BRITISH NAVAL ESTIMATES HAVE BEEN SUBMITTED

Appropriations Slightly Lower Than for Last Year. Some Reduction in Ships and Personnel Agreed Upon.

Special to The Guardian
LONDON, March 14.—The British Naval estimates for 1921-22 amount to 91,186,389 pounds gross and 82,478,000 net. It was announced by Lord Lee of Fareham, First Lord of the Admiralty today. The estimates for 1920-21 were 84,372,000 pounds net the pre-war expenditure 1913-14 was 48,809,000 pounds. In a statement explaining the estimates Lord Lee said they were based on the Government's policy of maintaining a one power standard. Lord Lee pointed out that the estimates included a reduction in the number of ships in full commission from twenty to sixteen, as compared with 23 in 1914. This is the smallest number that will enable

where industry would be regard-
ed with far above average earn-
ings; married man preferred.
Apply to Mr. J. G. McLean Bell
second floor, Riley building,
Queen St., opposite Prowse
Brothers.

REGULAR MONTHLY MEETING OF THE CITY COUNCIL

Several Important Matters Up for Discussion: Petition from Brighton Road Residents to Have That Thoroughfare Paved. Petitions Also For and Against Daylight Saving.

The regular monthly meeting of the City Council was held last evening, Mayor Riley, the Recorder and all the councillors with one exception being present.

The newly-appointed city clerk, Mr. George Nicholson was also present and read the minutes of the last meeting, also the usual bills which were confirmed.

A number of communications were read, the first from the Premier in reference to the Telephone Company's proposition re-increased rates. Councillors Moran, Smith and Murray were named by His Worship as a committee to confer with the Premier in this matter.

Another communication was from Secretary of Sewers and Water Supply asking for an addition of \$5,000 issue of debentures to cover costs of new mills and extension to the waterworks system. His Worship ordered this communication to be handed to the Legislative committee, Councillors Webster, Moran and McKinnon.

A petition was read, signed by about 200 citizens asking the Council to adopt Daylight Saving, beginning May 1st, and ending September 30th. A counter petition from the Laborers Protective Unions was also read asking that the daylight system be not adopted by the Council.

No action was taken in regard to either of these petitions.

A petition was read next from the residents of Brighton Road, asking the Council to proceed with the work of paving Brighton Road during the coming season.

This resolution was referred to the street committee.

The monthly report of the meat and milk inspector for the month of February showed a total of 13 quarters of beef and one calf had been rejected; he also reported a call from a citizen to examine a purchase of meat which was found partly unfit, for use and the part ordered to be destroyed, the dealer to refund the price, which was done.

Maritime Provinces Telegraphic News

Special to The Guardian

GIRL DROWNED NEAR FRED ERICTON

FREDERICTON, N. B., March 14.—Virginia Nason, aged 18, was drowned when she fell from a board walk into the Pokioik River dam near here yesterday.

SAW ST. PIERRE ON NIGHT OF MURDER

EDMUNDSTON, N. B., March 14.—Frank Carrier, the third witness called for the defence in the St. Pierre murder trial, corroborated the evidence of the first two witnesses. He said he saw the accused after 9 o'clock with no sign of blood on his face.

ROTARY CONVENTION IN ST. JOHN

ST. JOHN, N. B., March 14.—The Annual Rotary Convention for the district comprising the Maritime Provinces and Newfoundland and part of Quebec, will be opened here tomorrow.

SYDNEY CHINESE CONTRIBUTE \$1,000

SYDNEY, N. S., March 14.—Local Chinese have forwarded \$1,000 for the famine sufferers in China.

HOCKEY CHAMPIONSHIP

NEW GLASGOW, N. S., March 14.—The Crescents and Wanderers will play here Wednesday or the Hockey championship of Nova Scotia.

Frenchman Invents Submarine Detector

LONDON, Mar. 14.—Competent naval authority disclosed to your correspondent today some details of an American naval invention destined to play an important role in future naval operations. It is based upon the new principle of sound waves and was discovered by Professor Longevin of Teulon, France, and perfected by American Naval experts at New London, Conn.

My informant stated that the chief object of the American experiments was to discover a means of locating submarines when submerged, and that this new invention is the only known method of locating submarines under all conditions whether stationary, submerged or running without the submarine knowledge. He advanced his opinion that this invention called the superasonic wave was one of the grounds upon which the United States Naval Board recommended the construction of capital ships has passed because of the development of the submarine.

Spectacular Fire In Oil Plant

NEW YORK, March 14.—Timely and effective fire fighting yesterday thwarted a repetition of the spectacular and disastrous oil fire that swept through the Standard Oil Company in Brooklyn in September, 1919.

Flames that for a time threatened to lay waste scores of 25,000 gallons tanks broke out at ten o'clock but before three o'clock this afternoon the preventive measures taken by the fire companies had restricted the conflagration to five tanks and had stopped its spread.

No official estimate of the damage had been given out by the company late tonight, but the unofficial estimate was \$150,000.

Several of the fire fighters were severely burned. The fire, it is understood, started from the ignition of overheated liquid flowing from the stills into the tanks affected. Soon huge billows of black smoke, almost blinding the firemen, hung over Brooklyn.

The fire died out almost as suddenly as it started.

Reichstag Approve Of German Attitude

BERLIN, March 14.—The approval of the German Government's attitude toward the Allied reparations demands was voted by the Reichstag yesterday after Foreign Minister Simons had made a lengthy explanation of his work at the London conference. There was a partisan debate over the resolution of approval which was moved by the Coalition parties but it was finally adopted by a vote of 268 to 49. The Nationalists and the majority of Socialists voted with the Government bloc.

Communist resolution demanding the immediate establishment of diplomatic relations of the Soviet Russia was decisively defeated.

Canada May Have a Meat Strike

MONTREAL, March 14.—A nation-wide strike of butchers and meat cutters may soon be called with the object of winning a victory for the men of that profession, who are now on strike here.

E. J. Jones, international organizer of the men's union, stated today that unless the packers here agree to consider the schedule of wages as presented by their employees, he would get into touch with all the affiliated locals of the Amalgamated Meat Cutters and Butcher Workers in eastern Canada, and the economic strength of these unions would be used to the fullest extent, even to a strike, from Halifax to Winnipeg, to force the issue.

This, said Mr. Jones, would probably tie up the whole meat industry throughout Canada.

Coming Events Announcements Meetings, etc.

*COME AND HELP the Orphanage and have the time of your life at Heart's Hall, Royalty tonight. Splendid program.

GRAND TRUNK ENQUIRY STILL IN PROGRESS

Application for Commission to Examine Witnesses from England Has Been Granted.

(Special to The Guardian.)
MONTREAL, MARCH 14.—At the opening of the seventh week of the Grand Trunk arbitration board this morning, Eugene Lafleur, K. C., for the Grand Trunk made formal application for the appointment of a commission to take evidence of witnesses in England on the question of sales of Grand Trunk stock on the London Stock Exchange since 1882 up to 1920.

Mr. Lafleur said he was compelled to ask for this commission as the evidence he had tendered in this regard had been rejected by the Board.

This was objected to by Sir Thomas White, Government Representative on the commission, on the ground that it was useless to go back forty years for such evidence. The Board decided that such a commission should be appointed and in instructions will be mailed as soon as the form of the order constituting the commission is settled.

Foreign Fraternal Benefit Societies Barred from Canada

(Special to The Guardian.)
OTTAWA, Ont., March 14.—Canada's insurance regulations prohibit the operation of Foreign Fraternal Benefit Societies, according to a brief address presented by the International Executive officers of the Knights of Columbus in session here today. To make the deposit required under the Canadian laws, according to views expressed at an executive meeting this morning, which was attended by Mr. G. D. Finlayson, Supt. of Insurance for the Dominion Government, the Knights of Columbus would have to increase their reserves in Canada to considerable extent.

Among those to whom permits were given President Wilson, Secretaries Baker, Colby, Burleson and Payne, and scores of defeated Representatives and Senators, who moved their wet goods to their homes.

One Representative listed several barrels, while the liquor shown to have been possessed by the average applicant rarely went below dozen case lots.

Death of Noic Presbyterian Divine

MONTREAL, March 14.—The death occurred this morning of Rev. Robert Campbell, M. A., D. D., one of the oldest and best known Presbyterian ministers in Canada. His death was caused by pneumonia following injuries sustained by a fall from a street car on February 23rd, last. He was born near Perth, Ont., 56 years ago and retired from the ministry in September 1909. He is survived by three sons, two daughters and four grand children.

Rev. Dr. Campbell had been for over half a century in the ministry. He had taken part in the proclamation of Confederation in 1867; and was moderator of the general assembly; and had made many notable contributions to the literature of his country during the past fifty years. A man of strong physique, Dr. Campbell was one of the oldest golfers in Canada and an enthusiastic curler.

He was with one exception the oldest living graduate of Queen's University for which he was for many years a trustee. He held the position of clerk of the general assembly of the Presbyterian Church in Canada until his death and had achieved a big reputation as an authority on ecclesiastical law and procedure, his decisions being regarded as ex-cathedra.

Reichstag Approve Of German Attitude

MONTREAL, Mar. 14.—That the announcement of sweeping wage reduction would appear to come as a complete surprise as well to railway executives here, as to the laity and the attitude of various executives, approached by the Star, was decidedly non-committal. They wanted to know more about it before expressing any opinion. It was pointed out, however, in several quarters that there had not been any serious labor trouble on the Canadian Railroads up to the present and every effort would be made to maintain the present harmonious relations between the railway companies and their employees.

Revolutions Make Important Captures

REVAL, March 13.—Considerable numbers of Bolshevik soldiers are reported to have joined the revolutionaries as the result of the capture by the latter of Krasnoyarsk, the city of the largest advances received here the revolutionaries operating against Petrograd have captured Galerney quay, the Admiralty, the Baltic and Warsaw stations, the customs house, and the gas works. The Bolsheviks are said to be holding their ground in the other parts of the city.

Revolutionaries Make Important Captures

REVAL, March 13.—Considerable numbers of Bolshevik soldiers are reported to have joined the revolutionaries as the result of the capture by the latter of Krasnoyarsk, the city of the largest advances received here the revolutionaries operating against Petrograd have captured Galerney quay, the Admiralty, the Baltic and Warsaw stations, the customs house, and the gas works. The Bolsheviks are said to be holding their ground in the other parts of the city.

KANSAS MOB TARS TWO POLITICIANS

GREAT BEND, KAN., March 14.—A demonstration against the non-partisan league yesterday culminated in the escorting from town of Ralph Burton, former United States senator from Kansas, and several associates and the tarring of J. E. Stevic and A. A. Parsons organizer and Kansas state secretary respectively of the league.

After being compelled to apply a coating of tar to their naked bodies at Ellinwood, Stevic and Parsons were made to lie on the ground and roll. Their clothing was then replaced and they were escorted to town Barton County. About 200 men participated in the attack.

Former Senator Burton who has been active in the non-partisan league movement in this state was scheduled to address a meeting at Ellinwood yesterday afternoon when he arrived with his party escorted to town Barton County.

OFFICERS AMBUSHED

DUBLIN, Mar. 14.—Constable Reilly was shot dead and Captain Baynam, district inspector of Callan County, Kilkenny, was seriously wounded from ambush on Friday night on the Tipperary border.

U. S. INTERESTED IN CANADA'S MANUFACTURES

Canadian Manufacturers are Circularized by U. S. Department With Reference to Class of Product Market and Other Particulars.

(Special to The Guardian.)
MONTREAL, March 14.—The United States State Department is displaying an interest in the affairs of Canadian manufacturing, according to information given to the Star today by an authority in trade circles in Montreal. This informant states that within the past two months the majority of the manufacturers in Ontario and Quebec and possibly in the provinces further west have received questionnaires emanating from the department in question. These documents request the name of the firm, the class of product manufactured, the number of employees engaged, the market used and full particulars regarding the business.

Richmond Has Devastating Fire

RICHMOND, Mar. 14.—Two men Fleming and McNeil are in jail charged with breaking and entering as a result of a bold attempt at daylight robbery at New Aberdeen, a suburb yesterday. Fleming, the police allege, ransacked the inside of the bakery, while McNeil stood guard at the door armed with a empty bottle. A policeman in plain clothes, out for a stroll, attracted by the noise was attacked by McNeil. The two men were only secured after a hard struggle. Continued unemployment in the Cape Breton coal fields is blamed by police authorities for the large number of recent robberies and crimes of violence.

They Are Still After Senator McDonald

(Special to The Guardian.)
OTTAWA, March 14.—Senator W. H. Thorne, in an interview criticized the appointment of Senator McDonald of Nova Scotia to represent New Brunswick.

SMALLPOX CASE IN RESTIGOUCHE

CAMBELLTON, March 13.—A case of smallpox at Upper Balmor, this county, has been reported to the provincial department of health. Dr. Desmond, of Newcastle district medical health officer, has visited the place and taken precautions to prevent the spread of the disease.

Air May Clear In A Fortnight

LONDON, March 14.—Germany's first step in opposition to the imposition of the penalties of the Allies is to be taken immediately upon the return of Foreign Minister Simons to Berlin. As soon as Simons reaches Berlin the Prussian statesmen will formulate a case for an appeal from the Supreme Council to the League of Nations.

Downing Street, it is reported, has not heard from Sthamer or Simons since the conference yesterday, and officials declared themselves wholly uninformed as to the reasons for the departure of the Ambassador. It is believed, however, by the British and French experts that there will be a healthier atmosphere within a fortnight.

The departure of the Germans was without incident.

London circles were unperturbed to-day in spite of the breaking down of the conferences. German marks fell sharply from 235 to 245, while the dollar gained two points on the pound sterling. French and Belgian francs were slightly weaker.

THE WEATHER TIDE, MOON, ETC

TORONTO, March 15.—Easterly winds, fair at first, followed by some sleet or rain. Stationary or higher temperature.

High tide this afternoon at 2.01 and tomorrow morning at 3.14.

Sun sets this evening at 6.00 and rises tomorrow morning at 6.10.

First quarter moon, Wednesday, March 16th, 11.49 p. m.

NOOSY, THE SUNSHINE KID

THIS WILL COME IN HANDY SOMETIME

LONDON, Mar. 14.—The Daily Graphic this morning claims that a Sinn Fein plot, is on foot to import from the United States a large number of young men not Irish nationality, adepts in acts of violence. These "gunmen" the newspaper declares are expected here shortly "elaborately disguised," but the British secret service, the Graphic says, adopted equally adequate precautions to trace them down. Certain members of the Cabinet and other prominent men have been marked by the expected visitors according to the newspaper.
