PERSONALS

Mrs. D. J. Riley has returned from
a visit to Montreal and Ottawa.

The many friends of Mildred, six
year old daughter of Mr. and Mrs.
Chester Campbell, who has been
dangerously ill with measles and
pneumonia, will be pleased to know
that she is now convalescing to a
complete recovery.

The many friends of Mr. Cecil
Kelly, of Moore & McLeod's, are
pleased to learn that he is back on
the job again after his recent ill-
ness.

Eastern Guardian

"FARMING OPERATIONS"
Work is ahead of former years. The
land is now fit to plow, though very
few have yet begun. But an addi-
tional man started ploughing last week.
Mr. Allan Gillis, Hay River, started
to plow April 16th. Farming pros-
pects are very favourable. The only
drawback in this county is the scar-
city of seed oats, and not only seed
oats, but feed oats too, and all sub-
stitutes for feed-oats, as hay, corn,
etc., are very high in price also.

PERSONALS

GYRO CLUB

The weekly dinner of the Char-
lottetown Gyro Club, which was
held in the Willingdon Room, Vic-
toria Hotel last night, was excep-
tionally well attended. Gyro Grant
Gregory occupied the chair.

The speaker of the evening was
His Honour Judge Arsenault, who
gave a most interesting address on
Jack Miner, and the laudable ef-
forts he has made to help preserve
the bird life of our country.

A vote of thanks to the speaker,
moved by Gyro Jimmie O'Donnell,
and seconded by Gyro Frank Mac-
Phee, was replied to by His Hon-
our in fitting terms.

Arrangements were made for the
installation of the Gyro Club and
officers by a group of Gyros from
Moncton, St. John, Halifax, and
New Glasgow, headed by Gyro Ed-
mund L. Kaey, who is International
Secretary Treasurer of the As-
sociated Clubs.

They will come in a pullman
specially chartered for the event,
which will take place about the
end of May. The installation will
be followed by a dance.

DAUGHTERS OF THE EMPIRE

A well attended meeting of the
Daughters of the Empire was held
yesterday afternoon in the club
rooms of the Canadian Legion.

It was addressed by His Honour
Judge Arsenault, who dealt with the
wonderful work of Jack Miner in
connection with Bird protection.

A copy of the prize Christmas
card, designed by Miss Jennie Tur-
ner was an exhibition, and was
much admired by all. It is under-
stood that copies will shortly be av-
ailable to the general public.

matically.

IN MEMORIAM

In loving memory of my dear
sister, Mrs. Leonard Gorman (nee
Winifred McGee, Sturgeon), who
died at St. Charles, May 1, 1928.
Lovingly remembered by her sis-
ter,
Mamie E. McGee,
Charlottetown.
4164.

IN MEMORIAM

In loving memory of our dear
husband and father, Arthur W.
MacKinnon, who departed this life
May 2nd, 1927.

I cannot say, and I will not say
That he is dead, He is just away!
With a cheery smile and a wave of
the hand,
He has wandered into an unknown
land.

And left us dreaming how very fair
It needs must be, since he lingers
there,
And you--oh you, who the wildest
yearn
For the old-time step and the glad
return.

Think of him faring on, as dear
In the love of There, as the love of
Here
Think of him still as the same, I say
He is not dead--He is just away.
Inserted by His Wife and Family.

**'ROSE-MARIE'
IS CHARMING
ROMANCE**

RECOUNTS A THRILLING YET
TENDER LOVE STORY
AGAINST A PICTORIAL BACK-
GROUND OF GREAT BEAUTY;
CAST ONE OF SEASON'S BEST.

Lovers of thrilling, yet tender
screen romance against a pictorial
background, will find something to
satisfy their appetites this week at
the Prince Edward Theatre.

It is a screen version of the famous
musical play, "Rose-Marie," in
which Joan Crawford has the title
role and James Murray is seen as
the romantic and mysterious, young
man who descends from the north-
woods into a fur trading post, start-
ing trouble for everybody, includ-
ing himself.

Before saying anything about the
human actors I want to speak a
word in behalf of pictorial back-
grounds, scenic grandeur and one of
the best musical scores that any
motion picture has ever had the
good fortune to possess.

"Rose-Marie" has been filmed
against the beauty spots of the
West--the Feather and Merced Riv-
ers, Yellowstone National Park,
Canadian and American Rockies
and Las Turas Lake, which lies high
in the lap of the Santa Monica
Mountains in Southern California.
Bette scenery than that could not
be secured anywhere for a
logical picture story. From a photo-
graphic standpoint, I want to say
that the camera-men have taken
the fullest advantage of a great op-
portunity.

The musical score is largely from
the compositions of Rudolph Friml
and Herbert Stothart, whose music
did so much to make "Rose-Marie"
a success on the speaking stage and
whose "Indian Love Call," "Rose-
Marie" and other numbers, are
known throughout the English-
speaking (or singing) world.

Joan Crawford, whose screen work
during the last two years can be de-
scribed best as "marvelous," outdoes
her other performances in the title
role of this production. I can think
of no other young woman who
could have done better on the screen
as this naive little French-Canad-
ian backwoods heroine.

James Murray, rather new to the
screen, gives a remarkable perform-
ance as Jim Kenyon, the romantic
young murder suspect. The re-
mainder of the large cast also do
good work.

An excellent prologue by Miss
Barbara MacNeill and Mr. Albert
Blanchard singing "The Indian Love
Call" and "Rose-Marie" from the
original musical comedy added
greatly to the pictorial program.

A special musical score from the
original stage play, by the Prince
Edward Orchestra rounds out one
of the most attractive programs
seen at this popular theatre, for
some time.

**INCREASING INTEREST
IN BIRD SANCTUARIES**

Rotarians Hear Interesting Facts About
Jack Miner Who Is To Lecture Here
Shortly On His Unique Experience.

Announcement of an interesting
lecture to be delivered in Char-
lottetown on the evening of the
9th of May, and in Summerside on
the evening of the 10th, by Jack
Miner, famous throughout America
for his bird sanctuaries and his in-
imate knowledge of bird life, was
made by Mr. Justice Arsenault,
president of the Publicity Associa-
tion at Rotary Club luncheon yes-
terday.

Judge Arsenault explained that
there was no ulterior motive in
bringing Jack Miner here beyond
the interest which attaches to his
subject and the benefit which might
accrue to this Province from the
enthusiasm everywhere aroused by
Mr. Miner's lecture on the subject
of wild bird conservation through-
out the establishment of sanctuaries.
Undoubtedly bird sanctuaries in
Prince Edward Island would bring
to our shores an increasing num-
ber of game and song birds and
would add greatly to the charm of
the Island and to the pleasure of
every lover of nature. What is
needed chiefly is education along
the line of preservation and con-
servation of bird life, and it is
on this subject that Jack Miner's
unique experience should be of
great benefit to us.

As an indication of the interest
already aroused in this Province
on the subject of bird sanctuaries,
the speaker read the following let-
ter received recently from a man in
the western part of the Province:-
"I see by the Press that you are
most interested in starting a bird
sanctuary. I may say that I have
one of my own. I own a tract of
land where one of my jobs fac-
tories is situated, known as the
Black Marsh, close to Naitch Cape.
It contains 350 acres and most of
it is peat bog, dotted with pools of
water and here and there a clump
of stunted spruce. About eight
years ago several flocks of wild
geese lit or were stranded in a wind-
storm, and since then they have
been coming every fall. I did not
begin shooting them until they had
they have been coming in increased
numbers. A year ago last spring one
pair hatched and their increase
was five young birds. Those were
the first geese that ever called
there in the spring. Last spring
several pairs remained, but we did
not notice any young. Last Wed-
nesday, the 11th, there must have
been 500 geese went there in the
storm, and several flocks have been
on the marsh since. This is the
first quantity that has called in the
spring. They generally come about
the 10th of October and remain un-
til the snow settles on the ground.
There are also large flocks of cur-
lew remain on the marsh at sum-
mer. There are small black berries
which they live on. They are very
plentiful and quite tame. I wrote to
Jack Miner last summer for some
information and he sent me quite
a lot of literature. Last fall about
the 1st of November, it was esti-
mated that for about a week there
must have been from 1500 to 2000
geese on the marsh. I am planting
some wild rice this year; they claim
it is good food for them."

Another letter, received by the
Publicity Association from a woman
in the western part of the Island,
read in part as follows:
"I read today your letter in the
Guardian regarding a bird sanctu-
ary for this Province. I am very
much interested in birds and am
delighted to know that some atten-
tion is to be given them here. I feel
very strongly that there is a pitiful
lack in the rural schools along the
line of nature work, so that the
children, so far as I have had op-
portunity of observing them, are
lamentably ignorant of what coun-
try boys and girls are supposed to
know."

Opportune Time

Judge Arsenault believed it to be
an opportune time for steps to be
taken to educate our boys and girls
along the lines above referred to.
We have a number of places in the
Province which might be converted
into bird sanctuaries. One result
would certainly be an increased in-
terest on the part of children in
the habits of wild birds and in
their conservation. He was sur-
prised on one occasion to find that
some school boys whom he first
took to be robbing a bird's nest,
were actually putting back the nest
into the tree, whence it had fallen
to the ground. On other occasions
he has seen a robin's nest, which
remains in a spruce tree, near his
home, undisturbed by school child-
ren who noticed it every day as they
passed by. Such incidents show the
interest that might be created by
a little encouragement and educa-
tion
