Jonnolly Estate Scholarships

Applications will be received by the undersigned until June 11th, 1921, from all students desirous of competing in a written examination for one of the Connolly Estate Scholarships offered annually by the "Trustees Estate of Owen Connolly." This examination, to be held the third week of July in Charlottetown and Summerside, will be open to all deserving students who upon investigation shall have been found eligible to compete in accordance with the provisions of the Will of the late Owen Connolly. Each applicant shall state his name in full, age, names of both parents, Post Office address, and the nature and extent of his studies during the past four years.

M. J. SMITH,
Secretary
Trustees Estate of Owen Connolly
Kinkora, P. E. I. May 17, 1921.

STOPPED HER HEADACHE

Years Of Suffering Ended By "Fruit-a-tives"

112 HAZEN ST., ST. JOHN, N. B.
"It is with pleasure that I write to tell you of the great benefit I received from the use of your medicine, 'Fruit-a-tives', made from fruit juices. I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors; but nothing seemed to help me until I tried 'Fruit-a-tives'. After taking several boxes, I was completely relieved of these troubles and have been unusually well ever since." Miss ANNIE WARD.
50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Minard's Liniment for Dandruff
SIR THOMAS KEAN WON IN FEATURE.

LOUISVILLE, Ky., May 21.—Lloyd Gey's Sir Thomas Kean won the fourth Avenue Hotel Purse, at a race at Louisville in a thrilling race in which he out-gamed Cee, which was the only horse in the race to offer strong contention. These two came down to the wire and head and neck and fought it for more than a sixteenth of mile. Sir Thomas Kean gamely long a slight advantage to the endgame was an odds on choice in the mutuels. He led for six furlongs when the winner caught him and the duel began. Ben Valat's third.
The other three on the card a seven furlong dash, went to Rouleau which scored a close victory, winning a nose from High Command. W. J. Jett third. Rouleau caught in Command in the stretch but to be ridden out to hold the lead.

WHAT WE PLANT?

By Enry Abbey.
What do we plant when we plant a tree?
We plant a shadow which will cross the sea,
We plant a mast to carry the sails,
We plant the timbers to withstand the gales—
A keel, a keel, and prow and stern;
We plant a ship when we plant a tree.
What do we plant when we plant a tree?
We plant the bees for you and me,
We plant the pits, the shingles, the floors,
We plant the string, the laths, the doors,
The rafters and all parts that they;
We plant a home when we plant a tree.
What do we plant when we plant a tree?
A thousand boons that we daily see
We plant a spire that will climb a crag,
We plant a staff for our country's flag,
We plant a shade, on the fierce sun free;
We plant all wealth when we plant a tree!

Minard's Liniment Co. Limited.
Sirs—I have used MINARD'S LINIMENT for the last 25 years and whilst I have occasionally used other liniments I can safely say that I have never used any equal to yours.
If rubbed between the hands and inhaled frequently, it will never fail to relieve cold in the head in 24 hours. It is also the best for bruises, sprains, etc.
Yours truly,
J. G. LESLIE,
Dartmouth.

"Tiz" Eases Tired Sore, Swollen Feet

Instant relief for aching, puffed-up, calloused feet and corns.

Why go limping around with aching, puffed up feet—feet so tired, chafed, sore and swollen you can hardly get your shoes on or off? Why don't you get a box of "Tiz" from the drug store now and glad-den your tortured feet?
"Tiz" makes your feet as comfortable; takes down swells and draws the soreness and misery right out of feet that chafe, smart and burn. "Tiz" instantly stops pain in corns, callouses and bunions. "Tiz" is glorious for tired, aching, sore feet. No more shoe tightness—no more foot torture.

See The New Gray Dort

The new model Gray Dort car is in a class by itself—it has all the good qualities of the previous models with the beautiful lines and roomy seating arrangements of cars costing double the price.

The best part of it is—
The new GRAY DORT is as good as it looks.
Study the specifications—they mean something

- SPECIFICATIONS.**
- Engine**—Four cylinders cast in bloc. Cylinder head is removable to permit the removal of carbon and re grinding of the valves when necessary.
 - Bore**—3 1/2 inches, stroke 5 inches.
 - Valves**—Located on right side, and specially designed to prevent warping.
 - Pistons**—Very light, cast iron, with three rings and special arrangement for preventing smoking.
 - Wrist Pins**—Liberal in size, hardened and ground.
 - Connecting Rods**—Drop forged steel, double heat treated, the lower end bushed with a special die cast bearing metal, the upper end with phosphor-bronze. Shims are provided for adjustment of lower bearings.
 - Crankshaft**—Heavy forging of 40 carbon steel, double heat treated, carefully balanced and all wearing surfaces ground. Upper half of crankcase is cast iron, and carries the crankshaft bearings by removable caps provided with shims for adjustment. Oil pan is a steel stamping, easily removable.
 - Cooling**—Thermo-siphon with extra liberal water jackets and cellular type radiator, and a four-blade fan driven by one-inch belt.
 - Lubrication**—Plunger pump feeding oil troughs. Connecting rod dippers splash oil from constant level troughs to all parts of engine. Oil gauge on instrument board.
 - Carburetor**—Carter improved side outlet, easy starting, and unusually economical.
 - Ignition**—Connecticut battery system. Switch combined with that controlling lights, is carried on instrument board.
 - Starter**—Equipped with Bendix drive geared to fly-wheel. Storage battery.
 - Lighting**—Gear driven generator. Am-meter with switches on cowl instrument board.
 - Clutch**—Leather face cone with means for insuring easy engagement.
 - Transmission**—Selective, three speeds forward, one reverse, in unit with motor.
 - Rear Axle**—Three-quarter floating, nickel steel gears. Differential and pinion adjustable in both directions from outside of case. Propeller shaft mounted on Timken roller bearings; axle shafts are on Hyatt high duty roller bearings. Axle shafts are nickel steel, heat treated.
 - Front Axle**—1-beam, steering knuckles and levers drop forged steel, double heat treated.
 - Wheels**—Artillery type, 12 spokes, demountable rims. Front wheel bearings are Timken rollers.
 - Front Spring**—Semi-elliptic, 2 in. wide by 3 3/4 in. long, with bronze bushings and oil bolts.
 - Rear Springs**—Cantilever, 2 in. wide, 50 in. long, with bronze bushings and oil bolts.
 - Brakes**—Emergency, internal, expanding, operated by hand lever; service, external contracting, operated by pedal. Drums 12 in. diameter.
 - Steering Gear**—Improved nut and screw type.
 - Gasoline Tank**—Located in the rear of chassis. Vacuum feed to carburetor; capacity 10 gallons; Stewart vacuum system.
 - Tires**—Dominion, 31 x 4. Plain Tread on Front, Nobby Tread on Rear.
 - Frame**—Extra heavy pressed steel, narrowed in front to permit short turning radius.
 - Fenders and Hood**—Heavy gauge steel with baked enamel finish. Hood same color as body.
 - Radiator**—Of extra large capacity, cellular type. Baked enamel finish.
 - Top**—One-man type, attached to windshield.
 - Curtains**—Side curtains open with doors. Special pocket in seat back provides storage space.
 - Windshield**—Double adjustable with lower glass curved to match top of cowl.
 - Horn**—Electric. Mounted under hood. Button on top of steering column.
 - Speedometer**—Stewart, on cowl instrument board. Illuminated by instrument board lamp.
 - Tools**—Standard tool kit in bag, with jack, tire pump, and tire outfit.
 - Wheelbase**—108 inches.

SEED 94 ACRES IN ONE DAY FOR SOLDIER FARMER.
War Veterans on Land Exhibit Splendid Spirit of Co-operation to Help Stricken Brother.
A striking incident which forcibly demonstrates the co-operation which is being exhibited by the soldier settlers on the Ochepowace Reserve, near Whitewood, Sask., is the case of Mr. P. H. Watson, ex-Lieutenant in the C. E. F., a soldier settler on this Reserve.
On the 23rd of April last, while Mr. Watson was splitting wood on his farm, a chip struck his eye. He received local medical attention and as he was carrying on his spring work during windy weather, his eye did not improve. The local doctor advised him to proceed to Winnipeg, and upon his arrival there it was reported doubtful whether Mr. Watson would recover the sight of his eye.
As the seeding season was progressing, the neighboring farmers south of the Reserve organized a bee among the soldier settlers and in consequence on May 4th fifteen four horse teams with eight drills and dragharrows, went to work on Mr. Watson's land and seeded 94 acres in one day. The settlers participated in this work and provided their own feed for their horses during the day.

"Save the surface and you save all" - Paint & Varnish

Sun, rain, snow, wind, heat, frost, and the wear and tear of use, are the natural enemies of property.
Paint and Varnish are the natural guardians of property.
Save the surface and you save all.
