a periodical practice, a rigid selection of only the sound birds should be the order at this season. If left in, the unthrifty weakling will take up space, feed and labour that might be devoted to a profitable layer, and at the same time she may be a danger to the rest of the flock. Poor vitality offers little resistance to disease and parasites and an outbreak may mean all the difference between profit and loss.

Remember the pullets have had unmolested freedom on the range with an abundant supply of green feed, so make the change to confined quarters as little noticeable as possible. Handle them gently avoiding overcrowding in the carrying crates, and while the weather is favourable keep the windows in the laying house open, allowing as much fresh air as they have enjoyed in the range shelters. Supply all the green fed they will eat as long as fresh greens are available. They have been used to an unlimited supply and if this is cut abruptly they may go into a premature moult.

As far as possible avoid undue excitement until the pullets have become familiar with their new surroundings and by degrees work them onto the feeding programme that you have laid out for the coming winter.

REPAIRING FARM MACHINERY

(Experimental Farm News)

As a result of the increasing difficulty in obtaining new equipment and replacement parts it is more important than ever to keep farm machines in good state of repair. The machines in use at present may have to be used much longer than originally intended. This means that they will have to be given more care when in operation, as well as having worn inefficient parts replaced before they cause damage to other parts working near them, says W. T. Burns, Dominion Experimental Station, Melfort, Sask.

Though seldom done, the best time to over-haul the farm machines is at the end of the season's work. All the troubles which occurred in operation during the summer are fresh in mind and can be corrected by the following spring most of these may have been forgotten, and it will take more time to do the job right. Work which cannot be done on the farm should be taken to the repair shop in the fall, where it can be done during a slack period. This will obviate delay in the spring, and there is the possibility of getting better work. If parts which must be repaired are ordered at this time, they will probably be obtained before they are needed for use.

In over-hauling machinery, all bearings, axles, and similar parts subject to wear should be taken apart and examined carefully. Any parts which are not likely to work well for another full season should be replaced. The other parts should be thoroughly cleaned. Particular notice should be paid to the lubricating facilities to see that they are in good order. Parts which run in the ground such as the cultivator shovels and discs should also be examined. Those that are cracked or badly worn should be replaced, while others may require sharpening to insure the best results for the following season.

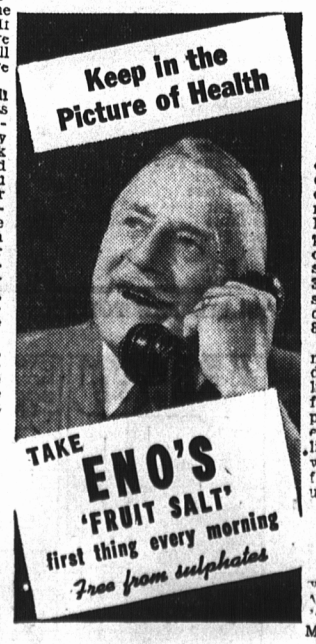
While at the end of the season, repairing machinery may not appear to be a particularly attractive work, it will help avoid delays in the field, now that new parts are not as easy to obtain.

FOR CHILDREN

Physicians prefer milk which is not very rich in cream (or fat) for children. Children are better off wth whole milk than cream on cereal.

It is better for children to learn to drink and like just plain milk, for then they enjoy it as it is commonly served.

No more vivid evidence of the fighting spirit of the Russian people has been given than in the stands they have made to hold their cities from the Nazis. The six cities on the map above stand out as symbols of Soviet resistance under siege.



CHINESE FARMERS ORGANIZE "REVENGE DETACHMENTS" AFTER JAPS' VICIOUS MOP-UP DRIVE

Not very military-looking, but in deadly earnest, are these Chinese farmers, members of one of China's new "Revenge Detachments." By NEA Service

NEW YORK, Oct. 5—Designed to reduce civilian populations to abject fear, Japan's ruthlessness in warfare, like Germany's, merely sows dragon's teeth of hatred that bear deadly fruit for the invaders.

Latest evidence of that is seen in reports of "Revenge Detachments" of Chinese farmers, received by the United China Relief office here

These "Revenge Detachments," comprised of thousands of peasants in the border of northwest China, are now actively fighting with Chinese guerrillas. For their existence, the Japs can thank a large-scale ruthless mopping-up action they launched some time ago against the Wutaishan region of Shansi Province.

"KILL ALL, BURN ALL, ROB ALL"

With the slogan (accordng to captured Japanese) of "Kill all, burn all, rob all," some 60,000 Japanese troops, supported by airplanes, indiscriminately scourged villages, civilians hospitals and Chinese industrial cooperatives. China Relief reports general machine-gunning of civilians who had sought refuge in the countryside. Villages were leveled and harvests either burned or seized for cavalry fodder. In the one village, the Japs drove 500 people into the mountains and then killed them. Tales of individual atrocities committed against women, children and the aged numerous.

Credit for starting the "Revenge Detachments" is given to one of the victims —an old man whose entire family was slain by the Japs. The vengeful little group of Chinese farmers who rallied to him sparked a movement which has spread throughout the northwest and is giving the Japs cause to regret their savagery.

PETER F. MURPHY

Death always carries in its wake great sorrow, but when the call comes to a person enjoying a holiday visiting relatives and friends, those who are left to mourn have a double cross to bear. Such was the passing of Peter F. Murphy, highly respected, retired carpenter, of Morell.

Mr. Murphy, accompanied by his daughter, Violet, left his home on Aug. 25th, to visit his son Charles in Portland, Maine. Several days after his arrival in Portland he contracted summer flu and despite all that medical care and tender nursing could do, he passed to his eternal reward on Sept. 13th.

The remains, accompanied by his son, Charles, and daughter, Violet, arrived at Charlottetown Tuesday night and were conveyed to his home by Frank Hennessey's motor hearse.

The deceased was born in Morell, Sept. 12th, 1862 and was the son of the late Mr. and Mrs. John Murphy.

At an early age Mr. Murphy took up carpentry and many fine homes throughout the country bear testimony to the efficiency of his workmanship.

The large number of Mass cards and letters of sympathy received attests to the high esteem in which the deceased was held.

He is survived by the following sons and daughters, Charles, Portland; Temple, Savage Harbour; Harold and Felbert, Morell; Violet, at home; Marie, Mrs. Justin McCarthy, Morell; Melinda, Mrs. Gregory Lewis, Charlottetown, and Ann, Mrs. Joseph Francis, Charlottetown. Also two brothers, Patrick, Rosendale, Mass; James, Morell, and one sister, Mary, Lowell, Mass.; two sisters-in-law, Kit Hughes, Portland and Ann Hughes, Portland. There are also left to mourn sixteen grandchildren and one great-grandchild. A grandson, AC1 C. J. Murphy, R.C.A.F., passed away about three months ago.

His wife predeceased him about twelve years ago.

The funeral which was one of the largest ever seen in Morell, was held from his late residence Thursday morning to the Little Flower Church, where Requiem High Mass was offered by Rev. P. McKenna, parish priest, who also officiated at the grave.

The pall-bearers were the four sons of the deceased, Temple, Charles, Felbert and Harold, also two grandsons, Clarence and Maurice. May his soul rest in peace.

FOR EVERY AGE

Infants: Milk, with only orange juice and cod liver oil added to the diet, sustains the baby entirely for the first week of life.

Young children: Need three to four glasses daily

Big boys and girls: Require four glasses or more daily. They need plenty of calcium because they are growing fast.

Adults: Need at least three glasses each day either plain or in cooked dishes, or cheese.

And even older folks need calcium to keep the bones strong (two glasses daily).
