

I. C. R. EMPLOYEES FOR PROWIDENT BOARD

TRURO, March 7.—The election of two employees to the I. C. R. and P. E. I. Prowident Board resulted in the election of W. P. Hutchinson, train dispatcher, and J. W. Nairn, engineer, both of Truro. This is the second year that Mr. Hutchinson has led the poll. Following is the result in detail: Hutchinson, Truro, 1390; Nairn, Truro, 1174; Thompson, Moncton, 1155; Ryan, River DuLoup, 1128; Collins, St. John's, 625; Gordon, Moncton, 492. The board for this year will consist of the Government's appointees—Messrs. Pottinger, Burpee and Dube, of the official staff, and Messrs. Hutchinson and Nairn, elected by the employees. W. C. Paver is secretary of the board.

C. P. R. SPENDS \$34,000,000.

NEW YORK, March 9.—Sir Thos. Shaughnessy, President of the Canadian Pacific Railway was a passenger today on the Steamship Celtic for Liverpool.

He stated that the Canadian Pacific contemplated spending about \$4,000,000 in the coming year on improvements and extensions to their line and while in England he expected to place orders for the building of two new ships for the Pacific trade of about 15,000 tons each.

GERMANY SERVES NOTICE ON VATICAN

BERLIN, Mar. 7.—In a speech before the Diet today, Chancellor Von Bethmann-Hollweg admonished the Curia that a persistence in the recent tendency to the issuance of decrees affecting Germany without previous consultation with the government would lead to retaliation. The speech was cautiously and diplomatically phrased, but its tone could not be mistaken. The announcement that the chancellor would discuss the relations of the government with the Vatican as they had been affected by the Pope's requirement that theological professors take an anti-modernism oath served to fill the hall as it had been but rarely filled in its history. Prussia, the chancellor said, was sincerely desirous of maintaining the present peaceful relation with the Holy See so long as such a course was consistent with its interests and prestige. He believed that the Pope was of the same mind, but various decrees of the Curia had been issued without much consideration for conditions which were indispensable in maintaining the friendly status. The speaker cited as one of the objectionable measures the encyclical issued in May last on the occasion of the centennial of the canonization of Charles Borromeo. In the encyclical the Pope extolled Borromeo as the champion of Catholicism against the Protestant reformation, and that the principles of Catholicism had been undermined by Martin Luther. The chancellor referred to this as an attack upon the German reformation. The chancellor announced that teachers taking the oath of anti-modernism would not be permitted in the future to teach history of Germany in the middle schools. The government likewise, he said, would consider the matter of the oath-taking when filling other state posts. He concluded with the warning that if the Vatican continued to ignore the representations of the Prussian minister at the Holy See, such action might involve the abolition of the legation.

MCKENNA MAY BECOME FIRST ADMIRALTY LORD

LONDON, March 7.—Lobby reports regarding cabinet changes arising from the illness of the Earl of Crewe, secretary for India, include the promotion of War Secretary Haldane to the admiralty, and possibly Reginald McKenna, Canadian born, first lord of the admiralty, in order to strengthen the representation of the government in the house of lords. Should such changes be made, Lt. Col. John E. B. Seely, under secretary for the colonies would become secretary for war. The Earl of Crewe, who is suffering from concussion of the brain following a collapse after a fainting fit, is said to be progressing favorably.

Amatite ROOFING Saskatoon Fair Buildings, covered with Amatite Roofing, Saskatchewan, Can. 60,000 Feet of Amatite Roofing The accompanying view shows a series of buildings at the Saskatoon Exposition, all of them covered with Amatite Roofing. Amatite was selected because it was inexpensive, easy to put on, required no care or attention or expense afterwards, and would give excellent durability. If ordinary smooth roofing had been used, these roofs would require painting every year or two at considerable expense and trouble. Amatite, however, has a mineral surface which requires no painting. Use Amatite for every roof where you want to save expense. It is the most economical solution of the whole roofing problem.
