Adriatic Controversy Is Still Acute

(Dom. Press Special.) ROME, May 29.—Settlement of the Adriatic controversy has apparently been indefinitely postponed owing to popular Italian opposition to the abandonment of Dalmatia and placing of either city or port of Fiume under the administration of the League of Nations. Premier Nitti today received a delegation of Dalmatians which submitted to him a memorandum covering their desires. A long and heated debate followed. Nitti informed the May of Sara, a member of the delegation, that the government would do everything in its power to protect the Italians on the Adriatic coast.

(Dom. Press Special.) NEW YORK, May 29.—Unless something is done by Congress to regulate the influx of Canadian newspaper and to encourage the manufacture of paper in America the industry will go entirely to Canada within the next ten years, said Phillip T. Dodge, President of the International Paper Company at a meeting of the executive committee of the United States Publishers Newspaper Conservation League to day members of the Midwest news print League and the Infant Daily Press Association representing about five hundred publishers.

Mr. R. G. Morton Accidentally Drowned

Mr. George D. DeBlois of this city received a telegram yesterday conveying the sad word that his brother-in-law, Mr. R. G. Morton of Halifax was accidentally drowned while fishing at Windsor on Saturday. The news was a terrible shock to the DeBlois family and their many friends in the city all of whom loved the deceased for his sterling character. Mr. and Mrs. Morton (formerly Miss Winnifred DeBlois) spent their holidays in Charlottetown last summer and were making preparations to come again this summer, a visit which their many friends were looking forward to with pleasure, but once more comes the reminder that "in the midst of life we are in death," and that while "man proposes God disposes." The telegram, which came from Mr. Weston Peake, gave no particulars of the sad affair. Mr. George D. DeBlois, a well known resident of this city, is the brother-in-law of Mr. Morton. Miss Gertie Nurse, leave this morning for Halifax to be with their sister who has been so suddenly and tragically bereaved and to whom the heart felt sympathy of relatives and friends will be extended.

Soviets Sent Curt Note to League

LONDON, May 28.—The recent communication, sent by Sir Eric Drummond, Secretary of the League of Nations, to the Russian Soviet Government expressing regret that the Moscow authorities had set up conditions tantamount to a refusal to permit an investigating committee of the League to visit Soviet Russia, has been answered by M. Tschitcherin, the Soviet Commissioner for Foreign Affairs, in a Moscow wireless despatch today. M. Tschitcherin stated in this despatch that the Soviet Government felt compelled to express its extreme astonishment to the character of the League of Nations which, while declaring that its object was the restoration of justice and peace had granted one of its members, Poland, "full freedom to violate the peace and strangle justice by trying to convert the Ukraine into a vassal state." The Commissioner declares that the other members of the League are affording Poland assistance, both directly and indirectly, and, at the same time, were giving help to the anti-Bolsheviks in the Crimea. "The military requirements for the safety of the Republic," adds M. Tschitcherin, makes it impossible, under these conditions, for the Soviet Government to take any other decision until the military situation created by the Polish advance has been altered to such extent that it will be unnecessary to take consideration of safety into account.

(Special to The Guardian.) PHILADELPHIA, May 28.—The Presbyterian Church today has severed its connection with the inter-church world movement. No Field Guns Being Made at Krupp

(Special to The Guardian.) BEELIN, May 29.—No field guns are being made at Krupp Works in Essen, Chancellor Muller declared today in reply to French charges that these pieces were being secretly made in violation of terms of the peace treaty. Muller said the making of this type of gun had been discontinued long ago. He added however that the question was largely a technical one as the treaty permitted the manufacture of some field guns. Sixty field guns were made for use by Reichswehr, Muller said, but these were ordered under an old contract without knowledge of the foreign office.

Sims in Rebutal of Sec'y Daniels

Italy Protests Against Settlement

(Special to The Guardian.) ROME, May 28.—At the conclusion of yesterday's cabinet meeting it was reported that the Italian Government would take a firm stand against the decisions reached at the Hythe conference where Italy would receive only ten billion marks out of hundred billion indemnity to be paid by Germany. The press characterizes this decision as another enormous injustice, especially in view of the fact that Italy is excluded from the partitions of German colonial holdings and coal and iron basins.

Sugar Sold for 36 Cents Pound by Ottawa Dealers

(Dom. Press Special.) OTTAWA, May 28.—The sale of sugar in an Ottawa grocery at 36 cents per pound will be investigated by the Board of Commerce through all its stages back to the shipment from the refinery. Gosnell and Durocher, the merchants who sold the sugar last Tuesday to a returned soldier named J. Gale testified before the Board this morning that they were informed by a wholesaler's traveller that sugar prices had advanced. They raised their price on stocks on hand from 22 cents to 30 cents and the sale at 36 cents which is complained of was afterwards adjusted through a refund to bring the price to 30 cents, the 36 cents price having been charged by mistake.

U. S. Factories Closing Down

(Dom. Press Special.) BOSTON, Mass., May 28.—Manufacturing plants throughout New England continued to close down today, according to reports received here from different cities. At Manchester, N. H., nearly all of the shoe plants have announced their intention of partly suspending operations. Various reasons have been given by company officials for the shutdowns. The chief reason appears to be, however, the uncertainty in shipments and drastic cuts in prices. Four woolen mills of the American Woolen Company shut down at Lawrence, Mass. Arlington mills, also, are closing down different departments and are running night shifts on four day weeks schedule. Lack of orders and poor business is the reason given, it is said.

ANOTHER REVOLUTION FEARED IN BERLIN

Officers and Soldiers Hold Daily Meetings Protesting Against a Return to Civil Life. Alarming Rumors Afloat.

(Special to The Guardian.) BERLIN, May 29.—A feeling of tense expectancy prevailed in Berlin today largely as a result of rumors carried by newspapers throughout the week that a military coup was imminent. Everywhere was more present in the city today than at any time since the Von Kapp revolution three months ago. The fact that large numbers of military units must be demobilized within a short time led many persons to give credence to the rumors of an uprising. Many meetings are being held daily by soldier organizations at which both officers and men in the ranks hotly protest against returning to civil life. With elections only a short time off officials were inclined to credit the somewhat vague reports of a coup. While Germany was generally orderly today only the far more will reveal whether the present nervousness is warranted.

LONDON, May 29.—"I shall take time to consider the report in all its details. I am going through it carefully with my lawyers. Truth will come out."
