## STIFF SENTENCES FOR JEWEL THEFT

(Canadian Press)  
LONDON, Nov. 24.—Sentence was pronounced at the London sessions of the Old Bailey today on four prisoners, charged with stealing and receiving a pearl necklace, valued at \$550,000, which disappeared during transit by registered post from Paris to London on July 11th.

## \$25,000 GIFT FOR Y.M.C.A. FUND

(Canadian Press)  
NEW YORK, Nov. 24.—John D. Rockefeller, Jr., today contributed \$25,000 to a \$1,000,000 fund which is being raised for the Y. M. C. A.

## FOURTH MURDER IN A WEEK

(Canadian Press)  
DETROIT, Nov. 24.—The fourth murder in Detroit's Little Italy in a week, resulted in the death to-night, of Vito and Salvatore Adamo, brothers, who were shot by an assassin using a sawed-off shot gun. The two men were found lying in the street in the Italian Colony, but residents in the vicinity declared they heard no shot fired. The weapon was found nearby.

## CHARGE AGAINST EDITOR OF HERALD

(Canadian Press)  
QUEBEC, Nov. 24.—In the Legislative Assembly to-night the motion of Armand Lavigne to have the editor of The Montreal Herald summoned before the Bar to answer certain questions with regard to an alleged interview with Hon. Jean Provost, was allowed to stand owing to Provost's absence from the House. The Herald made statements in reference to the Quebec Government's attitude to the Montreal Tramways Company and credited them to the Provost who denied the authenticity of the interview.

Minard's Quiniment Cures Diphtheria.

## ANOTHER STRIKE IN INDIANAPOLIS

(Canadian Press)  
INDIANAPOLIS, Nov. 21.—Union men and employees of the Building Trades' Council who were employed on jobs where members of the local bricklayers, masons and plasterers of the International Union of America were working, were ordered to strike today by the trades and labor officials. Eighteen trades are affected. The fight between the Building Trades' Council and the Bricklayers Union which are not affiliated with the American federation of labor is national in scope.

## LONGSHOREMEN'S STRIKE SETTLED

(Canadian Press)  
PORTLAND, Nov. 24.—An agreement was reached today concerning the rates and wages paid to longshoremen and the strike which has been in progress for several weeks has been declared off. The men will have 33 cents per hour for day work on all freight, except coal, on which they get 35 cents. They had been receiving 30.

## MAIN POTATO-GROWER ON P.E.I. POTATOES

A Guardian reporter yesterday had an interesting interview with a party of American gentlemen who are at present in Charlottetown on a business visit. They were Messrs. J. F. Pritchard and A. J. McDougall, who are all engaged in the cultivation of potatoes on a very large scale in Aroostook, Maine.

Mr. McDougall said that he was never troubled with rot or any of the other diseases peculiar to the potato, for he always kept a vigilant eye on his fields and detected and eradicated ruthlessly any pests which he came across. It was just the lack of this vigilance that supplied the reason for the Prince Edward Islanders not securing enormously better results from their crop than they did. Mr. McDougall, in reply to the reporter's question whether the soil of the Island compared favourably with that of Aroostook and whether conditions here were, on the whole, as favourable as those obtaining in the other place, advanced emphatically and unequivocally the opinion that Prince Edward Island, so far as he had seen, was far and away above the American State under notice for the growing of the potato in every respect. To show the difference that exists between Maine and this Province, and in demonstration of the possibilities of the Island, the following short review of the progress of certain cities in Maine was given.

Fifteen years ago Aroostook probably raised about three million bushels of potatoes. Aroostook is a large district, but at that time the cultivable portion was but a narrow strip along the eastern border. The people who settled there secured their entire livelihood by making shingles out of the little spruce which they managed to cut down—a precarious sort of livelihood. In the county were four small towns to which these people sold their shingles. The small amount of potatoes then grown was all used as food by the people of these towns. There was then erected a starch factory, and this it was that incited the population to grow the potato on anything of a large scale. When the industry was established on an extensive basis the farmers abandoned the starch factory and sent their produce to the large cities, where they obtained higher prices than the factory was prepared or could afford to pay. It did not take a great deal of time to convince the people that it was one of the most profitable businesses they could engage in—and during the last five years, as evidence of the progress made, the county had raised more than twenty million bushels. The place in the industry from what country was worked up from what might be termed a settlement of pioneers in the United States; that was, comparatively speaking; and it was all done by potato growing.

They had been able to do it simply for one reason; they had never allowed any element of chance to enter into their calculations. The farmers had all attended the experimental colleges and carefully studied all the diseases to which the potato is liable. They found the remedies and devoted their whole time to a vigorous and relentless campaign against anything in the nature of a pest. The worst of the troubles which they had to face was known locally as "blight." It attacked the leaves and occasionally in one night an entire field would be hopelessly ruined. But a good and tried disinfectant would ensure against all diseases. The preparation generally used in cases of blight, Mr. McDougall said, was commonly called "Bordeaux" mixture. It was made from copper sulphate (blue vitriol) and consisted of 10 parts water and one part mixture. It was invariably applied for ten days, or

## RE-UNITED AFTER SEVENTEEN YEARS

(Canadian Press)  
NEW YORK, Nov. 24.—After an estrangement of seventeen years Bramwell Booth and Ballington Booth shook hands today at a luncheon, where they were guests of mutual friends.

## TO PROTECT MAPLE SUGAR MAKING

(Canadian Press)  
OTTAWA, Nov. 24.—There are few industries in Canada where fraud is so openly practiced as in the manufacture and preparation of maple sugar syrup and its products. The Department of Inland Revenue now has under consideration drastic regulations designed to protect the legitimate producer and penalize those guilty of fraud. The standard was defined some time ago and it is now intended to increase penalties for violation, while rigid enforcement will be provided for.

## G.T.R. TRAIN WAS WRECKED

(Canadian Press)  
CHATHAM, Ont., Nov. 24.—The Grand Trunk eastern flyer was wrecked this afternoon about fifteen miles outside of Windsor. The train was behind time and making 50 or 60 miles an hour when the accident occurred. Most of the cars remained upright. To this can be attributed the fact that no one was injured. A broken or spread rail was the cause of the derailment.

## U.S. PRESIDENT'S DAUGHTER WEDS

(Canadian Press)  
WASHINGTON, Nov. 24.—A daughter of President Wilson will be married tomorrow when Francis Rowe Sayre will lead Miss Jessie Woodrow Wilson to the altar. The entire bridal party tonight rehearsed the ceremony for tomorrow. Later the young folks of the party were entertained at dinner by the officers of the United States ship Mayflower and the President's yacht. As a special compliment to the President tomorrow the diplomats of the different countries represented in Washington will wear full regalia at the wedding.

Mr. McDougall was quite positive that Prince Edward Island could be made to produce an enormous quantity of potatoes in excess of its present output if conditions generally were properly attended to. To use his own words: "The land is richer here and far better, and crops could be raised with much less fertilizer; and the ad valorem duty in the United States being so small, there would be no reason why the Island should not compete with any other country in the world. But the American market does not want the cheapness; it wants a smooth, round, white potato. The people of New Brunswick, by raising the same kind as the people of Maine do, get the same prices. There is no question whatever about it, he concluded emphatically, that Prince Edward Island could do tremendously better than it is at present. Fifteen years ago Aroostook was a wilderness; now in each of its towns there are more than six thousand inhabitants. The land there has increased in value from \$1 per acre (at that time) to now in prairie sections, fully \$200 per acre. Prince Edward Island could produce ten times more potatoes with proper care and management and scientific treatment of diseases."

It might be mentioned that Mr. McDougall is the owner of a farm of 246 acres with an average crop of 182 barrels of 165 lbs. each to the acre. Mr. Newsom, of Newsom & McLeod's, Boston, is one of the largest potato dealers of that place. Mr. Pritchard recently advised about half-a-million bushels. The opinion of such gentlemen as these can therefore be regarded as eminently reliable and authoritative, and there is not the slightest reason why their roseate and optimistic ideas touching the potato industry of this Island should not be realized.

Mr. McDougall is here in Charlottetown at present for the first time, and his impressions are highly complimentary—as, of course, they can only be. He was delighted, he said, with the beauty of the harbour and the pleasant undulating nature of the country roads, and altogether he thought that the Islanders had a very fertile and rich land.

## HALIFAX WELCOMES H.M.S. NEW ZEALAND

Following is the full text of the address presented by the Mayor and Council of Halifax to Capt. Halsey, the commander of H. M. S. New Zealand, at the formal welcome tendered on behalf of Halifax to the first of the overseas warships to visit the port which for a century and a half has been the headquarters of the White Ensign on this continent. The presentation of the address was made by the Mayor at a special meeting of the Council called for that purpose:—

To Captain Lionel Halsey, Officers and Members of the crew of H. M. S. New Zealand:

Greeting:

On behalf of the citizens of Halifax, we, the mayor and members of the Board of Control, and City Council, extend to the captain, officers and men of the battleship New Zealand a very cordial welcome.

We are pleased to have your line ship in our harbour, and the seat of naval power in the New World, and the first seat of representative government in the Overseas Empire.

Halifax is happy in the fact that it is her privilege to extend a cordial welcome to the first ship of the Empire fleet—one of the finest afloat—contributed by New Zealand, one of the smallest yet the first of all the Overseas Dominions, in practical patriotism, in practical defense of the Dominions under the Southern Cross, in defense of Canada itself, and the Atlantic seaboard, and in setting a practical example to all the sister dominions; an example that has arrested the attention, and excited the envy, of the nations of Europe—in the spontaneous and enthusiastic gift to the common defense of the Empire and the Sons of the Blood, throughout the world, one of the finest and most powerful fighting ships afloat.

Though we may appear to lack the overflowing enthusiasm displayed by the people of British Columbia, the welcome of the People of Canada's Atlantic seaboard is none the less sincere and heartfelt; and our appreciation of the splendid action of the government and people of New Zealand in giving this noble ship is none the less genuine.

We point with pride to the fact that Halifax Harbor was once the rendezvous of the great fleets—nearly one hundred sail of the line being

## LAST CENSUS COST MILLION AND HALF

(Canadian Press)  
OTTAWA, Nov. 24.—It cost Canada nearly a million and a half dollars to take the last census. The extra staff has been laid off gradually and now only the permanents remain. The regular officers are employed in the preparation of statistical information in periods between census taking.

## COST OF LIVING AGAIN THREATENED

(Canadian Press)  
WASHINGTON, Nov. 24.—Another investigation into the high cost of living promising criminal prosecutions, if Attorney General McReynolds can find an alleged food storage conspiracy which, if got under way, would materially affect the cost of living, is threatened.

## CANADIAN POTATOES MAY BE BANNED

FRIDERICHTON, N. B., Nov. 24.—It is estimated that 60,000 barrels of potatoes have been shipped from this section to the American market since the new United States tariff went into effect. Many farmers are still holding on for higher prices. Shippers are now paying from \$1.15 to \$1.20 a barrel.

## FIERCE FIGHTING IN JUAREZ, MEX.

(Canadian Press)  
EL PASO, Nov. 24.—The federal artillery is now driving General Villa's forces back into Juarez. A desperate battle raged for an hour opposite Belen, Texas. The fighting started ten miles south of Juarez. West of Juarez another federal force is advancing. All the available rebel cavalry are being sent southeast to reinforce rebels there.

(Canadian Press)  
EL PASO, Nov. 24.—Wounded men from the battle opposite Belen, Texas, are crossing the border to the Texas side. One who reached El Paso said a general battle was raging southeast of Juarez. American troops at Fort Bliss are held in readiness to cross the border and additional troops are now moving to El Paso ready to reinforce. The battle appeared to be general and such artillery was being used. At 7 o'clock that he was holding the Federals in check in front of his position and had ordered arms and ammunition to Terra Blanca. An auxiliary hospital is being fitted up at Juarez as it is expected a large number are wounded.

EL PASO, Texas, Nov. 23.—The principal fighting that has featured the northward advance of the Federals took place Friday evening near Samalayuca, thirty-two miles south of Juarez, when a rebel scouting party of 100 men, under Rodolfo L. Fierro, moved to attack a party of federal soldiers who had detained there. According to Fierro, the Huertista troops had unloaded two cannons from the train which was the leading one in the group of eight which were carrying the federal soldiers northward.

"They turned their cannon upon us when we were several miles away," says Fierro, who accompanied Villa to Juarez this morning.

"We had no artillery, but kept moving toward them. My men were not mounted, but they did not hesitate a moment to go against the enemy, who outnumbered us greatly. Imagine our surprise when we got within a mile of the train to see the federals reload their artillery and back down the track. No member of my command was killed or wounded by the firing."

"I have placed my army in position twelve miles south of Juarez," said General Villa this morning.

"The extreme right wing rests at Baucha on the Mexican northwestern railway, twelve miles from Juarez. The extreme left is at Mesa, thirteen miles from here and on the Mexican Central railway. The front extends

## NO LIVE STOCK FROM BRITAIN

(Canadian Press)  
OTTAWA, Nov. 24.—That the Agricultural Department has put an embargo on cattle, sheep and swine imports from the Old Country owing to an outbreak of foot and mouth disease, is reported from England.

## FOREIGNERS ARE APPREHENSIVE

(Canadian Press)  
WASHINGTON, Nov. 24.—In spite of reassuring reports from the oil fields on the east coast of Mexico, foreigners in that section are still apprehensive, appeals to Washington indicating that they believe property and lives in danger. Renewed private requests for protection following closely upon a cablegram from Charge O'Shaughnessy at Mexico City, saying that it is rumored the United States ships are about to land marines, has caused Secretary Daniels to instruct Rear Admiral Fletcher, commanding the American fleet, to proceed to Tampico and Tuxpam to investigate conditions there. Washington denies the intention of landing marines and apparently has settled down to await the retirement of Huerta.

## DR. JOHNSON PRESIDENT OF A.A.U. OF CANADA

An honor which is in every way deserved has been paid to that great all round sportsman of Charlottetown, Dr. Harry D. Johnson, Health Officer of this city, in his election to the Presidency of the Amateur Athletic Union of Canada. Dr. Johnson, up to recently, for some years held the office of president of the Maritime Branch of the Association, and so is well qualified alone by his experience and knowledge of the Association's undertakings and business for the greater post to which he is now appointed.

The appointment was made at a meeting of the Association which has just been held in Montreal and which Dr. Johnson attended as the representative of this Province. He is expected to return to Charlottetown tomorrow night.

An exchange states as to the proceedings of the meeting:—

The Amateur Athletic Union of Canada on Saturday defeated a motion of the Dominion Football Association, asking for the rescinding of the motion, passed at last year's meeting, which prohibits amateurs and professionals appearing in joint competitions.

Following the announcement of the vote, President Tom Watson, of the D. A. A., announced the parting of the ways between his association and the parent body and the refusal of his association to make any further overtures for alliance. The question as to how the Montreal Amateur Athletic Association, whose constitution allows competitions with or against "pros" will remain in affiliation with the governing body when the same privilege is denied the D.F.A., was a much mooted one.

The discussion occupied fully three hours of an already stormy three hour session.

Another rupture was narrowly averted when A. E. Vert, of New Westminster, opposing the rules laid down by the Amateur Swimming Association regarding the amateur and professional definition, moved an amendment that the Swimming Association should not be received into an alliance on such terms.

This nearly precipitated the walking out of the swimming delegates in a body, but an agreement was reached between the east and west acceptable to both bodies. The result is that the swimmer's association remain in alliance and will be recognized solely as the governing body for swimming, water polo and diving, and as the sole arbiter in all disputes arising in connection with the sport it governs. In future only C. A. S. A. cards will be recognized in aquatic competitions.

Another difference regarding professionalism led to the Canadian Wheelmen's Association withdrawing from the union. The C. W. A. insisted upon the right to control professional cyclists and to place them upon the same program with amateurs.

The Olympic organization was placed upon a permanent basis, and will be known as the Canadian Olympic Association with J. G. Merriek at its head, and Dr. D. Bruce MacDonald as chairman of the athletic union committee.

The following officers were elected: President—Dr. H. D. Johnson, Charlottetown, P. E. I.  
1st Vice-President—J. G. Davidson, 1st Vancouver.  
2nd Vice-President—Thomas Boyd, Winnipeg.  
Treasurer—Dr. D. Bruce MacDonald.  
Secretary—Norton H. Crowe, Toronto.

Minard's Liniment Cures Garget in cows. Minard's Liniment Cures Distemper.

## OPENING OF NEW HALDIMAND BRIDGE

Yesterday will be a memorable day in the history of Egmont Bay and vicinity. It was the occasion of the opening to traffic of the new bridge across the Haldimand River. A special train with the Premier, the Hon. J. A. Matheson, the Commissioner of Public Works, Hon. James A. McNeill, Hon. A. E. Arsenault, Hon. Charles Daiton, Engineers McKay and Shaw, with others left Summerside on the arrival of the Express from Charlottetown. The party were taken up to Wellington station, where they left the train and in teams were driven to the work. On arrival at the bridge, where a very large crowd of residents of Egmont Bay and the surrounding country were gathered, the Commissioner of Public Works was presented with the following address, which was read by Mr. S. B. Gallant, of Agram's Village:—

Hon Sir:—

It is with a keen realization of the debt of gratitude which we owe you that we, the electors of Lot 15 and vicinity, are assembled here today to participate in the ceremony of the opening of a bridge which will shorten for a distance of twelve miles between these two points.

"Between 5,000 and 6,000 men, cavalry, infantry, and artillery, are camped along this line, which has been fortified with the cannons I took from the federals at Torreon and Juarez. The country in that section is hilly and admirably fitted for defense."

## TWO FATALITIES IN TORONTO

(Canadian Press)  
TORONTO, Nov. 24.—The body of James Brock, a Terra Cotta worker, who was killed by falling nine stories down an elevator shaft in the New Dominion Bank building this afternoon, had hardly been taken to the street when William Somerville, a stone cutter, was hit on the head by a falling brick, receiving injuries which probably will prove fatal.

## \$20,000,000 DEAL FOR MONTREAL

(Canadian Press)  
MONTREAL, Nov. 24.—An offer from the Canadian Auto-bus Company to the city was handed to the Council this afternoon. Briefly summarized it consists of an offer to equip and operate a sufficiently large railway system to take ample care of the congested district of the city, in return for a thirty year franchise, the city to receive one half the earnings of the system. The company provides plant, cars, power houses, lighting and all other details. The equipment is estimated to cost thirty three per cent of the total expenditure of \$20,000,000 for the project.

## SASKATCHEWAN HAS \$110,000,000 CROP

(Canadian Press)  
WINNIPEG, Man., Nov. 24.—The Government of Saskatchewan today announced that the grain crops will be valued at \$110,000,000, of which \$71,000,000 will be represented in wheat and \$25,000,000 in oats. The total production was 243,500,000 bushels, of which 112,369,000 was wheat, 110,210,000 bushels oats, and 20,931,000 barley.

## FIFTY REFUGEES FROM MONTEREY

(Canadian Press)  
NEW YORK, Nov. 24.—Fifty American refugees from Monterey and Vera Cruz reached New York today on board the steamer Sagrance. They tell tales of a reign of terror in that rebel-ridden section of Mexico.

James Doyle, of Monterey, tells a graphic story of escape with his eighty-three-year-old grandmother, Mrs. Mees, by armored train, the rebel bullets crashing against the sides of the cars. His house was raided during the fighting.

## INCREASE ASKED IN FREIGHT RATES

(Canadian Press)  
WASHINGTON, Nov. 24.—That railroad earnings are not commensurate with the increased cost of operation was submitted today to the Interstate Commerce Commission by representatives of railroads arguing for an increase in freight rates.

## MCGILL STUDENTS HAD A NIGHT OUT

(Canadian Press)  
MONTREAL, Nov. 24.—After two years disuse, McGill Theatre was resurrected tonight but came to an inglorious end when members of the Glad Eye Company, which a theatre of students attended, refused to go on with the performance. The students went back to Molson Hall where the Faculty had prepared a banquet but this broke up in disorder through fights between classes. Later the parties broke up into smaller knots celebrating all night on streets.
