

ON TIES.

Man is rather restricted in his choice of ties, and therefore the slightest change in fashion is really a big change. I do not think (says "The Captain" in the Fall Mail Gazette) that black ties are so fashionable as they were a season or two ago. A black tie was convenient to have; it could be worn with a shirt and suit of any color. Most men at the present time, however, are wearing ties of plain dark colors, the idea being to have the tie of the same color as the shirt, but several shades darker. These ties are usually of fine silk or soft crepe de chine. The latter are good if they are not too flimsy. The newest ties—and here will come the change of fashion, I think—are of crepe de chine with very narrow stripes, of the same color as the rest of the tie, running diagonally across it. The bow tie is making its appearance again. Many men wear a bow tie with a very narrow double collar, and though the effect is neat enough, I cannot say that I like the two together. It seems to me that a knot tie is the only possible tie with a very narrow double collar. Still, the man who prefers a bow and wears one—tied by himself, of course—will sin in good company.

Medicine Taken Internally Cannot Cure Eczema. It is Caused by Germs. Eczema cannot be overcome by ordinary treatment and the old-fashioned way of dosing the system with drugs. Eczema is caused by a parasitic germ that bores into the skin. It is generally a contagious disease. Until the parasite is completely destroyed and removed, eczema cannot be cured. Fully one-third of skin diseases are in the form of eczema. We so thoroughly believe that REXALL Eczema Ointment will overcome all Eczema and allied skin ailments, that we unhesitatingly promise to promptly return the money paid us for it should it in any way be unsatisfactory to the user. Because of its remarkable cleansing, antiseptic, germicidal, soothing and healing influence, REXALL Eczema Ointment has a very pronounced value in the treatment of skin diseases, especially where the form of ailment is that of the chronic, aggravating sort. We highly recommend it for the dry scaly form or the weeping type, where there is a constant flow of ill-smelling excretion. REXALL Eczema Ointment is very prompt in relieving pimples, blotches, skin discolorations, ringworm, acne, nettle rash, tetter, hives, ulcers, insect bites, and for healing sores and wounds. It is a pleasant smelling, grayish-white ointment, and is very cleanly for use. Two sizes, 50c. and \$1.00. Sold only at our store—The Rexall Store, Mac-Two Macs. The Kinnon Drug Co. drfi.
