The National Bureau of Breeding, in an effort to benefit the light horse industry in Prince Edward Island, has placed the thoroughbred bay stallion, Zipango, with Mr. C. B.

READY FOR AMERICAN HENLEY. PHILADELPHIA, Pa., May 30.—College, school and club members from many points are here in readiness for the eleventh annual regatta of the American Rowing Association, which takes place tomorrow over the Schuylkill River course.

The past week has been characterized by a keen demand for options with few offers of sale. It is the belief that quite a number of options are still being held by those who have expectations of realizing bigger prices and tempting offers have so far failed to dislodge them.

The directors of the Dalton Company who have recently returned from an inspection tour of that ranch, are well pleased with the increase in the health of the offspring. As this is the leading ranch it serves as an index to the general situation.

This Exchange has sold quite a number of pairs of Blue Foxes within the past week and we believe that the Blue Fox industry offers the investor good returns for his money, providing they had been adapted to their climate, which is the opinion of people who know as assured. Ranchers in Nova Scotia have been very successful in many cases raising litters of eight and ten, so that there should be no fear of failure here where the

There is quite a demand for cheap red foxes by parties who intend ranching them for the experience to be gained in caring for and feeding them. Some of the larger ranches have used them for experimental purposes, for the purpose of studying the diseases to which foxes are subject and applying medicines for their alleviation and cure, thereby gaining an experience which costs practically nothing.

Shares in companies, this past week, have been the most active since the Exchange started. We have filled a number of enquiries from abroad, and are in daily receipt of many letters from that source. The Island investors too, are keen to get into this money-making industry, which is shown by the quick disposal of a block of stock in the Model Fox Company. We have also handled a large number of shares in the other companies listed with us, and it is our belief that every available share now on the market will be taken up within the next sixty days.

Canada Fox Exchange, & Investment Co., Ltd, Charlottetown.

Another carload of furniture received at Paton's, consisting of Sideboards, Dressers, Commodes, Parlor tables, Bed-room tables, Kitchen tables, Extension tables, square or round. H. Gray & Co. 25 Common St. Montreal, P. E. I.

McCoubrey & Bulman. General Commission Merchants. Sydney, N. S. Consignments of farm produce solicited. Farmers having first-class dairy butter for sale should write a stating prices. -admitt&mpd.

JAMES D. FLOOD, In charge. Central Bedeque. 4-26M57.

Clay of Westport, Zipango was foaled in 1909 and was bred by George Ross, of Kentville. He is by Admontion, a son of the mighty Hanover, and his dam C. was by the imported English stallion, Thorpe. He is a well made horse, of great beauty and, on conformation and blood lines, is bound to get good results. In fact, he has already demonstrated his worth as a sire. Mr. Frank J. Robinson, Secretary of the National Bureau in Nova Scotia, says that the Zipango colts in that Province are first class. When racing, Zipango can go any distance on any sort of a track, and has to his credit victories over such famous horses as Prince of Hampton, Saint Valentine, Lord Lovat, Lily, Disobedient, Ocean Spray, Lally, Disobedient, Ziepan, Redmore and others. He ran a mile at Saratoga in 1907 in 1.39 4-5, and at the Ft. Erie track ran a mile and a quarter in 2.07 2-5. In this race he was bid up \$1,005 over his entry price of \$2,000 and retained by the owner. This meant a price of \$3,005.

The National Bureau counts conformation and breeding first, but when this is combined with the great racing record, it is regarded as a further proof of the endurance and energy of the horse. Other Bureau stallions will be sent to Prince Edward Island next year. There was a time when that Province was famous for its light horses and there is no reason why it should not regain that position.

PHILADELPHIA, Pa., May 30.—College, school and club members from many points are here in readiness for the eleventh annual regatta of the American Rowing Association, which takes place tomorrow over the Schuylkill River course. The program will include contests for first and second single sculls, first double scull, four-oared shells, first eight-oared shells, junior collect eight-oared shells, special interclub second eight-oared shells and intercollegiate eight-oared shells.

WEEKLY MARKET LETTER ON THE FOX SITUATION. The past week has been characterized by a keen demand for options with few offers of sale. It is the belief that quite a number of options are still being held by those who have expectations of realizing bigger prices and tempting offers have so far failed to dislodge them. It is, however, felt that with the desire for options to fill contracts in companies, the stock, of which has been taken up, the present price is a very opportune time to get in them, as it would clear up and give a healthier tone to the situation. Good options are somewhat scarce and there is quite a demand for some of the cheaper Silver Black options.

The reports from the ranches in the West, which are coming in, to this office are very favorable, and there is every prospect of large dividends being paid by nearly all the companies. When the full returns are given out in the next month and the foxes are on foot, there should be some pretty well pleased investors, as the returns will in almost every case be very lucrative.

The directors of the Dalton Company who have recently returned from an inspection tour of that ranch, are well pleased with the increase in the health of the offspring. As this is the leading ranch it serves as an index to the general situation.

This Exchange has sold quite a number of pairs of Blue Foxes within the past week and we believe that the Blue Fox industry offers the investor good returns for his money, providing they had been adapted to their climate, which is the opinion of people who know as assured.
