O'Leary And Vicinity

As considerable complaint is heard regarding the amount of "red tape" connected with the entry of a Canadian citizen in the United States, the following incident will prove of interest. Recently Mrs. Percy Crossman, who has spent the winter in West Cape and now purposes joining her husband in the United States, wished to secure the necessary passport. Accompanied by her little son, Laurence she took the 8.15 train from O'Leary to Charlottetown, visited the American Consulate, went to a studio and had the necessary photographs taken and developed, obtained a birth certificate at the Provincial Building, had this duly signed, secured the passport and returned to O'Leary on the 8.15 train the same evening. This incident proves that the criticism is unjustified for if one understands the requirements a passport may be secured with considerable expedition.

Mr. and Mrs. Heber Ellis who spent a most enjoyable winter at the Strathcona Hotel, Charlottetown, have now returned to their former home in Knutsford. Mr. Ellis who retired from active farming some time ago on the advice of his physician, is now much improved in health. His farm and fox ranch are now in charge of his son Charles, and Mr. and Mrs. Ellis purpose spending the coming summer in making a leisurely tour of our Island province.

Miss Eva Silliker, daughter of Mr. and Mrs. Watson Silliker, was recently presented by Mrs. Peacock with a life membership certificate in the Mission Band of the O'Leary Baptist Church.

Mr. Lee McWilliams, who was an employee of Turner & Co., until the destruction of their store by fire last winter, has now opened up a mercantile business in O'Leary. He has a well-stocked store and it is receiving a generous share of patronage. His friends wish him success in his enterprise.

Mr. James McDougall, O'Leary, who was incapacitated by a serious accident last fall, has now resumed work being engaged in renovating the home of Mr. Leslie Gay, Knutsford.

CRITIC OF LOVE ASSAILED Europeans are warmly discussing the declaration that love is a plague and therefore unscientific, made by Dr. Paul Voivenel, a prominent French physician, in his recent book "La Maladie de l'Amour." His statement that "romantic love is a disease that never afflicted the human race until modern times," is being challenged by those who point to the numerous famous lovers of ancient times. His further declaration that "poets exaggerated feminine love" until knights believed the opposite sex to be as advertised, also received the blasts of writers, artists and others who have been glorifying feminine charms.

Talkies have just invaded Estons Denmark's bicycle craze is growing. Wood bracelets are worn in Londodd, of Cherry Valley are glad to see her well again after her recent illness.
