

PRINCE EDWARD TO-DAY
GEORGE ARLISS
 Hero, statesman—husband and lover! Strong enough to master his opponents but human enough to err!
ALEXANDER HAMILTON
 MATINEE 3:15—16c, 37c. NIGHT 7 AND 8:45—26c, 42c, 52c.

CAPITOL Mat. 16c, 26c. Eve. 26c, 42c. **NOW PLAYING**
THE WISER SEX
 WITH CLAUDETTE COLBERT
 A Fast Action Tale of Intrigue and Love—Also NOVELTY REEL AND COMEDY
"HIS WEEK END"

George Arliss At The Prince Edward

Any new portrayal of George Arliss is an event of importance in the entertainment world, and each characterization is so flawless that it seems at the moment to be the best he has given. His Alexander Hamilton is in marked contrast to his other roles, for screen audiences have grown used to him as middle-aged or very old men. In "Alexander Hamilton" he is barely past his thirties, a man vigorous and as passionately eager for individual adventure as he always was for the common rights of humanity. It is with Hamilton, the man that the play dears, rather than with Hamilton the financial genius who established the credit of the young republic, wrote its Constitution and became its first Secretary of the Treasury. Great questions like the assumption of the Revolutionary War debt, the establishment of credit, and the choice of a site for the National Capitol were occupying the mind of Hamilton. At this moment, Reynolds, a malcontent bent on the ruin of the great statesman, sent to him his notorious wife with a plea for money, that she might return to her father, thus escaping the supposed cruelty of the crafty Mr. Reynolds.

Review Of P. E. I. Orphanage

There has been time when people were going about their work smiling and eager for the next day; when individuals, corporations and business houses satisfied with their measure of success looked into the future without fear. Were these the Good Old Days we hear so much about? Or are our present really seeing such dreadful times? Can it be that this, so called, Depression is but a condition of the mind and showing truth in the old quotation "Fear is more Pain than the Pain it Fears"? In our Orphanage we have little time to thing of depression, we are busy carrying on and endeavoring to be ready for the new day. The children are there depending on us and have no fear that tomorrow they will be hungry—and we will see to it that they are not. About 50 children are in the Home a very large number in the nursery need extra special care and a competent staff must be retained and we must bear the cost. There are several of these children who would be excellent company in any home where the prattle of a child is not known. Funds coming in these days are exceedingly small but we are very grateful to the following for recent amounts: Upton W. I. per Mrs. Taylor 2.00—Murray River Dist. per Mrs. Giddings 16.00 and Ringwood W. I. per Mrs. Mutch 5.00. It must be remembered that last Fall our usual collections fell off 35% and since that the drop has continued. A number of country sections did not collect in the fall and have not yet been heard from. The annual meeting of the Orphanage is to be held on Thursday June 23rd. The printed reports for 1931 are ready and all friends should get a copy. We hope to have a large number present at this meeting so that they may get new interest in the work and help by assuming their share of the burden. The Provincial Auxiliary meets the same day and the work they are doing is beyond praise. Our Finance Committee is in need of a cheering word and also something more tangible; theirs is not an enviable job in such times of stress. The Adoption Committee is striving to do all that is fair by the child and yet they are often most unfairly criticised. It is never safe to pass an opinion till all the facts are known. More children are seeking admission—less money is being received to care for them—What is to be the result? We believe, the Home will continue to care for these unfortunate little ones. There is something wrong in the individual who feels no sympathy for the helpless child, and whatever the parentage of those in our care, they themselves are blameless and a faithful few are endeavoring to care for them and fit them for the journey of life. These are difficult days but they are not improved by idle worrying over them—Never give up is the Secret of Glory—Our Faithful Few are struggling to win through for the Children and your sympathy and help will be very much appreciated; always remember that "In seeking the pleasure of others, we fill to the full our own measure." Here is a good opportunity to do good for its own sake; why not join up now, your welcome is assured and your assistance needed.

CHEESE EXPORTS INCREASE

Cheese exports from the port of Montreal to May 10 reached a total of 906,185 lbs. as compared with 653,820 lbs. for the corresponding period last year. Exports of cheese last year totalled 84,788,400 lbs., with the United Kingdom taking 80,565,500 lbs.

WINDOW BOXES

It is now time to think about the window boxes which can be set out after danger of frost is over. One must remember that a window box is simply a very intensive form of gardening, producing about ten times the amount of growth for the same area in the ordinary garden. On this account it is essential that the soil used in the box be very rich, containing plenty of fertilizer, and that it be kept damp by daily waterings. As they are exposed to the sun and wind on nearly all sides evaporation is very rapid, hence artificial moisture every day is imperative. Window boxes should be as long as the sill, about eight inches wide at the top, six at the bottom and at least seven inches deep, all inside measurements. Reinforce the corners on the inside with iron straps and make sure the box is strongly attached to the window-frame. It is usually stained green or brown, but may be painted to match the other woodwork. Holes must be made in the bottom and also a thin layer of broken crockery or clinders to provide drainage. If possible, put in a layer of well rotted manure before filling up with rich soil. Plant trailing vines such as nasturtiums and German Ivy along the front and also edging material, with geraniums and larger plants at the back. Protect from sun and wind with newspapers for a few days after material is transplanted to box.

GERMAN EXPERT DECRIES BEAUTY

NEW YORK, June 20.—(By The Canadian Press)—Can a woman be too beautiful to get into the movies? Carl Winston, recently returned from Berlin, where he was for years assistant to Erich Pommer, Germany's greatest film producer, seriously thinks so. "We are all too often, like a proper Dutch Uncle, taken in by her beauty of face, with nothing at all behind it," Mr. Winston said. "The Europeans choose their camera beauties with a different point of view from Americans—the camera point of view," he added. "A face that is expressive, plastic, capable of many variations, is more valuable than a face with perfect, finite beauty. The kind of face that would bowl you over if you met it on the street, is likely to be no good for anything but 'type' parts on the screen. "A woman who is a ravishing beauty on the screen, may be a good deal less in real life. Her eyes though beautiful, may be set too widely apart. Her mouth may be far from modelled perfection. Her jaw is likely to be square with a strong, bony outline. But with makeup and lighting, such a face is meat and drink to a camera. And the owners of such faces are not limited to one or two set roles

MARY GARDEN RETURNS

CLEVELAND, June 20.—Mary Garden—the "Mary, Mary, quite contrary" of grand opera fame—is coming out of retirement to sing her favorite "carmen" again. Miss Garden, who last year left the Chicago Civic Opera Company to "write a book and ride a mule" in Corsica, will be a headliner in Cleveland's second annual season of outdoor opera in the Municipal Stadium. The producers announced today she has already sailed and is scheduled to arrive in New York on June 31. She will head the cast for the presentation of "Carmen" which will open the summer season and will sing in the same opera and later.

COAL
 One Quality
 We deal in all grades and sizes, but in one quality—that is, the very best. That is why so many of our customers leave their coal needs entirely to us. They know our methods.

CENTRAL GUARDIAN

BAND CONCERT at Welcome Inn tonight. 3818-6-21-11.
KINDERGARTEN CLOSING Wednesday morning, June 22nd at 9.30. All interested in Kindergarten cordially invited. 3818-6-21-21.
MOTOR VISITORS—His Honor Judge Stewart and Mrs. Stewart, of Charlottetown, P. E. I., accompanied by Mr. Stewart Jones, of Moncton, motored to the city yesterday from Prince Edward Island and are spending the week-end with Mr. F. C. Jones at Shediac Cape.—Moncton Times.

BRILLIANT WORK—Miss Nan Shaw, daughter of Mr. and Mrs. D. R. H. Shaw, of this city has returned home from Halifax, where she has been a student in the conservatory of music. Miss Shaw was successful in winning teacher's certificates in piano and organ, a special prize for practical work in organ, the class prize in piano and two prizes in theory subjects.

SERVICE ENJOYED—The service and Mission Band program, conducted in Hamphing church on Sunday evening was listened to by a large gathering; the children carrying out their parts in a most pleasing manner. The address by Mrs. Mabel Newson, Charlottetown; and the solo beautifully rendered by Mrs. Lincoln Wood, Royalty was indeed an inspiration to all. A short talk by Mrs. Boothroyd was much enjoyed. Mr. Crews read the scripture and offered prayer.

Russia Keeps Suspicious Eye On The States

MOSCOW, June 20.—(A.P.)—A charge that "certain Imperialist circles in the United States" are encouraging Japan to make war against the Soviet Union was made Saturday by the newspaper Pravda, organ of the Communist party. Pravda said the United States effort that Japan would thereby weaken itself so that the United States could conquer "its enemy in the Pacific." It warned that such efforts should meet the resistance of the American working masses. Declaring that increasing differences between the United States and Japan are indicated by action of the United States in strengthening her naval bases in the Pacific, the Communist party organ added sarcastically: "But this does not prevent certain Imperialist circles in America from supplying arms and credits to its future rival. This policy of encouragement of a Russo-Japanese war has been carried on in connection with attempts to weaken Japan and thus allow American Imperialism to warm its hands."

MASCULINE WOMEN A MIS-TAKE

NEW YORK, June 20.—(By The Canadian Press)—Women make a big mistake when they try to be "different," when they substitute their own way for masculine traditions, in the belief of Judge Genevieve R. Cline, only woman federal jurist in the United States. Judge Cline holds that dignity and the respect of discriminating persons, are the most important assets of a woman in public life. "I don't approve of women in public life wearing masculine attire," she said. "Once a woman enters the court room, the business office, or wherever her job may be, in garb that resembles her brother, she handicaps and detracts from her success. I believe most women will agree with me. I know all men will." Judge Cline branded as "foolish" women who sought to affect a masculine appearance. "They may bring notoriety, but never influence; and women in high office should remember that their actions either pave or obstruct the way for the women who follow them."

Says There's Life On Mars

(Canadian Press)
 FLAGSTAFF, Ariz., June 20.—Earl C. Sipher, Lowell observatory scientist, pointed to the bleak appearing planet Mars today as the probable likeness of "the earth in the ages to come." Lowell observatory studies of Mars date back 25 years, when Dr. Percival Lowell first came to Arizona. His theories on the canals of Mars have been accepted in all but a few quarters, Sipher said, and is probably three fourths correct. The earth's oceans probably will gradually grow smaller, its desert spaces more expansive and in appearance of present-day Mars, he said. It would be impossible, Sipher believes, for free oxygen to exist on Mars without life of one type or another. The equatorial regions of Mars seem to be heavily covered with vegetation, which takes on a deeper blue-green shade as summer advances. "Inasmuch as water, air and warmth are found, it is logical to suppose life likewise exists," Sipher continued. "Vegetable matter is a constant source of oxygen and if there was no plant life the oxygen would long ago have been absorbed by rocks and soil."

BOER WAR NURSE DIES

STRATHMORE, Alta., June 20.—Mrs. Robert Barr, who was decorated by Queen Victoria for distinguished nursing service during the Boer War, is dead here in her 78th year. She had been ill for several weeks.

OPENING WITH BAND

Committed For Trial Charge With Slaying

LONDON, June 20 (A.P.)—Mrs. Elvira Dolores Barney, young society woman, was committed for trial Saturday on a charge of murdering Thomas William Scott Stephens, who was shot to death in her Mayfair apartment on May 31. She also was committed for trial on a charge of shooting at him on a previous occasion. She pleaded not guilty on both charges. At the arraignment Mrs. Barney collapsed when the prosecution read several letters she had written to Stephens and some that he had written to her. In the letter she professed her love for the young man, and asked him to think, when he was "feeling furious" of all she "had endured" with her former husband. The note ended "I won't let you down."

SPAN PROJECT IS INDORSED AT MT. STEWART

A largely attended public meeting was held in Mt. Stewart Hall on Saturday evening, June 18, for the purpose, being to approve of the proposal of the Provincial Government to place a span in Mt. Stewart bridge. Mr. George R. Clark was appointed Chairman and Mr. Keir Clark secretary. The attendance was large and enthusiastic. Among the speakers were Messrs. William Douglas, Thomas Smith, David Jay, John Feehan, F. J. Smith, Lewis Pigott and Ross Pigott. The speakers considered that the proposed span was fair to all concerned and that it would fulfill a long needed improvement to the Hillsboro river at Mt. Stewart. Mr. Ross Pigott stated that he was an owner of some valuable marsh land, and as well interested in the fishing industry. He did not consider that the proposed span in Mt. Stewart bridge would interfere with or ruin any marsh land, as was alleged in a resolution passed Friday at Cherry Hill. He thought that the new railroad dump and double abutment were sufficient to keep back the surplus water off the marshes. This view was generally concurred in.

WIFE WAS FAT—No Longer Attractive

The above headlines appeared in a New York newspaper, in connection with a divorce trial that has attracted wide attention. "She was a beautiful woman," one witness testified, "but she got too fat and is not attractive any more." Thousands of women are getting fat and losing their beauty just because they do not know what to do. If you are fat, why not do what thousands of women have done to get rid of pounds of unwanted fat? Take one half a teaspoon of Kruschen Salts in a glass of hot water every morning before breakfast, and keep it up for 30 days. You can help the action of Kruschen by cutting out pastry and fatty meats, and going light on potatoes, butter, cream and sugar. Then weigh yourself and see how many pounds you have lost. Now you can laugh at the people who pay hundreds of dollars to lose a few pounds of fat, and you will know that the 6 vitalizing salts of Kruschen have presented you with glorious health.

Strong Resolution Supported By Over 200 Signatures, Urges Government To Carry on Project.

The following petition was drawn up and it was carried unanimously, copies to be forwarded to the Provincial Government, the Press of Charlottetown and also a copy accompanied by a letter to Mr. S. T. Gallant, Inspector of Fisheries, asking him to protect the interests of the fishermen: "We the undersigned people of Mount Stewart and vicinity support the move made recently by the Provincial Government regarding a span in Mount Stewart bridge and protest against a move made at Cherry Hill objecting to the proposed span. "We consider a new span of vital importance because: 1. The present abutment is a serious menace to the fishing industry. It has caused the channel west of Mt. Stewart bridge to fill in and as a result we believe that thousands of dollars are lost each year by our fishermen. 2. The present abutment, we believe has caused much stagnant water and has created a very favorable breeding ground for mosquitoes. "We consider the Marsh-holder's protest unfair and uncalled for because their property is now protected by the Railroad Dump and double abutment which was previously an open span. "Be it therefore, resolved that we strongly approve of the proposed span and ask our Government to continue the project. (Signed) George R. Clark, Frank Feehan (marsh holder), Thomas Smith, Bruce McCormick, J. A. McDonald, E. P. Clark, James J. McIntyre, John Feehan, David Jay, W. W. Glover, Frank Jay, Frank Griffin, Maurice Griffin, James Lunn, William Griffin, Reginald McDonald, Earl Barrum, David Egan, Earnest Affleck, Peter Walsh, John Trainor, Johnathon Affleck, Arthurs Cook, Earnest McEachern, W. Martin, Percy Affleck, Francis Affleck, May Affleck, Marian McDonald, Annie McDonald, Mrs. J. C. McDonald,

Strong Resolution Supported By Over 200 Signatures, Urges Government To Carry on Project.

The following petition was drawn up and it was carried unanimously, copies to be forwarded to the Provincial Government, the Press of Charlottetown and also a copy accompanied by a letter to Mr. S. T. Gallant, Inspector of Fisheries, asking him to protect the interests of the fishermen: "We the undersigned people of Mount Stewart and vicinity support the move made recently by the Provincial Government regarding a span in Mount Stewart bridge and protest against a move made at Cherry Hill objecting to the proposed span. "We consider a new span of vital importance because: 1. The present abutment is a serious menace to the fishing industry. It has caused the channel west of Mt. Stewart bridge to fill in and as a result we believe that thousands of dollars are lost each year by our fishermen. 2. The present abutment, we believe has caused much stagnant water and has created a very favorable breeding ground for mosquitoes. "We consider the Marsh-holder's protest unfair and uncalled for because their property is now protected by the Railroad Dump and double abutment which was previously an open span. "Be it therefore, resolved that we strongly approve of the proposed span and ask our Government to continue the project. (Signed) George R. Clark, Frank Feehan (marsh holder), Thomas Smith, Bruce McCormick, J. A. McDonald, E. P. Clark, James J. McIntyre, John Feehan, David Jay, W. W.
