Prizes And Fun Featured At I.O.O.F. Quiz Show

Prizes and fun were the order of the night as the I.O.O.F. presented their variety quiz show to a gay crowd at the Clover Club last night. The hilarity was continued throughout the two and one half hour program by a capable effort of the master of ceremonies, "Franz Stances" or Mr. Ralph Rupert.

The show entailed questions and answers of a varied nature. One item saw two men and two women engaged in a pie eating contest, another saw contestants answering questions which the rule demanded that a wrong answer be given.

A feature of the show was that every contestant answered his or her question in the manner prescribed by the master of ceremonies. The November directors' meeting was held on Wednesday afternoon and evening in the modern new school at New Perth. The main discussion at the meeting centered around the revision of the By-laws and Constitution to provide for the incorporation of the Federation and the setting up of County branches.

The Prince County directors said they would welcome the setting up of a Prince County Federation as soon as possible. The demand has been great and they felt that Prince County farmers were ready, in other Provinces, Federations of Agriculture never actually accomplished very much on the local or Provincial levels until the farm people got together on a district and County basis.

Chief Justice Campbell said the organization was doing a "remarkable and valuable work." He commended especially the president "without whose foresight and vision, the success which the society enjoyed, would not have been possible."

The guests were introduced by Mr. E. D. Reid. These included the judges, Messrs. Walter Beer, Montague, J. Harry Brown, Kensington, and Ralph Monkley, Missouche.

A feature of the meeting was the folder of pictures of rural homes, including the prize-winners, which had been carefully prepared by the secretary, Mr. H. B. Chandler. These pictures were passed around and viewed with great interest by the guests.

The president noted there were a total entry of 130-113 homes and 17 schools. Prince County having the highest number of homes with 43 and 9 schools. Queen's was next with 37 homes and 4 schools and King's had 33 homes and 4 schools.

Mr. and Mrs. Willard Prowse, Brackley, distinguished themselves by winning the Lieutenant-Governor's Silver Cup for highest points in the Province, and three other prizes. This is the first time one home has won such recognition. They also won the Lt.-Col. E. W. Johnstone Silver Cup as highest point winner in Queen's, the P. W. TORONTO, Nov. 17.—(CP)—The Mounties' famous musical ride may take part in the 1951 Dublin Horse Show if Lt.-Col. D.G. Cory of the Republic of Ireland army team can make arrangements.

General manager of the Royal Winter Fair to investigate the possibility of the Mounties making the trans-Atlantic trip. Mr. McKee has written to Commissioner C.S. Wood of the Royal Canadian Mounted Police in Ottawa, inquiring if Lt. Col. Cory about financial arrangements.

The Mounties appear here each night in the intricate musical ride. A trio of famous Maritimers visited the fair today—Lord Beaverbrook, Premier Jones of Prince Edward Island and Premier McNair of New Brunswick. All farmers, they spent the morning touring the show chatting with exhibitors and examining prize exhibits.

More Unemployed In N.B., Is Report

MORE UNEMPLOYED.—(CP)—AMHERST, N. S., Nov. 17.—(CP)—Unemployment conditions are worse in New Brunswick than in the other two Maritime Provinces. Regional superintendent R. P. Hartley of the Unemployment Insurance Commission told a conference of 35 commission branch managers today that New Brunswick was experiencing a serious jobless period which might continue for some time. This was due to slack lumbering and pulp-cutting seasons.

The picture was better in Nova Scotia and Prince Edward Island although these Provinces had some seasonal unemployment. There were no figures available for Newfoundland, represented at today's opening of the three-day session, but indications were that the Island had considerable unemployment.

Mr. Hartley said employment prospects in industrial Cape Breton would brighten by early spring and continue good during the summer.

Neither can she expect to sell some of the surplus in the United States. Canada has import controls against U.S. pork. It is not believed possible to ship Canadian bacon to the U.S. without having to lift the import controls.

P.E.I. Trade Not Seriously Affected

The move to fly supplies for United States bases from Halifax is not expected to affect seriously island trade with Newfoundland, it was learned in informed circles here yesterday.

Except for the milk run between Summerside and Harmon Field, it was pointed out that shipments of potatoes and the bulkier vegetables from the Island are not flown but, in some cases, picked up by U. S. naval service vessels to supply the north-east bases. It is only in emergencies that potatoes have been moved to these bases by plane.

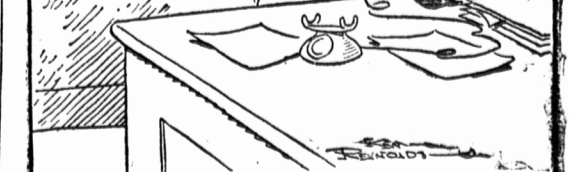

There has been no further information on the milk air-lift from Summerside.

In the matter of yesterday's news item regarding the Newfoundlander's fear that the ports of agricultural products from Prince Edward Island to that Province may be "seriously cut into," it was stated that with only some 4,000 farmers, Newfoundland could not possibly supply its own market. It is thought that the objection may be sparked by St. John's merchants who may be displaced by the competition from Island sources which has had the effect of reducing prices of these products in some areas.
