### The Jack Miner League

A very representative meeting of the Jack Miner League was held in the Cross Roads School on Monday, April 1st, with the President, Ludlow Jenkins of Marsfield in the chair. This league, although only organized about one year has done much good work. It is a branch of the Jack Miner League of Canada. This league is composed of a body of men and women many of whom are keen sportsmen, but realizing the awful decrease of our game birds during the past number of years, have decided that nothing short of a real system of conservation can save them from utter annihilation.

So great has been the destruction by live decoys, sink boxes, baiting automobiles, automatic and pump-guns, droust, and many other causes our birds, both game and non-game have reached a point where their fate now hangs in the balance, and as matters stand today for many species their fate is sealed, even at the door. The first item dealt with at the meeting was that the League express our gratitude and appreciation to our honorary president, Mr. Blythe Hurst of Brackley Point for his valuable assistance and untiring efforts to promote the welfare of the League, also that we express our gratitude to Mr. R. W. Tufts of Wolfville, Nova Scotia, for the lectures given during the past year and for the fact that he has consented to again lecture for us this coming season. Also that we express our appreciation to the Guardian, Patriot and Summerside papers, who, so very kindly gave those lectures publicity, also that we extend thanks to Mrs. C. N. Edge, chairman of the Emergency Conservation Committee of the U. S., for valuable help and wish to place ourselves on record as being heartily in sympathy with the aims and aspirations of that committee.

The next matter was a discussion on hawks and owls. A vote was taken that we ask the Federal Government that all beneficial hawks and owls be placed on the protected list. The matter of the bald-headed eagle was next brought up. To many of our people it may not be generally known, that at least one to three pair visit P. E. Island at least one

paired nesting here, and whereas during the past season the nest has been destroyed and the parent birds shot or trapped we feel that we might at least save the remaining pair or pairs by asking that they be placed on the protected list along with our beneficial hawks and owls. Our United States friends are making every effort to protect the eagle in their country realizing as it is their national emblem, it should not be destroyed. The bald-headed eagle lives mainly on coarse fish and carrion and therefore does very little damage, if any. We therefore place ourselves on record as being willing to cooperate with them in trying to save such a grand and noble bird.

The next matter brought up was the question of a closed season on geese and brant, and it was passed unanimously that we ask the federal government for a closed season on both geese and brant for the season of 1935 at least. In regard to Mr. Tufts' lectures during the coming summer the committee reported their plans are as yet incomplete, but that he will at least speak in P. W. C. Hall, Charlottetown, under the auspices of the Young Peoples Society of St. James Church, also at Kensington as soon as plans are completed. They will be published in full, preference will have to be given to centres which he has not visited previously. A vote was passed that we express ourselves as heartily in sympathy with their efforts to prepare lectures for the public schools.

The suggestion was made at this meeting that the general public be asked to plant at least one tree to commemorate our King's Silver Jubilee. The matter of a sanctuary was then taken up. This is one of the most important features of the Jack Miner League. A vote was passed that we ask the federal government that the Experimental Station at Charlottetown be proclaimed a sanctuary in the same manner as the Central Experimental Farm at Ottawa. The question of setting aside some marsh land areas as game sanctuaries was discussed such as Fullerton's Marsh also marsh at Glenfinnan. Those two marshes as game refuges with the large marsh at Johnston's River between open for shooting should make ideal conditions both for game and sportsmen. Mr. Alban MacDonald of Glenfinnan was present and was very enthusiastic

as to procuring a small area as a game sanctuary at Glenfinnan. He together with Mr. Daniel MacDonald agreed to take the matter up in that section. A committee consisting of J. Walker Jones, Parkman Jenkins and W. E. MacCallum was appointed to look into the matter of securing a sanctuary at Fullerton's Marsh. It may here be explained to the public that it is not the intention of the Jack Miner League to advocate the closing of too much shooting grounds in any one district, but only small areas at convenient places. Our next meeting will be the annual one which will be held at some convenient centre.

### TORTOISE SHELL WEDDING GIFTS FOR ROYAL COUPLE

NASSAU, Bahamas, April 3.—Carrying with them tortoise shell wedding gifts presented at Government House Saturday on behalf of the people of the Bahamas, the Duke and Duchess of Kent set sail for home Sunday. The Duchess presented a tortoise shell with the initials "M." surmounted by a crown, embossed in gold on each piece. The Duke was given a silver cigarette box with a tortoise shell top.

The Government House reception and presentation came at the conclusion of a week filled with many engagements for the royal honeymooners. Early in the week they were guests of William B. Leeds of New York aboard his yacht "Moana" which took them to the Cat Cay home of Louis R. Wassy, New York sportsman. In nearby waters they lunched with President Franklin Roosevelt aboard Vincent Astor's yacht Nourmahal and, like the Duke and Duchess—during West Indian honeymoon at an end—"bon voyage." The wharf from where they departed was so named to

### IN MEMORIAM

MR. ADAM GLOVER

There passed peacefully away at his home in Spring Valley on Thursday, February 28th, 1888, Mr. Adam Glover, son of James Glover and Ann McDougall, at the advanced age of eighty years. He was born in Norboro, and in his boyhood moved to Darnley, where he learned the trade of a blacksmith and practiced it for several years. He then moved to Spring Valley where he had purchased a farm and lived there until his death.

He was quite active until two weeks before his death, during his last illness he edified all by his Christian patience and resignation and showed the same admirable qualities which had made him beloved during his life. He was visited by his pastor, Rev. R. F. McDonald who administered to him the last rites of the Catholic Church of which he was a devout member.

There are left to mourn two sons and five daughters namely: Robert and James at Spring Valley; Loveta, Sr. Meda, White Bear Lake, May, Mrs. Emmet McInliffe, Henry, Mrs. John Kell, and Margaret, Mrs. Heshel DuBois, all married and residing in the United States; Mrs. Annie Shields, Spring Valley; two brothers, William in California and George in Norboro and two sisters, Mrs. J. P. Grant and Mrs. Annie Moulton, Lewiston, Me., and twenty-two grandchildren. Sympathy is extended.

The funeral was held to St. Mary's Church, Indian River, on Saturday March 2.

The Rev. High Mass was celebrated by Rev. R. F. McDonald, P. P. who also conducted the services at the grave.

The pall bearers were: Messrs. Ira Champion, Hiram Harrington, Charles McLellan, John Hickey, Albert Cornick, and Joseph Cornick. R. I. P. (Summeride Papers Please Copy)

commemorate the Duke's visit here in 1928.

### Verbal Clashes In N. S. House

(C. F. By Guardian's Special Wire)

HALIFAX, April 3.—A series of rapid-fire verbal clashes developed in the Nova Scotia Legislature today as Percy C. Black, Minister of Highways under the late Conservative government, continued debate on Premier Angus L. Macdonald's 1934-35 estimates. The opposition critic was taken to task by Premier Macdonald for using the words "robbed" and "juggled" to describe the government's action last year in taking \$188,000 out of the province's general sinking fund to be allotted to specific sinking funds. This had been done, he said, to make a better financial showing on paper.
