MR. HARRY E. PORTER

There is being welcomed to the city this week Mr. Harry E. Porter, who formerly resided here but for the past 10 or 11 years has extended his experience and knowledge by travelling throughout the United States and Canada. Mr. Porter, is a musician and church worker—his favorite musical instrument being the violin. He comes here as Service Superintendent to Messrs. A. Horne and Company, agents for General Motors. Mr. Porter after one year with Messrs. Bruce Stewart and Company left to join General Motors in 1925, with whom he remained until 1932. He then travelled the United States as technical lecturer for two years, and was also in sales and service promotion activities. He joined the Chevrolet Corporation as Service Representative until May 1936, when he resigned to take up his appointment with Creighton and Smith Motors Limited in Fredericton, N. B. as technologist and Service Promotion Manager. He accepted an invitation to join Messrs. A. Horne and Company as Service Superintendent and they considered themselves very fortunate in securing Mr. Porter; whose knowledge and experience will be of infinite value to their customers. When it is understood that over 600 General Motor cars are used in the Province it will be readily appreciated that car owners will welcome Mr. Porter's advent.

STOCK QUOTATIONS

Morning Stock Letter

(Received over Pitfield and Co's Private Wire)

NEW YORK, Nov. 30—The week end brought nothing startling in the way of news. The London market this morning is firmer and we would look for a firm and active opening in New York. Composite opinion of 40 or 50 brokers questioned in the last week about three quarters are of the opinion that no large net gains will be seen from current levels before the end of the year. However, we are of the opinion, that if the rails show the ability to carry through at this time, a worth while advance will take place before the end of the year. We would look for firmer prices today in the steels, some of the building stocks and the utilities. Johns Manville is scheduled to meet for dividend action today. Sunshine is ex dividend 75 cents.

MONTREAL, Nov. 30—C. P. R. during October gross earnings expanded 0.4 per cent and net 3.8 per cent over same month a year ago. Ten months period revealed increase in gross of 7.5 per cent and 3.8 per cent over corresponding period of last year. Net for October was the highest since October 1931.

McKenzie Red Lake—Drift on 550 level is officially reported to be opening up high grade of ore, last 40 feet assaying $30 across full drift width. Mill capacity expected to be increased to 250 tons within a month from present daily rate of 150 tons.

MONTREAL, Nov. 30—Canadian Hydro Electric third quarter earned $1.66 per first pfd share, outstanding in contrast with $2.77 in second quarter, $3.07 in first quarter this year and $4.79 third quarter last year. Twelve month period to Sept. 30 earned $11.96 on first pfd, compared with $14.87 during 12 month period ending June 30, 1936, and $18.71 during 12 month period ending Sept. 30, 1935. The additional 20,00 H. P. from November 16 will increase earnings from $200,000 per annum.

They Live By
The INDUSTRIES of CANADA

For Instance, take Our Own Industry

The plants of the automobile manufacturers employ about 14,000 men and women engaged in the building of cars and trucks; an impressive figure, but merely the *start* of a chain of jobs.

The plants of the Parts Manufacturers employ many thousands more, and those engaged in the rubber, textile, paint, glass, chemical and steel industries add yet other thousands to the total, dependent in part or in whole, on the production of Canadian-built cars.

To this impressive total must also be added the employees of firms dealing in raw materials, food, clothing and other living necessities, and employees of the railways who live by traffic.

All these people are vitally interested in a sound and well-supported Canadian Automobile Industry.

For statistical and further information about this Industry, write to Automotive Industries, 1006 Lumsden Building, Toronto.

Jobs are vital to Canadian homes and families. No matter what the job may be; in a factory, office or store, in a mine or in the woods, on the farm or on the railway, it is affected, directly or indirectly, by the industries of Canada. Thriving industries mean more and better jobs all around: hampered industries mean fewer and poorer jobs.

Industry provides a home market for our natural resources; for the produce of the farm, the output of the mine, the cut of the forest and the catch of the fishing fleet. Each industrial unit buys the manufactured product of many other units. All buy raw materials from every domestic source. The employees of each of these units constitute groups of consumers whose mass purchases of food, clothing, housing and amusement, spread prosperity over industry and the country as a whole.

The interests of industry and of the individual, be he business man, mechanic, laborer, clerk, farmer, fisherman, miner, railroader or lumberman, are identical. What hurts one hurts the other. What helps one helps the other.

MINING

(C.P. by Guardian's Special Wire)

TORONTO, Nov. 30 — Heavy trading on a scaling up of prices marked the mining section of the Toronto exchange in the closing session of the month. The golds had a 3-4-point advance and the miscellaneous mines closed at the peak for recent years.

Golds, silvers and base metals shared the spotlight. Eldorado advanced and Aldermac led the coppers with a gain of 12. O'Brien pushed ahead to a new high at 13, up 1 1-4 for the day; Pickle Crow gained 45, Central Patricia 35, MacLeod-Cockshutt 60.

Scattered buoyancy in the cheaper gold group accounted for gains of 3 to 5 cents for Canadian Malartic, East Malartic, Francoeur and Preston. Teck Hughes added 10.

Noranda took a loss of a full point.

GIRLS SET CODE FOR FRIENDSHIP

VANCOUVER, Nov., 29—Four hundred delegates to the third annual conference of Vancouver Girls' Hi-Y association are wondering today whether Dean M. L. Bollert of the University of British Columbia was right when she told them girls did "too much chiselling nowadays."

In her address on "Boy and Girl Dates," Miss Bollert said the principle to be remembered in all boy and girl relationships was that friendship should lie behind all dates.

"Girls must set a standard for the course of friendship and the kind of dates," Miss Bollert said. "Although men lead in most places, social procedure and behaviour are regulated by the girls and morals of the community never rate higher than the morals of women in that community."

She said girls should always be fair in the matter of friendship chiseling and flirting and that there should be chivalry on both sides, not only on the side of the man.

Girls who want to make friends of men should make themselves as attractive as possible, learn to talk easily and know how to listen well.

ODD FAMILY NATAL DAY

VANCOUVER—October 22 is an important day in the life of Vancouver's Helliar family. Mrs. J. D. Helliar was born at Bristol, England, on that day. Her son, Cyril, was also born on that calendar date. This year Mrs. Cyril Helliar gave birth to a baby boy. He was born on Oct. 22.

REPEATS CONFIRMATION

MARSHALL, Sask.—Rt. Rev. W. T. Hallam, bishop of Saskatoon held two confirmation services in the same church here on the same night. Reason: Some young candidates had been delayed by muddy roads and could arrive in time for the early service.

EDMONTON — Both bride and groom have full ownership rights in a dowry, Mr. Justice [illegible] ruled in supreme court here. He supported the action of Annie [illegible], widow of Prokop Eliuk, farmer, against the attempt of her husband's parents to reclaim farm lands and chattels given to the couple before their marriage.
