Healthful

HEALTHFUL Cleanliness should be found in every room in the home. Old Dutch is a natural detergent that removes all impurities, visible and *invisible* without injuring hands or surfaces. It contains no lye, acids or hard grit. It's safe and economical to use Old Dutch for cleaning bathrooms, sinks, woodwork, floors, kitchen utensils, etc. Doesn't clog the drains. There's nothing else as satisfactory as Old Dutch Cleanser.

Cleanliness

MADE IN CANADA

FAREWELL

A short time before her departure for New York, Miss Lena McAleer, a former valued employee of White's confectionary store, was given a farewell party at the home of her friend, Miss Beatrice Kneabone, city. A most delightful evening was spent by the guest and her immediate friends in singing, dancing, etc. During the evening "Lena" was waited upon by her friends and business associates, and presented with an address and purse. Miss McAleer replied in her usual graceful manner and assured her friends that she would always remember their kindness. Lena, who was possessed of a very pleasing personality, made friends with all with whom she came in contact. Her many friends wish her every success in the great Republic. The following is the address:

Miss Lena McAleer.

Dear Lena,—We, your friends and former business associates wish to express our sincere regret at losing you from our midst. Knowing the limited opportunities of our province for those ambitious of advancement, we hardly blame you for going where your ambitions have more chance for realization. We know our Prince Edward Island is the best place to live, but we have to admit it has the one drawback aforementioned. You have endeared yourself to us by your graceful calm behaviour and by a winning charm of a personality that immediately made those with whom you came in contact your admirers and friends. We will keenly feel your absence, but we are unselfish in our wishes of good fortune in whatsoever you do or wheresoever you live. In choosing some small token of remembrance we have chosen that which we think shows our appreciation of your ability to make good and may this which we give you be always full of the material sign of success. So please accept this purse from the employees of White's with their earnest, trusting and sincere wishes for health, happiness and prosperity in your new environment.

(Signed)

Dorothy Harper,
Idella Chowen,
Jennie Nicholson,
Agnes Byrne,
Beatrice Kneabone.

Many a man's success in life is due to his failure to inherit money.

It is better to marry for wealth than for a chance to get even.

WINDSOR TO HALIFAX BIKE RACE TO BE HELD OCT. 2

HALIFAX, Sept. 8.—October 2 is the date selected for the Windsor to Halifax bicycle race, the early Fall feature in the Maritime sporting circles under the auspices of The Halifax Herald and The Evening Mail.

The event, the only classic of its kind in the Maritimes always brings a fine array of bike riders to the line and this year will be no exception, judging from the number of enquiries received at this office.

The Minello Bros., Hugh and Leo, winners of this classic in 1924 and 1925 respectively, have been in training for the past few weeks together with a numer of other stars including Dumphy, Guy Dibbon and George Walker of Charlottetown.

Report Of Teachers Convention

The annual convention of the teachers of inspectorate No. 6 was held in the Orange Hall at Uigg on the 27th of August, with nearly one hundred teachers in attendance.

Mr. Morrissey of Charlottetown president of the P. E. I. T. F. was chairman in lieu of Mr. Crozier who was unable to be present.

The press and resolution committees were named, after which the chairman in his opening address clearly outlined the policy of the P. E. I. T. F. and pointed out the many advantages accruing to the teachers of P. E. Island from such an organization. In the course of his speech he impressed upon his hearers the need of instilling patriotism into the minds of the children of the public schools.

He enlarged upon the benefits derived by P. E. Island from the Teachers Federation and from the convention held recently in Charlottetown, noting especially the publicity the Province received by means of that gathering.

The next speaker called upon was Inspector Shaw of Georgetown who welcomed the teachers to the convention assuring them that their meeting together to discuss school matters would be beneficial to all. He advised the teachers to pay strict attention to all school work so that the status of the school might be raised to the highest level possible. He thought that the present Rural Science course, which is always in a state of effervescence, is inadequate for the needs of the Province and suggested that a text-book for the subject be secured as soon as possible.

After Mr. Shaw's interesting and instructive address was ended the convention adjourned until the afternoon.

Immediately upon the opening of the second session a paper on composition was read by Miss Marian Douglas, principal of Georgetown school and an interesting discussion took place thereon in which many joined.

The "Question Box" was the next item of interest and many important questions dealing with school matters were read and discussed. Particularly did the one on matriculation Geography merit and receive a good deal of attention, the convention coming to the conclusion that the questions in Geography in future should be of a more practical nature.

Mr. H. H. Shaw Superintendent of Education then occupied the time while he outlined the "Course of Studies" for the coming year, and to the relief and satisfaction of the teaching body assembled he stated that a text-book on Rural Science would soon be made available to the teachers. No changes he mentioned would be made in books this year owing to the fact that the Maritime Provinces were considering the advisibility of having a uniform course of studies.

Miss Wilson head of the Junior Red Cross Society on P. E. I., followed and in her speech stressed the need of establishing and maintaining good health rules in the public schools.

She plainly showed by facts and photographs, how the Junior Red Cross Clubs through their donations have been the means of helping many crippled children of whom there are many on P. E. I., to gain a great measure of strength and in numerous cases complete health. In conclusion she made the plea that all schools in this province organize Junior Red Cross clubs for the benefit of needy children of P. E. Island.

The following resolutions were then submitted and unanimously adopted.

1. Resolved that the thanks of this convention be extended to the trustees of the Orange Lodge for the use of their hall.

2. Resolved that the thanks of this convention be extended to the women of Uigg school district to the teachers of Uigg and to Mr. M. E. McDonald for the splendid hospitality extended to us.

3. Resolved that the executive of the P. E. I. T. F., be requested to consider the holding of our annual convention at a more suitable time, preferably about the 24th of May.

4. Wheras there is at present so much disregard for our laws, etc., be it resolved that the teachers of this inspectorate stress the teaching of section in our course of studies entitled, "Morals".

5. Whereas in the last Entrance Examination in Geography certain questions which in our opinion were not practical from a modern teaching standpoint be it resolved that the questions hereafter be in a more practical form, while adhearing to the prescribed textbook.

The election of officers for the coming year was then proceeded with.

Mr. Eugene Dunn was chosen as president, while Mr. Parker was re-elected as secretary.

The meeting was then brought to a close by the singing of the "National Anthem."

The concensus of opinion among the teachers at the close of the meeting was that the convention of the 27th of August, 1926, was probably the best ever held in Uigg.

Eastern Teachers Annual Convention

The Annual Convention of the Eastern King's Teachers opened in St. Mary's Hall Souris on Aug. 31, with Mr. A. L. Adams presiding. The president expressed his pleasure at the large attendance of nearly sixty teachers called upon the secretary to read the minutes of the last annual convention which were adopted. The following committees were appointed: Resolution: Messrs. Russel Leard, James MacDonald and Miss Pearle MacKenzie; Press: Mr. Benoit Martin, Miss Mabel Paquet, Mr. Wendell Leard. In the president's address some suggestions made last year were brought up again this year namely: that meetings be held in a centred place at different times in the year for the purpose of discussing school matters and that an annual picnic be held. He urged that this convention request the Federation to make Souris a permanent centre for fall convention especially as it has been so well attended. The question re the importance of raising the salaries of female teachers to a par with those of male teachers was also brought up. After thanking the teachers for their attention he called upon Inspector Hynes, who dealt chiefly with the circular letter to teachers emphasizing strongly punctuality on part of teachers and pupils, co-operation of teacher and parents, importance of keeping the register to date and leaving it in the school at the end of the term, proper attention to be paid to the filling in and sending of papers relative to school work necessity of physical training, and games for the pupils. In conclusion, he gave some information about school fair work. A very interesting and instructive address on "Geography and the Teaching Thereof" was read by Mr. A. L. Adams. A short discussion followed after which the meeting adjourned to meet at one-thirty.

The first number of the afternoon session was an address on Discipline by Mr. D. J. Mullin who spoke on its importance and mentioned different ways of securing the pupils attention. He was followed by Supt. Shaw who gave the necessary information regarding the course of studies and reference books to teachers. The question of conducting the P. S. C. Examinations was discussed which resulted in a vote being taken, as to whether the teachers were in favor of having centres or exchanging schools, the latter system being carried unanimously. The question box followed the questions being answered by Mr. Shaw and Mr. Hynes. A hearty vote of thanks was tendered Mr. Mullins for his excellent address. The following resolutions were read and adopted:

"Resolved that the teachers of Eastern Kings in Convention at Souris, Aug. 31, strongly urge upon the Provincial Government the importance of raising the salaries of female teachers to a par with those of male teachers."

"Resolved that the Provincial Government be requested to abolish the obsolete system of spring and fall vacations still held in certain schools of this inspectorate and oblige all schools to have at least six weeks of midsummer holidays."

"Resolved that the Teachers Federation be requested to make Souris a permanent centre for the annual fall convention."

"Resolved that the thanks of the teachers be tendered the Parishioners of Souris for the use of their hall."

The election of officers then took place which resulted as follows:

President, Mr. Roy Grant; Vice-President, Miss Laura MacDonald; Secretary Mr. Wendell Leard; Executive, Mr. Eusebius Doucette, Miss Mabel Paquet, Mr. A. L. Adams; Honorary President, Mr. A. L. Adams.

The president then made a few remarks which brought a very successful convention to a close.

Mr. Harry C. Lydiard Noted Reinsman Dead

KENTVILLE, Sept. 6.—In the most dramatic and tragic occurrence that has ever happened on a race track in Eastern Canada, Harry C. Lydiard, of Centreville, Kings County, 78 years of age, and Canada's veteran race driver, died in his sulky, while driving "Briar Mac," in the first heat of the 2.30 trot and pace on the Aylesford race track, this afternoon. Death was pronounced, by Dr. Bezanson, of Aylesford, who was present, as due to a stroke of apoplexy.

Briar Mac had just passed Torpedo Lady, driven by Armstrong, at the ⅞ pole, and all eyes were on Mr. Lydiard, as he was making a driving finish, when he was seen to suddenly throw up his hands and fall over the side of the sulky. The horse seemed to sense that something was wrong, hesitated for the merest fraction of a second, then kept on in a beautiful stride on the pole.

John McGregor, driven by another veteran driver, Frank Foster, of Kingston, was ahead, and he was teaming his horse for all that was in him. Briar Mac hit a faster pace, and seeming to be guided by an unseen hand, overtook John McGregor, came around on the outside of him, passed and went after Aubrey the Great, and was rapidly gaining when the latter went under the wire. The driverless horse continued around the track at slightly lessened speed, but never broke once.

The time for the heat was 2.19¼, the fastest mile of the day. People who were present at the track said they had never seen anything more marvellous than the manner in which the horse continued the race, without a driver to guide him.

Harry Lydiard died in the manner in which, perhaps, more than any other, he would have chosen to meet his end. For sixty years he had been in the sulky. His name is known throughout the length and breadth not only of Canada, but of the United States. He had raced horses on the Grand Circuit, on every race track in Eastern Canada, and on many in Upper Canada. He was known exceptionally well throughout New England, while in his native Province of Nova Scotia his name is a household word.

At the time of his death, Mr. Lydiard was President of the Eastern King's Driving Club. He was always the biggest attraction on tracks in this section of the Valley. All race followers knew him as "Harry." His wonderful personality always captured the admiration of the crowd, and his ability as a driver was known far and wide. His sportsmanship was unparalleled, and winning or losing, he was always the same "Harry."

Mr Lydiard's feats on the race track would fill a large book. Probably his greatest horse was Border, 2.11 1-4, which he campaigned on the Grand Circuit. The horse he drove today was a grandson of Border's and it was Border's full brother Warren Guy, which raced at Mystic Park, in Boston. Among the famous drivers who were in that race were Jimmy Golden, James Trott, Andy Boylan and Gordon Sim.

That nothing would deter Mr. Lydiard was shown seven years ago, when, driving a horse in a race, the rein broke and he crawled out on the horse's back and finished first.

It was only last year that Mr. Lydiard took Briar Mac to Charlottetown and drove him to victory in three straight heats of the 2.20. Just before the start of today's races he was talking to J. Roy Hiltz, acting official of Kentville, in Briar Mac's stall, and said he was feeling fine, and intended to take part in the Island meet again this year.

When the horses came out for the first heat of the 2.20, there was difficulty in scoring them. Mr. Lydiard drove up to the grand stand and requested the starter, Sheriff F. J. Porter, of Kentville, to score the horses by him.

"I will, next heat," said the Sheriff, but the next heat never came for the veteran driver.

The remains of the late Mr. Lydiard were brought to Kentville by auto.

He is survived by one son, Percy Lydiard, Secretary of the Lloyd Manufacturing Company, Kentville.

for the first time!

a completely cushioned engine

rubber heels for the McLaughlin-Buick engine

The McLaughlin-Buick Valve-in-Head engine now has "rubber heels."

Here is an engine completely insulated and isolated from all metallic contact with its chassis. Thick rubber cushions, fore and aft, absorb noise, and save the engine from road shocks and strains.

Never, in all its successful years of motor car manufacture, has McLaughlin-Buick ever produced a car so far ahead of its field in performance and value as the 1927 McLaughlin-Buick.

Money can buy no finer performance, no matter how much you are prepared to spend.

ADDRESS AND PRESENTATION

On the evening of June 30th at the Annual Examination the Women's Institute of St. Margaret's read an address and presented a handbag to Miss Frances McGaugh on her departure from the district as Teacher and Secretary of the Women's Institute. The following is the address that was read:

To Miss Frances McGaugh,—
Teacher, St. Margaret's School

Dear Frances,—

As the time is now at hand when you are about to takeyour leave of this district as our Teacher the St. Margaret's Women's Institute feel that we would be remiss in our obvious duty should we fail to express in some formal manner the sense of loss entertained by all at your departure.

Since your coming amongst us two years ago to take up your duties, you have at all times manifested a lively interest in your work not only insofar as involved within the confines of the schoolroom but also in the wider sphere which embraces the home and domestic interests, which constitute after all, the real field for education in the proper sense. Not in theory alone, but in actual practice; not only by precept but by actual example, you have as so well expressed of the ideal teacher.

"Tried each art; reproved each dull delay;
Allured to higher worlds—and led the way."

The educational interests of the district have been well looked after in your capacity of teacher, and there is also abundant cause for grateful remembrance by the Women's Institute in particular for the manner in which you participated in our affairs. In fact, we would hardly be exaggerating to say that it is due to your persistent efforts and untiring guidance that we have a branch of that organization here at all. After its formation your devotedness as Secretary has been a source of continual encouragement to all concerned and it it with very special regret that we are now constrained to bid you farewell as the incumbent of that office.

It is a source of considerable pleasure to us, however, to know that although conditions render necessary a severance of your official association with us your ability as a teacher has been recognized by a neighboring district and that we may still have the continued pleasure of meeting you socially from time to time and so the pang of parting is tempered by the realization that it is not a case of "Good-Bye" but simply "Au Revoir."

But as a tangible expression of feelings that our words cannot convey and as a slight memento of the present relations ever existing between us, we ask you to accept this little gift accompanied as it is by the best wishes of each and all of the members of St. Margaret's Women's Institute.

Signed on behalf of the Women's Institute.

You can remove chocolate stains with soap and tepid water.

Smart Alec: "If the clock strikes thirteen, what time is it?"
Sensible, calmly: "Time to fix the clock."
