## POLICE ENFORCING FOOD REGULATIONS

LONDON, ONT., May 21—The police have instituted proceedings against restaurant men who failed to observe strictly the food regulations. A number of fines have been imposed. Chief Williams has done splendid work in making the regulations known, and he now believes all thoroughly understand the Act. No further warning will be given, and all who break the law must face the penalty.

Chief Campeau, of Montreal, issued a warning to proprietors of public eating places, that if the regulations of the Canada Food Board relative to waste and public eating places are not scrupulously observed, prosecutions will immediately follow. Copies of these orders have been distributed by Mr. Campeau.

# Have you got into the High Price Habit?

**PRICE** is the deciding factor in making a purchase with most people. While some seek the lowest price, there are many who are willing to pay the top-notch price, feeling that highest-price means highest-value. Both are wrong. Willingness to pay a high price is as wasteful as the false economy in paying too low a price.

Take shoes for instance. You can pay extravagant prices, but above a certain point the advance in price is not warranted by increase in usefulness or appearance or durability. In paying top-notch prices, you may be paying for extravagances that, in these days of economy, are quite unnecessary.

Consider the price when buying a shoe. Don't assume the highest price is necessary.

Buy the shoe that meets with your requirements at the price that gives the best value for your money.

You will find it possible to obtain shoes at reasonable prices which have all the qualities that you require. Ask your dealer to show you a shoe bearing the A.H.M. trade-mark. See if an Ames Holden McCready fine shoe (for men or women) at, say, \$7, \$8, or \$9 is not in every respect satisfactory in style and appearance. When you buy them, keep a record of the wear

they give, and decide for yourself if A.H.M. shoes do not give you greater value than you have ever obtained.

Ames Holden McCready are by far the largest shoemakers in Canada—a gigantic industry supplying the Canadian people, through thousands of retail dealers, with footwear of excellent value at reasonable prices, made in huge factories, each specializing on certain grades and styles.

When buying shoes, look for the A.H.M. trade-mark on the sole. This trade-mark is important to you. It is your assurance that you are getting standard value and a protection against cheap, unsatisfactory goods. Tell your dealer that you want A.H.M. shoes, tell him for what purpose you want them, and about what price you want to pay—you will find it worth while.
