

Colds How will your cold be tonight? Worse, probably. It's first a cold, then a cough, then bronchitis. Colds always tend downward. Stop this downward tendency quickly with Ayer's Cherry Pectoral.

SEARLESTOWN. Farmers have about completed the gathering in of the products of the farm for this year, and are now busy at their threshing. The crop is proving satisfactory as the yield is large and grain an especial good quality, with a good market right at hand, buyers at Albany station ready to accommodate all comers. Potatoes in a general way have proved to be better than an average crop and all that is wanted is a good paying market.—There has been somewhat of a stagnation in the pork market, but the welcome intelligence has reached us that business has again resumed along these lines, and that the old buyer, Theodore McKeever, is again prepared to handle hogs at Albany.—Aurora Division is still alive and doing what we can for the cause of law and order. A very pleasant evening was spent in our Division room on Saturday, the 25th, when at the close of a very nicely prepared program we adjourned to partake of a sumptuous repast prepared by the sisters of our order, which we expect to repeat in two weeks from the above date with this difference, the brothers are to take a hand in the latter part of the program. A finer night is hoped for and if so we are assured of a fuller house.—We had the pleasure on Sabbath last of listening to a discourse from the Rev. F. A. Wightman of more than ordinary merit, founded on the words found in the 3rd chapter and 5th verse of Malachi, "Will a man rob God." He referred to the great evil of robbery as compared with many other offences and showed that God had a claim on our means, our time, our thought, our talents but more especially on our allegiance our devotion and our loyalty. The facts were presented so clearly and forcibly that they should not soon be forgotten.—The friends of Frank Wright were pleased to see him at his old home in Chelton where he made a short visit to see his invalid mother who we are sorry to know has been suffering more than ordinarily for the past five weeks but we are glad to know that she is again convalescent. Mr. Wright is one among our successful Island boys having secured a first class position as conductor of Pullman parlor car at a liberal salary.—The same old and trying experience has to be met by those going and coming by train at Albany exposed to the tender mercy of the elements at an untimely hour or take refuge in the private home of our merciful post master who tries to make all welcome as long as his house is equal to the number.

NEURALGIA. THIS DISTRESSING COMPLAINT IS DUE TO IMPOVERISHED BLOOD.

When the blood becomes thin and watery, as a matter of course you become weak, vitality get down low, and there is but little power in the system to ward off disease and pain. Neuralgia hunts out a weak spot, and makes a home there, so secure that it is hard to drive it out. But by using the proper remedies it can be driven from the system, never to return. To obtain immediate relief, first apply to the painful parts, a good quantity of Peison's Nervine, and then bind on a hot flannel cloth. This local treatment will be found very efficacious, but must be followed by a course of Ferruzone treatment. Ferruzone is a blood food, and a blood purifier, and quickly strengthens the system so that further attacks may never be feared. It makes the rich red and of flannel cloth, gives strength and vigor to weak constitutions and puts them in good shape to resist neuralgia attacks. The combined treatment of Nervine and Ferruzone in Neuralgia, Sciatica and Rheumatism, is marvellously effective, and cures after all else has failed. Because of the unique success of these remedies we have no hesitancy in endorsing their use to our readers. All druggists sell them.

ON Wednesday evening, Oct. 15th, at the residence of her father, Chas. Wayne, St. Peter's Bay, in the presence of about 40 invited guests, Miss Unice Wayne was united in the happy bonds of wedlock to Wm. Sutherland, Greenwich. Rev. J. W. McKenzie was the officiating clergyman. The bride looked beautiful, dressed in white rich organdie with trimmings of applique and satin ribbon. She was supported by her sister Miss Ethel, who wore a dress of white dimity with pale blue trimmings. A. Osborn Anderson acted as groomsmen. The ceremony over the wedding party seated themselves to a sumptuous wedding supper, after which the newly married couple drove to their future home in Greenwich. The wedding presents were many and costly, and testify to the popularity of the young people. St. Peter's loss will be Greenwich's gain. The Guardian extends congratulations.

THEORIES ABOUT FOOD.

Also a Few Facts on the Same Subject.

We hear much nowadays about health foods and hygienic living, about vegetarianism and many other fads along the same line.

Restaurants may be found in the large cities where no meat, pastry or coffee is served and the food crank is in his glory, and arguments and theories galore advanced to prove that meat was never intended for human stomachs, and almost make us believe that our sturdy ancestors who lived four score years in robust health on roast beef, pork and mutton must have been grossly ignorant of the laws of health.

Our forefathers had other things to do than formulate theories about the food they ate. A warm welcome was extended to any kind from bacon to acorns.

A healthy appetite and common sense are excellent guides to follow in matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best.

As compared with grains and vegetables, meat furnishes the most nutrient in a highly concentrated form and is digested and assimilated more quickly than vegetables and grains.

Dr. Julius Remmon on this subject says: Nervous persons, people run down in health and of low vitality should eat meat and plenty of it. If the digestion is too feeble at first it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three hours, and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets because they supply the pepsin and diastase necessary to perfect digestion, and every form of indigestion will be overcome by their use.

That large class of people who come under the head of nervous dyspeptics should eat plenty of meat and insure its proper digestion, by the daily use of a safe, harmless digestion medicine like Stuart's Dyspepsia Tablets composed of the natural digestive principles, pepsin, diastase, fruit acids, and salts, which actually perform the work of digestion. Cheap cathartic medicines, masquerading under the name of dyspepsia cures are useless for indigestion as they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its many forms is simply a failure of the stomach to digest food and the sensible way to solve the riddle and cure the dyspepsia is to make daily use at meal time of a preparation like Stuart's Dyspepsia Tablets, which is endorsed by the medical profession and known to contain active digestive principles.

All druggists sell Stuart's Dyspepsia Tablets at 50c. for full treatment.

We have another supply of Dr. Shrop's medicines. These are the remedies that are sold under a guarantee to benefit or money refunded. The "Restorative" cures all diseases of the stomach, liver, kidneys, nerves, etc. The "Rheumatism Cure" cures all forms of rheumatism. During the short time we have handled these medicines we have sold altogether 5 gross, and have only heard of three people who received no benefit from the treatment. Price of either, 6 bottles \$5.50, single bottles \$1. MacDonald & MacKinnon, 1 rugzists, corner Gr. Geo. and Kent Streets.
