Recovered Three Bodies in Boat

ST. JOHN, N. B., Oct. 23.—The bodies of Mrs. Stella Dykeman and Mrs. Medley Dykeman, sisters and Medley Dykeman were recovered this morning by Edmund Howard, of St. John, a diver, in the cabin of the ill-fated river steamer, Dream, which capsized and sank near the Mistake, at the mouth of the Belle Isle, yesterday morning. Owing to the strong current at this point Howard had great difficulty recovering the bodies and was forced to rest before resuming his sad task this afternoon. Both bodies were found in the cabin where the passengers had been trapped when the steamer foundered. They were taken in boats to Mistake Interval and Coroner Jack notified. It is expected that they will be taken to their homes in Lower Jemseg this afternoon. Stunned by the appalling disaster, suffering from shock and exposure in the cold water, the rescued passengers do not seem able to give a very clear account of happenings when the small steamer was caught in the wind, capsized and sank. For that reason there is some doubt as to the way David J. Nelson, of Hibernia, lost his life.

Purser Justus Ganong, at his home in Long Reach this morning, said he does not know just how the accident happened. He was in the little kitchen when he felt the steamer give a lurch. As it failed to right immediately he realized that something had happened and he made a rush to the deck. One of the doors was then submerged and water was flowing into the apartment. He remembered rushing for the other door and seeing Fireman Hawkes making for the same exit but at that time the steamer was rapidly sinking and he got out just as the deck went under. He clung to a barrel until rescued. Asked if he remembered a man named Nelson getting on the steamer, he said he recalled a man getting on at Hamstead but did not know his name. The passenger was on deck at the time the steamer capsized, but none of the passengers or members of the crew who were rescued knew what happened to him. Mr. Ganong said that Hudson McIntyre (colored) was seen swimming for Mistake Interval and suddenly under, never to appear again.

There is some doubt expressed regarding the finding of the bodies of David Nelson or Hudson McIntyre owing to the strength of the current at this section of the river.

Hudson McIntyre, one of the victims, is said to be about forty years of age and a son of John McIntyre, of Elm Hill, Queens county, in the Otonabog district. He has a number of brothers surviving as well as one sister, Mrs. Albert Richardson, of St. John, also his wife and four young children.

Diver Howard said he had been all through the steamer but could not find any one else. The three bodies were placed on Mistake Interval where they were viewed by Coroner Jack. The bodies were then sent to Slipp's where they will then be sent to the Jemseg.

A coat containing a letter addressed to Hudson McIntyre was found on the shore at Gorham's Bluff last evening. It is thought that he tossed it away when he started to swim for the interval.

Civilians are Leaving Vladivostok for China

VLADIVOSTOK, Oct. 23.—The Vladivostok Assembly of the Priamur Government, refusing to accept responsibility for the protection of foreigners, General Dietrich had ordered all civilians to leave Vladivostok for China. Ships are being commandeered for the voyage of the evacuating inhabitants. The Japanese commander here has moved his headquarters aboard a transport. Recent despatches received by the way of Tokio and Honolulu have indicated that the capture of Vladivostok by the soviet army of the far eastern republic was imminent. The Red soldiers are reported to have been uniformly successful in a series of engagements against the White Guards along the Trans-Siberian Railway.

PEKIN, Oct. 23.—The Chinese Government is sending warships to Vladivostok to protect the Chinese residents there. The military governor of Heilung Kiang has been instructed to send reinforcements to the border to prevent the routed White Guards from entering.

British and U. S. Marines Land at Vladivostok.

VLADIVOSTOK, Oct. 23.—British and United States Marines were landed here today to guard the consulates of the two nations.

Irish Official Watch Political Developments

DUBLIN, Oct. 23.—Optimistic that the retirement of the Lloyd George Ministry will vitally affect the Irish free states status under the treaty with Great Britain, officials here are watching developments in London with interest and not without some anxiety. The Free State Ministry is persuaded that whatever Government comes into power in England, the treaty with Ireland will be respected. In the event of Mr. Bonar Law assuming office observers here say he may decide to conclude the British agreement with Ireland before he goes to the country for a general election. Under the Free State Treaty, which he supported, the Irish constitution must be passed by the bill and ratified by the British Parliament by December 6. The Dail is now putting the finishing touches to the measure preserving intact. Every pledge which Ireland's signatories made to the Lloyd George Government last summer. It will be ready for the action of the Westminster Parliament in a few days. If the new ministry should be disposed to act upon it before the dissolution of the present Parliament.

M'GILL BEATEN BY TORONTO VARSITY BY SCORE OF 51-5.

MONTREAL, Oct. 22.—Varsity humbled McGill by the overwhelming score of 51 to 5 in the feature event of Montreal's intercollegiate rugby season here yesterday. The combination of beautiful kicking, running and passing put up by Snyder, Duncan and Somerville, supported by Pendergast and Rolfs on the ends of the Varsity line, was too much for Dink Carroll's single unaided boot. Cope Campbell was the only effective Red and White tackler. Interesting features of the game which was so one-sided as to be almost dull, were Somerville's three field goals and Snyder's sixty-five yard run. About 8,000 people saw the game.

ALBERTA GIANT A PROBLEM FOR THE CALGARY POLICE

CALGARY, Alta., Oct. 24.—Seven feet four inches in his stocking feet, and well built in proportion, "Cowboy Slim" Griffin, arrested here for an automobile theft, provided a problem for Calgary police yesterday. Slim, unthinkingly lay down in his cell after being searched and his number twelve shoes knocked six steel slats out of the cell wall.

"FRUIT-A-TIVES" Visualizing Wheat Crop of Canada

MONTREAL, Oct. 23.—A graphic impression of Canada's tremendous wheat crop is given by the statement that the largest trans-Atlantic cargo carrier of the Canadian Pacific is the S. S. Bosworth. The possible capacity of that steamship is 352,000 bushels of wheat. To carry Canada's 343,000,000 bushels of wheat it would take 974 steamships of the Bosworth's capacity to convey the export portion of the wheat crop of the three prairie provinces.

No such armada ever put to sea in the world's history.

Statistics show that 343,000,000 bushels of wheat are equivalent to 20,550,000,000 pounds, or 10,250,000 tons or 73,500,000 barrels of flour, which could be made into 1,286,250,000 loaves of bread, weighing twenty-four ounces each, enough bread to feed 35,293,726 people with one loaf per day for a whole year. These figures do not take into account the enormous crop of oats or the large crop of barley and rye, and Canada has still immense sections of arable land that are untouched.

Trains
These 343,000,000 bushels of wheat would require 257,250 forty-ton freight cars loaded to capacity. If this string of 257,250 cars was placed in line together it would make a train 1,946 miles long, or one extending from Montreal to a point ninety-six miles west of Swift Current, Saskatchewan, to say nothing of the locomotives. Allowing thirty-five cars to a locomotive, it would require 7,350 to haul 257,250 cars, and 7,350 trains running at intervals of five minutes apart would take twenty-five and a half days to pass a given point. The addition of 7,350 locomotives (average length 81 feet 9 1/2 inches) to the 257,250 cars would make the total length of cars and locomotives combined 2,060 miles, or almost the distance from Montreal to Medicine Hat, Alberta.

Foiled Burglars Fell a Man But Leave the Loot

TRURO, N. S., Oct. 23.—Two burglars, interrupted in their work of stealing from an unoccupied residence at High and Village, twenty miles west of here on the Cobequid Bay Shore, escaped in the darkness after one had struck the man who discovered them and told him to the ground.

Moving past the house, which is known as the Geddes residence, Edward Johnson, of Great Village, and D. S. Sanderson, of Truro, are being moved flashlights in the house, which is unoccupied. They stopped and Mr. Johnson cautiously approached the house and opened a door. As he did so he was struck a heavy blow in the face and knocked down. Two men rushed out and escaped.

An examination of the place revealed the fact that a quantity of silverware and other valuables had been gathered up and made ready to be carried off by the disturbed house-breakers.

If Hair is Turning Gray, Use Sage Tea

Here's Grandmother's Recipe to Darken and Beautify Faded Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's Sage and Sulphur Compound" now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

QUEBEC YOUNG MAN SHOT WHILE HUNTING IN WOODS

SHERBROOKE, Que., Oct. 23.—W. Welsh, of Stanhope, aged nineteen, was accidentally shot while hunting in the woods near Stanhope, with his younger brother on Thursday afternoon. The bullet hit his brother and he was killed. The young man was seen by his brother, coming through the woods behind him, saw him standing there and mistaking him for a bear, fired at him. The bullet entered Welsh's body just beneath the left shoulder and passed entirely through his body, breaking a rib and piercing the left lung, making a very dangerous wound.

The young man is in a very critical condition.

MOUNTBATTENS GO WILD OVER AMERICAN SLANG

LOS ANGELES, Cal., Oct. 23.—Lord Louis Mountbatten and his bride arrived here yesterday on their honeymoon tour.

FLOUR IS NOW ON SALE FROM YUKON WHEAT

DAWSON CITY, Oct. 24.—Canada's cereal producing area has been extended to the Yukon. Flour made from Yukon-grown wheat is on sale in Dawson today. James Parr, superintendent of

of the Liberal party we expressed here at a convento of Progressive of Last Mount constitution. T. H. McConica M.P., for Battledale, and J. Fry Johnston, M. P. for Last Mount, chief whip of the Progressives, spoke favorably of a working agreement between the two parties, but this did not meet with the view of the delegates present in all parts of the constituency.

AGRICULTURE IS OPPOSED TO ALLIANCE AT OTTAWA

NOKOMIS, Sask., Oct. 24.—Strong hostility to any fusion between the Progressives and what was termed the Progressive wing

The Mountbattens, whose principal object in coming here was to see how motion pictures are made, are occupying the residence of Douglas Estroff and his wife, Mary Pleford. They will visit no other people here.

With Charles Campbell, the Lord saw Hollywood and his Lordship introduced a new game which he called "decameron." It is played this way," he said; "pick out a woman with a mole on her face and shoot 'you hoo decameron' that counts 15 points. The first to make 50 points wins. Any number can play."
