TIME'S GARDEN.

By Isabel Ecclestone MacKay. Years are the seedlings which we carelessly sow In Time's bare garden. Dead they seem to be— Dead years! We sigh and cover them with mould, But though the vagrant wind blow hot, blow cold, No hint of life beneath the dust we see: Then comes the magic hour when we are old And lo! they stir and blossom wondrously.

Strange spectral blooms in spectral plots aglow! Here a great rose and here a ragged tare; And here pale, scentless blossoms without name, Robbed to enrich this poppy formed of flame.

Here springs some heart's-ease, scattered unaware; Here hawthorn-bloom, to show the way Love came; Here asphodel to image Love's despair!

When I am old and-master of the Spell To raise these garden ghosts of memory, My feet will turn aside from common ways, Where common flowers mark the common days,

To one green plot; and there I know will be Fairest of all (O perfect beyond praise)

The year you gave, Beloved, your rosemary! In The Canadian Magazine for October.

When the Liver Gets Torpid

There is Nothing Like Dr. Chase's Kidney-Liver Pills to Set it Right

Mrs. C. L. Cook, 248 Tenth Street, Brandon, Man., writes:—"I have used Dr. Chase's Kidney-Liver Pills for the last four years for liver trouble and can say that I have had great satisfaction and help from them. I find that I do not need any doctor if I use them when the liver gets torpid, and believe that they are exactly suited for my case. My husband has used them for kidney trouble with great results, and my daughter in Winnipeg has been helped a great deal by the use of these pills. We say we can't keep house without them, and have cheated the doctors here out of a great many visits. I think Dr. Chase's medicines are just the thing, and have recommended them to many people who have used them with good results."

By keeping the liver active and the bowels regular Dr. Chase's Kidney-Liver Pills prevent and cure such disorders as biliousness, constipation, chronic indigestion and headache. One pill a dose, 25c. a box, \$ for \$1.00; all dealers, or Edmundson, Bates & Co., Limited, Toronto.

KEEP YOUR WORD.

"Europe is in the Valley of the Shadow of Death because the German Emperor broke his word," says Arthur Mee in his "Little Paper." "Life is not worth living if men break their word. If we cannot be true to our word we can have no dealings with him. We buy a thing in a shop believing it to be what it is said to be; we take the shopman's word, and if he speaks the truth we buy from him again. If he sells us brass and tells us it is gold, we buy from him no more and his trade is ruined. Men cannot prosper on a broken word. "We could have no home to live in if men did not keep their word. We trust our neighbors. They declare themselves friendly and we believe them. We live side by side with hundreds of people who could rob us with impunity; they have given their word; and we believe them. We go to bed at night, because we believe that men will keep their word. "We could not travel if men did not keep their word. We go into a strange country and trust our lives and our money to people we have never seen before, perhaps to people whose language we do not understand. But here, also, runs the honorable understanding of men who keep their word. A strange man takes our bag, another takes our money, another carries an important letter. We go on our way because we trust them all. We take their word. "There is neither work nor wages for us if we break our word. We work for a week or a month on a promise that our wages will be paid. Men give us their labor, and we give them ours, because we believe in our word. We put our money into the bank, we leave our wretch at the wheel-maker's, we trust a man with an important piece of information, we risk our very lives, on the promise of a word. "A nation trusts its people, keeping police for those who break their word. And a nation trusts other nations, binding itself to do certain things so that there may be order and good government and understanding in the world. England, France and Germany gave their word to Belgium, and Belgium trusted them. Germany broke hers. But England will not lie. She is too proud to break her word. She is fighting against the broken word that would destroy our honor, our trade, our freedom, and the good things that is so dear throughout the world. "We must be true, or die; and we, who speak the tongue that Shakespeare spoke, must keep our word."

THE OLDEST SHIP

Said to be the oldest ship in the world in active service, the Copenhagen yacht Constance has been sold to a fisherman of Skaw, in Jutland, who will use the ancient craft in his trade. The Constance was built 193 years ago, and in her long life has sailed into almost every port in the world. Her timbers are still staunch, and her new owner declares he can see no reason why she should not sail the seas for a century to come.

TO CUT BIAS BANDS.

To cut bias bands, take a ruler, and with a piece of chalk for dark colors and a lead pencil for light, mark the bands on the material. Then carefully join the two ends of the cloth, so the chalk line exactly meet, having the first line on one end meet the second line on the other, thus forming a spiral. Stitch the seam on the machine; then, with a needle, put a few stitches each side of the chalk lines, to make the stitches secure. With scissors begin at the place where the first band extends beyond the second, and cut round and round following the chalk line, until the material is cut into one perfectly joined piece.

Always It is Thus

To buy her presents his cash was spent, And her words of thanks were sweeter than honey, But when he had squandered his last red cent She married a youth who saved his money.

Occupying a Trade Vacuum

THE withdrawal from the Canadian market of much merchandise that prior to the war came from Continental Europe left, as it were, a trade vacuum, and a vacuum is abhorrent alike to Nature and business.

The ceaseless effort on the part of business to expand itself has already led many a Canadian manufacturer to attempt to fill the void caused by the stoppage of imports from the countries at war.

The spinners and weavers of cotton are finding new and surprising uses for cotton as a substitute for jute. Manufacturers of electrical equipment are fast finding substitutes for materials and parts hitherto obtained from abroad. The growing of sugar beets and the making of beet sugar will be stimulated in Canada as a consequence of war. Yarns, hosiery, underwear, gloves, and garments for women and children, aforesaid imported, will now be produced in Canada. And so one could go on and on in illustrating the triumph of human energy and genius over disabilities and disorders.

Watch the advertising columns of the public press for proofs that Canadian manufacturers are making efforts to fill the trade vacuum.
