BACHELDER.—On Wednesday, January the 10th, 1918 to Mr. and Mrs. James Bachelder, Georgetown, a daughter.—4.

DEATHS

MacALEER.—Died in Rumford Falls Me., on 21st January. John MacAleer aged 27 years. Funeral today from his mothers residence, Royalty Junction to R. C. Cemetery, City.

COLOGNE

Appropos of the news item in yesterday's Guardian stating that "The Rhine is threatening Cologne," it is interesting to recall the verse by the late lamented S. T. Coleridge, entitled "Cologne" which is as follows and which shows that Cologne needs the cleansing:

COLOGNE.

In Köln, a town of monks and bones, And pavements fanged with murderous stones, And rags, and hags, and hideous wenches;

CASTORIA

For Infants and Children In Use For Over 30 Years Always bears the Signature of J. C. Heintz

CANADA PROVINCE OF PRINCE EDWARD ISLAND

In the Surrogate Court

IN THE MATTER OF THE ESTATE OF: Hannah Gordon late of Brudenell in King's County, single woman Intestate. To the Sheriff of the County of King's County or to any constable or literate person within the said County. GREETING: WHEREAS Stafford N. Gordon of Brudenell aforesaid Administrator of the estate of the said Hannah Gordon deceased hath by his Petition now on file prayed that all persons interested in the said Estate may appear and show cause if any they can why the accounts of the said estate should not be passed and why the said estate should not be closed.

SUBSCRIPTIONS TO HALIFAX RELIEF FUND

Table listing names and amounts for the Halifax Relief Fund, including Messrs. C. R. Harper, D. Wayne, W. O. Fyfe, etc.

HE TOLD HER

It was the first ball game she had ever attended. "Why do they call that thing the plate?" was her forty-seventh question.

At a service of thanksgiving at the Witley Parish Church on Sunday for the capture of Jerusalem the Vicar (the Rev. E. J. Newell), in his sermon, said that was the third occasion on which, within those walls, the people of the parish had rejoiced over the capture of the Holy City.

THIS LIFE

There is only one way to get ready for immortality, and that is to love this life and live it as bravely and cheerfully and faithfully as we can.—Van Dyke.

An engaged couple look at each other's faults with their eyes closed after marriage they use a magnifying glass.

Did anybody ever see a free lunch counter where a hungry man was permitted to eat as much as he wanted?

Synopsis of Canadian Northwest Land Regulations

"The sole head of a family of any male over eighteen years of age, who has homesteaded a quarter of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must be in person at the Dominion Lands Agency, or its Agency for the District. Entry by proxy is made at any Dominion Lands Agency in certain conditions. 1. Six months residence upon and cultivation of the land in each of three years. 2. Homesteader may live within nine miles of homestead on a farm of at least 80 acres, in certain conditions. A habitable house is required except where residence is performed in the vicinity. In certain districts a homesteader in good standing may pre-empt a quarter-section along the homestead. Price \$5.00 per acre. Duties Six months residence in each of three years after earning homestead patent; also 5 res extra cultivation. Pre-emption patent may be obtained as soon as homestead patent is certain conditions. A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$5.00 per acre. Duties six months residence in each of three years. The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Livestock may be substituted for cultivation under certain conditions. W. W. UORY, C.M.G., Deputy the Minister of the Interior. N.B.—Domesticated publication of this. Every settler must be told for.

CANADIAN SOLDIERS IN FRANCE HAVE CHRISTMAS DINNER AND GIVE CONCERT

By W. A. Willison, Staff Correspondent of the Canadian Press

Canadian Headquarters in France, Christmas Day, Dec. 25.—(By mail.)—Born out of a composite company that has since been split up into numerous companies, the Rambler Theatrical Group brought joy to the hearts of three hundred men at Canadian Headquarters this afternoon. Their theatre was a ramshackle building. There were holes in the roof. Sacking was employed for doors. There was no fire. The audience sitting on rough wooden benches faced a stage that contrasted with the rest of the interior. For it was draped with the flags of the Allies, a spotlight revealed it—a riot of color in the otherwise gloomy place—and a Y.M.C.A. piano stood in one corner, serving as an orchestra. Everyone was happy. The day was Christmas and the concert followed an excellent mid-day dinner, given to men of the Company, who had no mess of their own, and would otherwise have missed the good things of the season. They were good things. The menu included roast turkey, veal dressing, boiled ham, mashed potatoes, mashed turnips, Christmas pudding, brandy sauce, nuts and raisins, tea and coffee. The concert was as good as the dinner. The company was good. The audience large and enthusiastic. Here and there, too, could be found a mother or a father. The entente cordiale does not only find expression amongst statesmen. The Canadian buck private and the villager speak different tongues—or may be they mix French and English in a language that is surely cordiale though it may be unintelligible to the uninitiated. But whatever the tongue, the Canadian buck is considerate of those upon whom he is billeted and France has deemed it like him, the Polon's Own Brotherhood of Calvary Congregation Church. Mr. Hanna took occasion to express warm approval of the successful efforts towards increased production made by the province of Quebec in 1917 and the campaign under way in this province for a still greater effort in 1918. "You get certain news about the food shortage in Europe in the press," said the Food Controller, "but I want to tell you that back of the published news there are facts that you will agree with me would be unwise to publish at the time they are first imparted to us by the authorities overseas. They would cause a panicky sentiment to arise which would defeat

STARTLING STATEMENT BY FOOD CONTROLLER

Only Three Days Reserve Supply of Food in France.

MONTREAL, Jan. 20.—A startling statement made by Mr. Hanna tonight was that the civic population of France has only three days reserve supply of food at the present time and is absolutely dependent upon depleted British shipping, which cannot bring the supplies, Christmas from Argentina, although these supplies are bought, paid for and waiting shipment. Italy has to be supplied in the meantime by France. On the eve of the opening of the Food Controller's pledge card canvass of the householders of Montreal, Hon. W. J. Hanna made two addresses today, one to the congregation of St. James Methodist Church and the other to the Men's Own Brotherhood of Calvary Congregation Church. Mr. Hanna took occasion to express warm approval of the successful efforts towards increased production made by the province of Quebec in 1917 and the campaign under way in this province for a still greater effort in 1918. "You get certain news about the food shortage in Europe in the press," said the Food Controller, "but I want to tell you that back of the published news there are facts that you will agree with me would be unwise to publish at the time they are first imparted to us by the authorities overseas. They would cause a panicky sentiment to arise which would defeat

Always Had Headaches

Liver Was Torpid and Bilious Spells Brought Sick Headaches—Lost Much Time, But is Now Completely Cured.

Newton, N. B., Jan. 24.—Here is convincing evidence that however much you may suffer from liver trouble and consequent biliousness there is cure in the use of Dr. Chase's Kidney-Liver Pills. Overeating is the most common cause of sluggish liver action. You lose your appetite, have distressing bilious spells, usually accompanied by headache and vomiting, the bowels become irregular, constipation and looseness alternating, digestion is upset and you get irritable and downhearted. No treatment so quickly awakens the action of the liver and bowels as Dr. Chase's Kidney-Liver Pills. For this reason this medicine is wonderfully popular and has enormous sales. Mr. Charles R. Tait, Newton, N.B., writes: "I was nearly always troubled with headaches, and would often have to stop work for a day or two. I lost many a night's sleep every month with bilious sick headaches, and although I tried doctors' medicines and also many other patent medicines, it was without success. When I had these headaches I would vomit, and could keep nothing on my stomach. I purchased a box of Dr. Chase's Kidney-Liver Pills from G. M. Fairweather, Druggist, of Sussex, N. B., and after taking one box I was so much relieved that I continued to take them until I am now completely cured. My advice to any suffering from sick headaches is to try Dr. Chase's Kidney-Liver Pills and be completely cured." Mr. A. S. Mace, J.P., endorses the above statement, and says: "This is to certify that I am personally acquainted with Charles R. Tait, and believe his statement in every way to be true and correct." Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers or Edmanson, Bates & Co., Limited Toronto. Substitutes will only disappoint. Insist on getting what you ask for.

THE SYDNEY MURDER CASE.

SYDNEY, N. S. Jan. 21.—The preliminary examination of J. W. Greenwell, charged with killing Rainsford Weatherbee on Sunday evening, was concluded Saturday and the accused committed to stand trial before the February term of the Supreme Court. The evidence taken at the hearing did not differ materially from that submitted at the inquest, W. Clair being the principal witness. The court room was packed again with the morbidly curious and a few friends of the accused. Greenwell looks well and seems in better spirits than formerly. W. P. Carroll, who is conducting the case for the Crown, brought out several further bits of evidence that were important. Hugh Ross subjected each witness to a pretty stiff cross-examination and objected strenuously to the admission of any evidence of the finding of the revolver.

VATICAN PLACES BAN ON TANGO

ROME, Jan. 22.—A decree was published here today, signed by Cardinal de Lai, Secretary of the Consistorial Congregation, dated December 10, 1917, definitely prohibiting the so-called modern dances. This action does not cause the same sensation as was created when the ecclesiastical authorities first objected to these dances, as since Italy entered the war there has been no dancing there. The latest decision was caused by some American bishops, who ventured to propose that the modern dances be allowed under certain restrictions. The decree set forth that the prohibition of the tango, maxixe and other modern dances, are to be enforced inexorably, even if the dances take place in the day time or in the first hours of the evening for a short time, without being preceded by dinner.

SUBSTITUTES FOR WHEAT

OTTAWA, Jan. 21.—Since the new regulations came into force governing the sale of cereal packages there has been a decided curtailment in the use of wheat by cereal breakfast food manufacturers, and corn and other substitutes are taking its place among the popular breakfast foods.

The big manufacturers, the names of whose cereal products are household words in Canada, are showing their willingness to co-operate in the best saving asked for by the Food Controller by making conciliatory overtures which entail radical changes in their trade. As a result of the regulation requiring specific data from the manufacturer as to the cost of the container and advertising, definite information has been secured as to how much the public have been paying for the product and how much for wrappings. From now on they will be getting full value for their money as the most inexpensive of containers only are to be allowed. A number of licensees have already been granted. Several firms have decided to give up the sale of package goods during the period of the war and have made arrangements to sell their products in bulk. The majority of the licenses issued to date have been for breakfast foods and cereal preparations to be sold in packages ranging from three to seven or eight pounds. This is preferred by the Food Controller to small packages of a few ounces and, to meet his wishes, the manufacturers are inclined to push the sale of cereals in cheap packages and large quantities rather than in cartons. No licenses are being granted for the sale of flour in small packages—either grain, whole wheat or ordinary flour. A similar policy is being pursued in the United States and Mr. Hoover is pointing out to the millers that while it may seem a hardship to them in the meantime, yet it is a wartime necessity and they are doing it for the sake of the Allies and the men overseas. In some cases manufacturers are using a label on their product indicating that they are assisting the Food Controller by substituting other grains for wheat. In one case a manufacturer proposed to increase the size of the package he produces from 10 to 12 ounces without increasing the selling price. He also proposes to substitute 33 1/3 per cent corn for wheat. Another offers to substitute corn for the wheat which now constitutes 95 per cent of the composition of the cereal which he manufactures. In the case of one firm it was found that there had been an excessive "spread" between the cost of the new material and the selling price, in conformity with the regulations the manufacturer increased the weight of the packages by a quarter of a pound without increasing the selling price. It was further agreed to substitute 20 per cent corn for wheat. The grain to the consumer is illustrated in these instances, while the biggest factor of all is the saving of the wheat needed for overseas. Women lawyers are not numerous, yet almost every married man knows at least one woman who is capable of laying down the law to him.
