This column is reserved for news of local interest... in every nature may be carried at five cents a word, strictly payable in advance.

NAVY AUXILIARY, Queen Charlotte ward room, Friday, 3.30 p.m. Tea will be served. 9-21-45

WELL BABY CLINIC - Held every Friday from 2 to 4.30 p.m. at Red Cross House, 42 Prince Street. 9-21-45

SPENDS FURLOUGH AT HOME - Ple. J. A. Gauthier of the 5th Division Provost Coy., who has recently returned from overseas has returned to Halifax after spending a 30 days furlough with his wife and family, also his parents Mr. and Mrs. Peter Gauthier, all of Mayfield, P.E.I.

FUNERAL AT HAMPSHIRE - The funeral of the late Wally Kilson was held from his residence at Hampshire. Services were conducted by the Rev. E. E. Godwin, assisted by the Rev. Mr. Morrison. The pallbearers were, Hilbert Tremere, Frank Watts, John Edwards, Hilson Tremere, David Ward and Earl Ward. Interment was in Hampshire cemetery.

FUNERAL AT BANGOR - The funeral of the late Mrs. Simon Mc-Kinnon of Central Royalty was held Tuesday afternoon at the Cutcliffe Funeral Home followed by service in Bangor church. Services were conducted by the Rev. A. Blair, assisted by A. Brenden. The pallbearers were, Helo Compson, Martin Compson, John Ladner, Benita Grant, Herbert Trainer, Joseph Kelly. Interment in Bangor cemetery.

ISLAND-BORN NUN IN INDIA - After eight years of hardships and perils in the Chinese, Sister Mary de Ricci Cain, daughter of the late Mr. and Mrs. William Cain, New Perth, is safe in India, according to a report from the Maryknoll Sisters, New York. Sister Cain is one of the survivors of the siege of Hong Kong where she was taken prisoner by the Japanese and interned. Released last year in an exchange of prisoners, Sister Cain, with four other Maryknoll Sisters, made her way into India where she was warmly received by the Loreto Sisters and invited to teach in their schools.

WEST ROYALTY W. I.

The September meeting of West Royalty Women's Institute was held at the home of Mrs. Stewart MacKinnon with eight members present. Collection amounted to \$10.

Minutes of last meeting were read and approved. A letter of appreciation and thanks was read from Mrs. Crosby and family. It was moved and seconded that enough oilcloth covering be bought for the newly purchased books by the school committee, and the work of covering be done at next meeting.

The school committee reported several small articles needed for the school and it was moved and seconded that they be bought.

The following committees were appointed for next month: School: Mrs. MacKinnon and Mrs. Gates (re-elected). Sick: Mrs. Stetson and Mrs. Bell. Program: Mrs. Bell and Mrs. Burke.

Lunch: Mrs. Stewart MacKinnon and Mrs. MacLure. Next meeting to be held at the home of Mrs. Russell Bell; roll call, A Home Improvement, I Have Made Or Would Like To Make Program: Planning the ideal farm house.

Meeting closed with "The King" and lunch was served by the hostess and committee in charge.

Will Represent P.E.I. Education Dept. With War Assets Corp.

Mr. E. S. Chandler, supervisor of shop work for the Rehabilitation Training School, Charlottetown, was recently appointed by the Provincial Department of Education to act as liaison officer with the branch sales office of the War Assets Corporation. He will act on behalf of all school boards under the jurisdiction of the Department.

Mr. Chandler will also represent the Department if and when any central meetings between the provincial educational departments and the Corporation are held. Such a meeting, it is understood, may take place soon in Montreal. The Provincial Department of Education would like to secure surplus electrical and machine tools for the vocational training school now under construction. All such equipment, as well as maps, blackboards and other educational material formerly used by the military airports will not be sold to the educational departments but be released on indefinite loan. The Provincial Department has put in a request for electrical and shop equipment but as yet has received no definite reply.

Dredging Operations

Considerable progress has been made in the dredging operations at Wood Islands where two dredges, Nos. 9 and 14, have been working for the past six weeks. Dredging at the main pier has been practically completed as well as dredging alongside a smaller wharf which is now being used by the fishermen. A small bridge to connect the fishermen's wharf with that of the main pier is under construction. Dredge No. 14, under the command of Capt. Alex MacLean, is still operating at Wood Islands. No. 9, under acting-Captain Bertram Shepherd, who is relieving Capt. E.J. Gallant, now on sick leave, has arrived at the Railway Wharf, Charlottetown, to begin dredging there. It is expected the work will be finished before the fall's rush of shipping commences. Assurance was recently received from the Federal Minister of Public Works that an item to provide for the reconstruction of the railway wharf would be inserted in the supplementary estimates for the present session of Parliament.

Former Ch'town Naval Officer Plans Business Life Here

Plans are underway for the admission of Cmdr. Nelson Rattenbury, R.D., R.C.N.V.R., as a partner in the wholesale firm of N Rattenbury Ltd. when he returns to Charlottetown about the first of October on his retirement from naval service. A fine tribute was paid a few days ago to Cmdr. Rattenbury by Capt. J.A. Heenan, O.B.E., senior naval officer in charge of the Saint John area. He said that the senior officer had rendered "most valuable service" as control officer of the 3rd Squadron, the senior executive officer of H.M.C.S. Captor II. Cmdr. Rattenbury's first sea experience began in 1922 when as a cadet of 17 he joined the Canadian Government Merchant Marine in which service he sailed over all the world's oceans for two years.

In 1930, he was an officer with the Canadian National Steamships sailing aboard several of the "Red" boats in the Canada-West Indies trade. He took up his residence in 1934 in Fredericton, N.B., and the same year joined the Royal Canadian Reserve. Upon war breaking out in 1939 he was appointed to the staff of the 1st Canadian Army in Ottawa and St. John. In 1940, he was promoted Lieut.-Commander and in 1942 to the rank of Captain. In 1945, he received the Reserve Decoration awarded to those who have 15 years of efficient naval service.

ENTHUSIASTIC

(Continued from Page 1)

Discussion on this report was joined in by Mr. P. E. Palmer, chairman of the decorations committee. He suggested that, after the train be stopped a partial distribution of cigarettes to the crowd be made. It was felt that this would give a chance to many to view this march who could not get to the Exhibition grounds. He felt that the Market Square and Market Building would be the reception, if the march were to be held there. Coun. Gay pointed out that, if the batteries arrived on a market day, the march could not very well be received in the market building, with the meat, poultry and vegetables lying about. The next day he suggested that the march be held in the Exhibition grounds, and if wet, in the Armouries, the thought being that these men be conveyed there in trucks.

Mayor Arnett of Summerside thought that the march should be held in the town when they landed. He pledged the co-operation of the Town of Summerside in making the march a day of a hearty and triumphant homecoming. Mayor Arnett also felt that the Boy Scouts of Summerside should be invited to join with other Boy Scouts in checking and taking care of the men's kits and baggage.

After further discussion on the matter of the checking and care of kits, joined in by Messrs. P. E. Palmer and Leo Bradley, Col. Paton said he would give this matter close study. Sgt. Maj. Lacey, Mr. Ken Martin, and Sgt. Wm. Dennis were chosen as members of a committee to work with him on this question.

after the reception was over, and take them home. Mr. Wm. Bruce was put in charge of this, with Mayor Arnett and Mr. Tanton, Summerside; Mr. B. Ellis, O'Leary; Mr. R. C. Clarke, Mr. Stewart; Mr. Ferguson, Belfast; and Mr. H. H. Cox, Morell, as other members of the committee. It was moved, seconded and carried, that the boys be taken to their homes after the reception, in cars thus arranged for.

The chairman appointed Hon. O. H. Barbour as chairman for the transportation committee for the City of Charlottetown. This committee to provide for any extra transportation of boys and kits that might be required. Mr. James Robison was then appointed chairman of a committee for the accommodation and entertainment of Battery members from outside the Province, and those within the Province who could not get home that night. The Dept. of National Defence would defray the expense of this, it was stated.

Mr. P. E. Palmer outlined the arrangements for the decorations committee had so far made, for decoration of houses, shops, fire trucks, business places, etc. Mr. I. Y. Reddin and Mr. Gordon MacDonald were put in charge of this question. The committee were to report progress at the next meeting.

Hon. Mr. Barbour felt the Provincial Government should be requested to reach a satisfactory understanding with the committee in the matter of defraying the costs of the decorations. Arm Bands, in sufficient numbers, to be worn by the Citizens Reception Committee, were distributed. It was stated, Mrs. Manning Bagnall was made chairman of a committee to take charge of this distribution.

Mrs. Ira Brown outlined arrangements so far made to provide refreshments for the troops and their relatives. 1800 sandwiches were tentatively prepared as the number required. There was some discussion on arrangements for providing ration coupons for these.

Mr. James MacKinnon dealt with the question of providing other refreshments. Mr. Woodwin, chairman of the Band Committee said that the Bandmen of the local bands would be more than willing to turn out, if the Government of the province could come. As to Summerside, he was not sure that there was a band functioning there at present, but he hoped it might be re-organized by bandmen. The City Band would be in attendance.

Mayor Arnett explained that at present, no military band was in the city, but that a band would be organized. The chairman requested Hon. Mr. Barbour to get in touch with Mr. Pointe, Bandmaster of the Miscouche Band. This Mr. Barbour agreed to do. Mr. Arnett also said he would see Mr. Pointe about this matter.

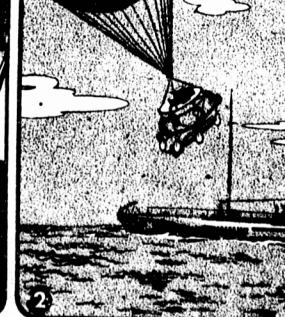

A committee consisting of Col. Paton, Coun. Gay, Mayor Arnett and Mr. Pointe was appointed to co-ordinate all matters connected with the reception and to draw up a program for the day.

B.S.M. J. B. Shelton outlined the steps which had so far been taken by the committee. Mr. Arnett said he was not sure that there was a band functioning there at present, but he hoped it might be re-organized by bandmen. The City Band would be in attendance.

Throne Speech Debate Continues

By FRANK FLAHERTY OTTAWA, Sept. 20 - (CP) - Canada's voice should be heard in Pacific affairs, Howard Green, Progressive Conservative member for Vancouver South said today in the Commons.

He charged that in no area was Canadian policy more uncertain, despite the fact that Canada was the first country to declare war on Japan and that the situation now called for a "strong hand" in dealing with a defeated but unrepentant enemy.

(1) Skies were clear over Hiroshima when a superforce dropped the first atomic bomb in warfare, banked for a 270-degree turn and flew away. Smoke, dust, and debris from the explosion rose 40,000 feet. The Japanese said the glare of the explosion lasted 10 minutes. The blast knocked out approximately 30 bridges and flattened houses for 10 miles around. So far more than 60,000 deaths have occurred as a result.

cents a bushel in the equalization of wheat and a ban on exports. The action arises from the short crop in Western Canada and necessity of keeping Canadian supplies in Canada as feed for livestock.

"A strong hand is needed with Japan," said Mr. Green. "Canada's voice should be heard. The Canadian flag should be flying in Japan today. Other nations are showing great interest in the Pacific. Here we have the United States planning now for bases in different parts of that ocean. Russia is edging in, having moved into Manchuria."

Wheat Policy Under Fire

The Government's wheat price policy, announced yesterday by trade Minister MacKinnon, came under fire when P.E. Wright (CCF -Melfort) unsuccessfully tried to move adjournment to start a special debate on wheat and later attacked it in a speech.

Mr. Wright said he thought reasons advanced for the ceiling of \$1.30 per bushel on wheat sold for export were sound but was against the lowness of the floor price—\$1—provided for the next five years. He said it would mean a reduction in the income of western farmers which would affect the whole Canadian economy if wheat prices were allowed to fall that low.

For agriculture generally he urged a marketing act which would enable farmers to control their own products and a system of export boards which would permit long-term contracts for sale of farm products at satisfactory prices to other countries.

(2) Another bomb was dropped on the Marianas by fast cruisers. Discovery of TNT-loaded balloons probably from Japanese submarines in Washington state where one of the bomb factories was located, gave rise to the speculation that the Japanese may have heard about the atomic bomb before the Hiroshima attack.

minister) drew interruptions from the C.C.F. members when he disputed C.C.F. claims that the Labour Government in New Zealand had established conditions there which Canada should strive to attain.

Mr. Reid said if the Canadian people knew the true facts about New Zealand they would not be tempted to turn Canadian affairs over to a socialistic government. Mr. Reid said he believed the countries which shared the same objective to provide meat to Britain and Europe. The method appeared to be wrong. There now were runs of cattle on stocks.

Fire Service For Province Seen As Likely In Future

Possibility of the establishment of a Provincial Fire Service on a permanent basis, along the lines of civil defense auxiliary fire services operating during the war, is in sight as a result of government action taken finally on an Opposition suggestion made in the Legislature last April.

The suggestion, voiced by Messrs. H. F. McPhee, Heath Strong and others, was to the effect that the A.R.P. equipment used by Island communities during the war be obtained from the War Assets Corporation by the Provincial Government, and made available to the communities. Premier Jones pledged the Government to this action, and spoke hopefully of being able to make the arrangements immediately. For some reason, however, there were months of delay and it is only now that announcement has been made that the equipment is available for purchase at reduced prices by towns and districts wishing to acquire it.

THE STORY OF THE ATOM

beyond the wildest nightmare of the imagination. It is so ideally suited to sudden unannounced attack that a country's major cities might be destroyed overnight by an ostensibly friendly power. The weapon has not been created by the devilish inspiration of some genius, but by the arduous labors of thousands of normal men and women working for the safety of their country. Our government hopes it will be used only for peaceful pursuits and to prevent war in the future.

with the preference going to those centres in which it had been previously been in use.

Anticipating this measure in an address delivered in Quebec last May, Provincial Fire Marshal C.A. Beer referred to the splendid work of the A.R.P. forces here and said the Provincial Government was "taking seriously under consideration the establishment of a provincial fire service along the same lines."

Produce

MONTREAL, Sept. 20 - (CP) - Produce prices today reported by the Dominion Department of Agriculture follow: BUTTER: Wholesale Que jobbing pasteurized No. 1 34 3/4-34 1/2; No. 2 34 1/4-34 1/4; current receipt Que. NO. 16: A NEW WEAPON OF WAR IS USED

(3) When the story of the atomic bomb was released, Prof. H. D. Smyth, of Princeton, wrote in a War Department report that "a weapon has been developed that is potentially destructive beyond the wildest nightmare of the imagination. It is so ideally suited to sudden unannounced attack that a country's major cities might be destroyed overnight by an ostensibly friendly power. The weapon has not been created by the devilish inspiration of some genius, but by the arduous labors of thousands of normal men and women working for the safety of their country. Our government hopes it will be used only for peaceful pursuits and to prevent war in the future."

Tomorrow: The Future.
