I suffered greatly for several days and the tooth cuts refused to heal until your agent gave me a bottle of MINARD'S LINIMENT, which I began using. ROY, Carriage Maker, St. Antoine, P. Q.

**TAYLOR'S SILVER BLACK FOX CO., LIMITED.**

Amongst the Silver Black Fox Companies which have been established lately is the Taylor's Silver Black Fox Company, Limited with a capital of \$180,000.

The success of Mr. R. A. Taylor with the Smith Silver Black Fox Company has encouraged the officials to place on the market another company which it is thought will have as good a record as the Smith Company.

A few weeks ago the Smith Company declared a dividend of 40 per cent., and has since the ranch started a few years ago made handsome fortunes for its owners, Messrs Smith, Carruther and Taylor.

The special feature of the Taylor's Company is the guarantee of an increase of not less than ten young foxes to be raised until September, 1914. This means that whatever happens the shareholders are ensured at the present market price, a dividend of more than 40 per cent. According to the average litters the dividend will be greater than this, as the seven pairs of foxes which from the stock of the Company are of the best strains of the Island and should make a very good showing next season.

It will thus be seen by the intending investor that the guarantee which goes with this Company is worth a great deal more than a straight money guarantee, the shareholders being placed in a position to get the benefit of the increasing prices for foxes, which according to the most expert opinion will inevitably take place within the next few months. 866-8-14MEll
