Cash Versus Credit

Since starting out on a cash basis, Trade has been growing day by day.

The public are coming to realize that a store selling for cash only, can give better values than the one doing a credit trade.

When you buy here you have no ones goods to pay for but your own.

When you buy at the credit stores you have to pay for the fellow who never pays.

McDonald's thronged when other stores are well nigh empty, means what? It is a current comment that McDonald's is one of the stores constantly crowded and that in view of the stirring scenes here daily is convicted t ooptimism.

We count it a flattering tribute to the fairness of McDonald's methods. guaranteering to undersell or money back if you want it.

CROP MOSR FAVORABLE

OTTAWA, July 14—The department of agriculture has arranged for the publication of a monthly bulletin giving an accurate and comprehensive report on crops and live stock of Canada a Summarised from information received from a special staff of correspondents, including practical farmers in every district of the Dominion.

Excepting in a few localities in the eastern provinces the seeding season opened early and fine growing weather has prevailed in the months of May and June. But in a country of such wide extent as Canada it was inevitable that a low rainfall would be reported for some parts. The high average per cent of standard condition, however, is proof of a rain fall fairly adequate.

Wheat is reported with a high average standard of 83 for all the provinces. It is 75 in Quebec and 81 in Ontario and New Brunswick, but in Alberta it is 93, in Saskatchewan 96, and in Manitoba 97. The increase of area in wheat over last year is 468,005 acres for Alberta, Saskatchewan and Manitoba, but in Ontario, Quebec and Prince Edward Island there is a decrease of 18,831 acres.

Oats show an increase of sea sown of 537,434 acres and a standard condition at the end of June of 99 Ontario-s increase is the largest for any province, being 175,951 acres, but for the three Northwest provinces the increase is 282,047 acres. The area for all the provinces is 7,942,943 acres, which is 1,429,978 acres more than wheat.

Mixed grains have fallen off in area by 20,621 acres, but they still occupy the large area of 583,225 acres.

Quebec has alone 133,225 acres, and Ontario 420,945 acres. The standard condition is 84.

The crops of hay and clover show a larger area than any other field crop in the Dominion. The extent of it is 8,209,562 acres, which is 483,227 acres more than last year. Ontario has 3,552,716 acres, Quebec 2,893,838 acres, and the Maritime Provinces 1,573,909. In the Northwest provinces the farmers depend largely on the native or prairie hay. The per cent of a standard condition for the Dominion is 86 and that of pasture is 99.

The average standard of condition of live stock is high for all kinds of live stock, in particular for horses and milch cows, and for each kind except swine there is an increase of number.

A MINISTER WHO KNOWS.

Rev. Mr. Blanchard, of Clairmount, knows what he said in stating the only sure cure for Hay Fever is Catarrhozone. "For two months of the year for ten years I suffered. Catarrhozone cured me so perfectly that the disease has not returned. Others in my parish I know have been permanently cured by Catarrhozone, which I strongly recommend for Hay Fever, Asthma and Bronchists. $1.00 at druggists.

BIG BELLS TO CHIME HIGH

NEW YORK, July 13—Another striking feature will be added to the odd sights and scenes of New York by the placing of a group of four large bells on the 46th story af the new tower of the Metropolitan Life Insurance Company's building in Madison square, according to an announcement today.

The bells will be placed naerly twice as high as any in the world, the makers say. The largest will weigh 7000 pounds and the smallest 1500, and are said to be the largest bells ever assembled in a group. They will strike the quarters of each hour in chime, and in the night may be heard at a great distance.

THUNDER STORM AT MONCTON

MONCTON, July 13.—During the Orange service in the First Baptist church yesterday afternoon lightning struck a tree two blocks away, but no further damage was reported. The electric storm was brief, being heavier to the north. A strong gale of wind accompanied the showers and branches were blown down from trees The schooner Boziel lying at F. P. Reid & Co's wharf was listed from the wharf by the gale and at Mark's carriage factory, Mechanic street, the double doors were blown in. The storm resembled a small tornado. A number of telehhones were burned out.

B G FIRE IN GRAND FORKS

GRAND FORKS, B. C., July 13—The worst fire in the history of the city was started early this morning supposedly in the Square hotel, which was vacant. Two blocks and a half were completely consumed and the approximate loss, which cannot be accurately ascertained at present, will reach nearly $300,000, with possibly 25 per cent insurance. Barnaby Mola, who was stopping in the Valhalla hotel, was killed, only his charred remains being found in the ruins. One other person, a miner named Buckman, is missing. Three hotels, the telephone exchange, C. P. R. telegraph and Dominion express office and the eastern Townships bank are among the buildings destroyed.
