HE-MAN DYNAMITE, IN A RED-BLOODED SAGA OF THE COAST GUARD!

JOHN WAYNE IN A UNIVERSAL PICTURE

SEA SPOILERS

PLUS CARTOON—TOPICAL—SERIAL.

TODAY and SATURDAY 3:15 - 7 - 8:45 SATURDAY MATINEE 2:30

MATINEE 11c - 27c. Capitol EVENING 27c - 33c.

Especially notable is the expert cast which supports the start.

The opening of the picture finds Slim and his niece, Jane, driving along a cotton field on a Southern plantation.

All Gillingwater's hopes are centered in his racehorse, Stonewall Jackson, the favorite to win the \$50,000 Derby.

In order to get money to make the check good Jane takes the plantation dorkie to New York and they win a prize on a famous radio amateur program.

and Helen marries Beck instead. From then on the story becomes increasingly hilarious.

John Wayne In "The Sea Spoilers" At The Capitol

Alaska seal poaching... the adventures of the United States Coast Guard.

These are the principal elements that comprise something "different" in screen stories.

Besides these refreshing elements of story theme and background, "The Sea Spoilers" offers John Wayne in his first starring role under the Universal banner.

The breaking up of a relentless band of seal poachers, on the world famous seal rookeries of Pribiloff Islands, is the central theme of the story.

John Wayne faces tests of courage and wins promotion through his thrilling exploit: The final struggle to capture the stronghold of the poachers is set to the exciting tempo of a pitched battle.

Mr. John Howe, Norton, is spending several days here a guest of

ANYTHING but LOVE by JANET DORAN

CHAPTER XXXV Burntwood raged with excitement when, a few days later, the story behind the bank closing really broke.

In the midst of it all, Lawson Whittaker quietly arrived home after his year's absence, and was soon installed in Caroline's house with Alma, though Aunt Harriet vehemently protested that she could not understand why he and Alma should make their home with her.

The winter in Cannes had done marvels for Lawson Whittaker. He no longer brooded over his failure. He was even gently humorous, dryly satirical, about the chessboard of life and its puny pawns.

And now as a result of the bank scandal, the same people who had waxed vociferous over his shortcomings at the time of his failure, swung round and became equally vociferous in making a martyr of him and flinging verbal mud at Roy Carryall.

A formal investigation into the bank's affairs and the operations of its officials—its president in particular—was opened and, day by day, a testimony was given, the newspapers were splashed with sensational revelations.

Any bitterness she had had against Roy Carryall was gone, and she now only felt sorry for him. Meanwhile, she had seen little of Johnny, who was busy aiding Chris Gordon in presenting the case against Carryall and others.

But she could not help a feeling of listlessness and depression, and she finally decided that she would ask Mr. Garrett for a leave of absence and suggest to her father that they go away for a while.

It was on the evening of the day that the bank investigation closed, that she broached the matter to her father. Caroline had gone out, and they were sitting alone.

"I think that's a good idea, Alma," her father said. "You look as though you needed a rest." He paused a moment, cast her a worried glance, then went on, "Something's troubling you, my dear," he said gently. "I haven't said anything about it, but I've

noticed. You can't fool your old Dad. I wish you'd tell me. What is it, my dear? Was it—er—er Sig's death?"

Alma gave him a strange look. "No, Dad," she said slowly. "I was shocked and distressed, of course, but don't you realize that I never loved Sig for one single moment? He was just a rut that I got into. I went with him because there was no one else."

"And there is—now?" he probed gently.

Alma was silent a moment. Then suddenly, unaccountably, her eyes filled with tears. In an instant, the cool reserve she had so carefully built up—all her defenses—were swept away, and she longed to pour out her heart to her father.

"Yes... there is, Dad," she sobbed. "Or w-was! But he doesn't care! Or else something has him all tangled up so that he thinks he can't allow himself to!"

"Is it Johnny?"

"Yes," she confessed miserably. "How did you know, Daddy?"

"I have eyes, my dear," her father said soberly. "Now—suppose you tell me about it."

"She told him all there was to tell, leaving nothing out. When she had finished, he was thoughtful for several minutes. Then, he rose and went into the hall to get his hat and coat."

"Where are you going, Dad?" Alma asked, alarmed. "What are you going to do?"

"I'm going over to see Chris Gordon," he said quietly. "I'm going to ask him about Johnny."

"No, Daddy! You mustn't! She leaped up to try to stop him."

"Wait... you don't understand." But the front door had already closed on him. She pulled it open to call him back, but it was useless. With a sigh of defeat, she returned to the living room and sank down on the divan.

She was still there fifteen minutes later when the doorbell startled her. Going to the door, she found Johnny standing on the porch.

"Come, Alma," he said gravely, "to say good-by. I'm leaving tomorrow."

"Oh—you are? Won't you come in, Johnny?" Was that her voice so cold and remote?

He hesitated. "Afraid I've got to get right back and pack," he said. "It was kind of you to stop by. Had she been Aunt Harriet herself, Alma could not have spoken more stiffly."

He glanced at her queerly, and his lips tightened. He dug his hands deep into his pocket; and, for a moment, it seemed as if he were about to say something—to burst into a torrent of words. Then his face became expressionless again.

"Good-by, Alma—dear," he said softly, and quickly clasped her hand.

Then, hunching his shoulders, he turned and fled down the steps into the night.
