

GRAND DISPLAY OF

Men's High-Class Clothing

Never in the history of the clothing trade have so many new and pleasing styles in men's clothing been displayed as this season. We are really proud of our new spring suits as shown in this illustration. The cut, the fit, the finish you will note is all that could be desired. In these days of keen competition we find quite a rivalry existing between our custom tailoring and our ready-made clothing department, each trying to take a foremost place in our business. As a result our trade is growing year by year and today more than ever. We feel that the name by which our business is so well and favorably known as P. E. Island's Greatest Clothing House is true in every sense of the word. Here you will find all that is new in men's apparel and at prices and variety which it is impossible for dealers to sell at who are handing them merely as a side line.

BATTLE ROYAL FOR STANLEY CUP

WINNIPEG, March 25.—The Stanley Cup will repose in the lap of the victorious Wanderers at Montreal for another year at least, for although the Kenora Thistles trimmed them in a battle royal tonight, the lead obtained by the challengers, on Saturday night was too great to be overcome. The score tonight was six to five in favor of Thistles, leaving the Wanderers four goals up on the series. With the altered conditions which suited their style of play, the ice being hard and keen, the Thistles were not like the same team whom they Waterloo on Saturday and their brilliant hockey of old time delighted their followers.

SPREE WAS FATAL GAS KILLED HIM

TORONTO, March 25.—Dead from gas, John Mackenzie, aged 26 years, was found on the floor of his bedroom by his wife Friday.

Mackenzie came home in an intoxicated condition Thursday night, and his wife, fearing his violent temper, took her two children to her sister's in Weston, where she spent the night. She returned to her home Friday morning. In order to get in she was compelled to crawl through a window. The house was full of gas, and investigation revealed Mackenzie lying face downwards in a corner. He had evidently risen from bed to turn off the gas, and had lost his balance, dragging the fixture down with him.

CANADA WOULD REJECT SCHEME

MONTREAL, March 25.—A special London cable says: The Standard refers to the 'amazing proposals' which, it is cabled, Secretary Root has made to Ambassador Bryce, and says: "We have little hesitation in declaring that no such terms will even be considered at Ottawa. Mr. Root must not imagine that Canada is a child in these matters. No parchment need be spoiled for an agreement which the people of Canada would reject with scorn."
The paper continues: "We trust that Sir Wilfrid Laurier will be able to surmount the difficulties which may prevent him attending the colonial conference, as the conference would be short of part of its brilliancy and no little of its dignity, if the most distinguished representative of public life in the Dominion were unable to guide it with his counsel and adorn it with his presence."

THE MUTUAL LIFE OF CANADA ENDORSED BY COMMISSION

The annual report of the Mutual Life of Canada, Waterloo, is published in The Guardian to-day, and will be read with interest.
Every reference to life insurance in the press is of great interest to the public in these days, in view of the investigation by the royal commission, its findings and recommendations. The Mutual Life, as its name implies, is purely mutual, the control of its affairs being in the hands of its policyholders. With regard to Mutual as compared with stock control, the comment of the commission is pertinent in this connection:
"The commissioners conclude from the fact that one company, the Mutual Life of Waterloo, is run on purely mutual lines, and several stock companies have very small paid-up capital stock, that it is possible to operate successfully without capital stock at all. The part played by capital stock is very small; in fact, when an insurance company's position has become established, its capital stock becomes a mere document of title by virtue of which a particular body of persons control those larger and more important funds which the policyholders contribute."
The directors point out that expenses were reduced in 1906, and that the ratio to income is 16.34 per cent. Whether or not this may be due to mutual control, the fact is, no other Canadian company can show such a record. In point of economy, this company, it is proudly claimed, has always stood easily first.

Another significant fact is that the company's investments consist almost entirely of mortgages, municipal and other bonds and loans on politics; in fact, they are strictly in line with the recommendations of the commission, and have always been so. The directors assert that not one dollar of money contributed by policyholders has ever been lost in the 37 years of its existence. This is a claim that few, if any other, companies can make.
The Mutual Life is represented here by J. O. Arsenault as manager and A. J. McLeod as special agent.
