CHINA YIELDING IN MANCHURIA BUT SHE WILL NOT ADMIT

The English Papers Welcome the Aid of the United States to England and Japan Against the Designs of Russia in Manchuria

UNITED STATES COMMENDED.

LONDON, May 9.—(Special).—The daily papers warmly welcome the prospect of the United States participation in the joint action with Great Britain and Japan against the designs of Russia in Manchuria.

COMPULSION TO RETREAT.

They believe that such concerted action would induce Russia to beat a prudent retreat.

CHINA IS YIELDING.

A despatch from Peking says the situation as regards Manchuria is not improving. China is already yielding as she is afraid to open new treaty ports and has

instructed her treaty commissioners not to discuss the proposed openings with the American commissioner.

CHINA IN POWER OF RUSSIA.

Her reason is because Russia forbids, but to American and other ministers interested, continues the correspondent, China protests that she never intended to open new ports, and that her action now has not been influenced by the Russian menaces.

MCLEOD RAPIDLY IMPROVING.

LONDON, May 9.—(Special).—Angus B. McLeod, the McGill student, and a native of Prince Edward Island, who was shot, is much better and was out walking today.

STEEL SHARES LIVELY.

BERLIN, May 6.—There was lively dealing on the bourse today in shares of the steel companies, owing to information that American orders for 25,000 tons have just been placed.

A Good Deacon

Went Out West

Visiting, and while he was there another man of the same name died in the town where the deacon was stopping. On the deacon's return home he was much surprised to find his own obituary in the local papers. The obituary notices were very complimentary but this seemed only to annoy the deacon who said to his wife: "Consarn it, only just see the pesky reputation that I've got to live up to." But it does not annoy us as the deacon was annoyed, as we shall maintain this reputation in season and out of season for the most reliable, reasonable, stylish and satisfactorily made shoes on this planet. We are sole agents for that particular shoe INVICTUS.

ANNOUNCEMENTS

BATTLE WITH PAGANS.
LONDON, May 6.—News has just been received, says Ruter, that fighting has taken place between the British and the natives in Southern Borneo, in the district around Lake Chad.

ANNOUNCEMENTS.

—Thankfully received at Falconwood two large parcels magazines from Mrs. (Dr.) Warburton.

—For a particularly choice tea try a 50c or 60c package of Red Rose.

Frost Bites, Chills, Corns, Bunions, Sore and Tender Feet. Promptly cured by using Kendrick Liniment. Bathe the feet well in warm water, dry and use Kendrick's Liniment. There is nothing like it for Sore Lungs, Sore Throat and inflammation of the Stomach.

—A boy with some experience in the printing business can obtain permanent employment at this office.

—The annual business meeting of the 4th Regiment Rifle Association will be held in the Secretary's office this evening at 8 p. m.

—There will be a mothers' meeting in the W. C. T. U. parlour on Monday at 7 p. m. We hope to see a large number present as there will only be one more meeting before closing for the summer. All are cordially welcome.

—Amateur photographers.—Just received from New York a full line of the latest Anso film cartridges, all sizes, suitable for all makes of camera. —Palma leaves town this week. Have you seen him? His record while here should commend him to you. Do not miss this last chance. His hours at his rooms in W. C. T. U. building on Grafton St. are from 9 a. m. to 10 p. m. Try and know more about yourself one cannot know too much about his resources nowadays while battling against the heavy odds of life.

—"The Crook and Plaid," "The Flowers of the Forest," "Sawye Johnnie" and "My heart is sair for somebody," may be cited as excellent examples of well rendered folk-song. The Highland melodies were represented by two songs in which Miss Murray accompanied herself on the Celtic harp. On the whole, lovers of Scottish music may congratulate themselves that they have in the North American continent enthusiasts like Miss Murray, bent on carrying on a national tradition which in the rush of modern music it is not easy to preserve. "The Scotsman," Edinburgh, Friday, October 10, 1902. Opera House May 15th. Prices 25, 35 and 50 cents.

THOUSANDS OUT OF EMPLOYMENT

As the Result of a Big Lock-out in New York

All the Building Trades United in the Gigantic War for the Complete Extermination of the Laborers.

HUNDRED THOUSAND MEN OUT.

NEW YORK, May 9.—(Special).—One hundred thousand men are certain to be thrown out of employment by a lock-out completed on Thursday by the dealers in lumber and building materials and brick manufacturers of New York.

ALL THE YARDS AFFECTED.

All the yards controlled by the organization of these trades and seven hundred and fifty handlers of building material are affected.

ALL BUILDING TO BE STOPPED.

All building will be stopped and the entire strength of the United Board of the building trades will be pitted against the employees in the war of extermination.

UNIONS CONTROL NEARLY ALL MEN.

The Unions control of nearly all the men, but few employers are not at all united. A dozen more of the big concerns have granted the demands of the men.

THE CAUSE OF THE TROUBLE.

The whole trouble hinges on the recognition of the Drivers' Union.

ALL NEWS OF LOCAL INTEREST

P. Rite. Miss Ada G. McDonald, Miss Janet Smith, teachers at Dundas, came to the city Saturday to spend a few days of their vacation.

CONSIDERABLE interest has been aroused over the proposed change in the school readers of Nova Scotia. It is understood that a leading Toronto publisher has offered to supply the entire series of new reading books free to the Government for every child in Nova Scotia. This would mean an enormous saving of money to the people of the province.

FOUR more arrests were made here today in connection with the burglary of M. W. Ross' tailoring establishment two weeks ago, and it looks as if a half dozen young men would take a trip to Dorchester if the charges against them are maintained. However, who was arrested at Truro, on Wednesday, and brought here last night, implicating four others who received stolen goods, who were arrested. A local hotel keeper is charged with perjury besides receiving stolen goods. Another man arrested had three suits of clothes made out of stolen cloth, which he sent to Charlottetown to have done up.—Sydney Post.

The Guardian has received the April number of the Prince Edward Magazine which is probably the best number both mechanically and from a literary standpoint that has yet been issued by the enterprising publisher of that popular Island magazine. The cover is gotten up in green with gilt trimming and creates the favorable impression that is sustained and increased as one dips deeper into the contents. Among the illustrations are: The crossing at the cape, The winter steamers, Hon. Daniel Gordon and other persons of interest. The many excellent articles include one on Colonial Postage Stamps with illustrations from the gifted pen of W. S. Louson, Winter Navigation, and others from such well known writers as J. S. Clark, B. A., J. E. Rendle, Jas. D. Lawson, B. F. Messervey, L. P. Taitton and W. Rogers. The magazine throughout is worthy of the perusal of every P. E. Islander and it is safe to say that all will agree that it is most creditable to our Province.

THE SKIN ON FIRE.

So dreadful are the sensations of burning, itching, itching, that victims frequently describe their sufferings by saying "that the skin is all on fire." The stinging, biting, itching, of eczema are quelled by the use of Dr. Chase's Ointment. The first few applications may cause a little smarting, but cure is sure to result and the skin is healed without scar or blemish.

BRITISH SHIPPING FEDERATION SENDS 700 MORE LABORERS TO MONTREAL.

Foot and Mouth Disease in Argentine Cattle Likely to Help Canada—Times Favors Reconsidering Repeal of the Corn Tax.

MONTREAL, May 7.—A special London cable says: "The Shipping Federation has dispatched a second steamer with 700 laborers on board, bound for Montreal. It will arrive about May 12.

"The principal papers here, received at noon today, contain an anonymous despatch, urging them to immediately publish a warning to the people of the realm not to go to Canada, alleging that there is a congestion in the labor market there, with the exception of agricultural employment, and that processes of unemployed laborers are to be seen in every large town. The editors smelt a rat and treated the despatch as a code gotten up by the strikers in Canada. Up to the hour of cabling the despatch had not a peep in any of the papers.

"Sir John Wolfe Barry, chairman of the Eastern Extension Telegraph Company, presided at the annual meeting yesterday. In the course of an address he said that the new Pacific cable is now about 25 per cent of their business, but the Commonwealth government would not make the Pacific cable a monopoly in Australasia, although Canada urged that course. He also said that there was no likelihood of wireless telegraphy competing with cable lines in long distance business.

"P. B. Ball, the Canadian trade agent in the Midlands, says there are a great many people in that part of England who want to establish business relations in Canada. He is well satisfied with the progress of his work, from which Canada is certain to benefit.

"Sir Gilbert Parker will preside at the inaugural dinner of the Canadian Club tonight. During the evening a presentation of a silver vase will be made to J. G. Colmer, and a bracelet to Mrs. Colmer.

E. Tiffin, Montreal general traffic manager of the I. C. R., has been granted three months' leave of absence on account of ill-health and will leave shortly for California.

A MEETING of the Local Council of Women was held in the parlour of the Y. M. C. A. on Saturday afternoon. The subjects under discussion at this meeting were the proper furnishing of houses after cases of tuberculosis, the honorable order of domestic service and the limitation question. In regard to the latter it was left to the delegates to vote as they thought best after hearing the matter thoroughly discussed in Toronto. A resolution was unanimously adopted recommending the use of a patrol wagon by the police, and the Secretary was ordered to forward the resolution to the City Council. The delegates to Toronto will leave on Monday morning, May 18.

CONSIDERABLE excitement was created at Victoria Park yesterday afternoon about four o'clock by a runaway horse which succeeded, before he was captured in demolishing the carriage to which he was attached and breaking another wagon with which he collided. The horse was owned by Vincent Blake and took fright near the keeper's house. Throwing out the driver he careered through the Park narrowly avoiding pedestrians till he reached the southwest end of the footfall around where wagon came in contact with a carriage occupied by Mrs. T. White and child. The wagon to which the runaway horse was attached was upturned and irragged to the Brighton entrance to the Park where the animal was captured. The horse, which was a young one was not injured, but the wagon was badly smashed. The buggy driven by Mrs. White had the shafts broken, but the occupants were not hurt.

Hon. Clifford Sifton will attend and will reply to one of the toasts. "The Times to day contains a editorial endorsing the agitation against the repeal of the corn tax. It states that it is not too late for the government to retract the false step. Such a step would be unpleasant, but it was always unpleasant to confess a blunder. The fact is that the struggle for and against the repeal is between the town and country. The urban localities, which contain so many consumers, will win. The English artisan is an extreme free trader.

"The Provincial News grows merry today over Lord Stratheon's reminder to the departing emigrants that they are not going to a foreign country, but only to another part of Britain. The News says: 'This frankly is less majestic against the Kaiser Wilhelm, for has not the German government declared it unattainable language that Canada is not to be regarded in any sense as a part of Britain. She is not Canada which brought by its act on this imperial German decree, really Lord Stratheon should restrain himself. Who knows what new reprisal Germany may be compelled to make in order to teach us our place.'

"Canadian shipping circles are greatly interested in today's news that an Argentine steamer has arrived at Cape Town from Buenos Ayres with the foot and mouth disease rampant on board. Some 2,000 sheep and 250 cattle are affected. As a consequence, African ports are expected to be closed to Argentine stock. Also, Argentine wool will likely be removed from the position of quality that country now enjoys with Canada, in the British ports. Any such prohibition will lead to increase Canada's cattle trade.

"To say a pleasant word to anyone was almost impossible."

"I was troubled with female weakness for eight years, and suffered more than I can tell," writes Mrs. Guss, Moser of Ontario. Dear Dr. Pierce, my disposition was affected to such an extent that to say a pleasant word to anyone was almost impossible.

"I had two operations performed by one of the most skilled surgeons of the West, but did not get relief. Then, against my doctor's strict orders, I commenced taking Dr. Pierce's Favorite Prescription and Golden Medical Discovery, and also followed the advice given in the Common Sense Medical Adviser.

"I continued this treatment for three months, and to-day am as healthy and well as a woman can be. I cannot thank Doctor Pierce enough for his kind letters to me."

Womanly diseases, as a rule, spoil the "disposition," because of the extreme nervousness and suffering they cause. Happiness as well as health is restored to the woman whose diseased condition is cured by the use of Dr. Pierce's Favorite Prescription.

After eight years of suffering and two fruitless operations, three months' use of "Favorite Prescription" restored Mrs. Moser to perfect health. This great remedy for woman's ills, establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

The Common Sense Medical Adviser, 1008 pages, in paper covers, is sent free on receipt of 31 one-cent stamps to pay expense of postage and mailing only.
