FARM FOR SALE

A rare opportunity to buy one of the most desirable farms in Prince Edward Island, will be given the public on Wednesday, the 28th of April, 1926, when the well known and highly desirable farm of William S. MacDonald, of St. Eleanors in Prince County, containing one hundred and ten acres of land with beautiful buildings, all in good repair, will be sold on the premises at two o'clock in the afternoon.

This farm is in a good state of cultivation, is centrally located and is undoubtedly one of the very finest farms in the Province. Sale positive. Terms of sale made known at the sale. Do not fail to attend.

For further particulars apply to Albert C. Saunders, Barrister-at-Law, Summerside.—Frederick J. E. Wright, Auctioneer.

The Mystery of The Singing Walls

Anne shook her head.

"Naturally I didn't listen," she explained, "except to one call just as I came in this room after lunch today. And I couldn't help overhearing that, because uncle was raging at some one and I thought for a second it might be Mr. Osborn. That is the reason I remember every word of the conversation. Uncle didn't speak all at once, but stopped at intervals while some voice at the other end was talking.

"In answer to this voice, a man's voice, uncle almost shouted:

"'So that's why you didn't come at 12 as you agreed—well, I've stood enough of this—do as you agreed or I will take the steps I spoke of to force you to do so—well, that's better! Yes, I will meet you there—all right. Good-by.'"

"And you don't know to whom he was speaking?" Graham questioned.

Anne again shook her head.

"Too bad!" the detective murmured, "for there is no doubt in my mind but that Mr. Warburton was making an appointment with his murderer."

The Slip of Paper

Busby had resumed his restless pacing back and forth before the fireplace, his misshapen feet giving him a heaving roll like a weather beaten bark on a slight swell.

Anne had sunk back listlessly into the depths of the great arm-chair, her tapering fingers opening and closing over John's weather-hardened knuckles. All at once she passed her hand wearily across her forehead, as if she would wipe away the numbing lassitude of her grief, and rose unsteadily to her feet.

"I am going to uncle," she declared gravely. "His poor body must not be there unarranged. Will you come with me, John? I need you."

Busby had stopped abruptly in his pacing.

"I am sorry, Miss Mason," he said, a kindly note in his gruff voice, "but, for the present, Mr. Osborn must stay with us. Here is Dr. Darnell, now. He will help you with the body. What did you find out doctor, about Mr. Taylor?"

The physician crossed the room to the group before the fireplace. "I reached him on the phone," he explained. "He insists he hasn't seen Mr. Warburton for a week. Higgins was lying when he said Mr. and Mrs. Taylor called here today."

"But he must have known he would be found out," Anne said wonderingly.

"That's the curious thing about crooks," Busby expounded. "They think a line of phony conversation will turn suspicion from themselves."

"Say, Charlie, what do you make of this?" Graham exclaimed suddenly.

The detective had sauntered over to the table-desk and had been idly thumbing the papers and documents strewn on the polished mahogany top. In his fingers he was holding a desk calendar.

It was an ordinary desk calendar, brass-mounted, with a separate leaf for each day. On the exposed top sheet, bearing the date of Saturday, two days previous, a series of numbers had been written in blue pencil.

B-S U-9882-17246-981-13735-4698-732 - 469 - 84-14-9640-9200-9834-93-1372

SC - US-0137-492-4076924-982364-8964325 - 1078742 - 98642-3046292-3964-832-44698-76342-37 - 40639 - 50-496784 - 87623 - 400167842-12-642-714-407 - 9843369-87943-178-1897642-98646 - 893924-78649-5378-143-40028-6837 - 4989-1400236-8906237-4296027-294-489-246 - 7310 - 763240 - 4921-42 - 8926403 - 24689-24701-69432-42-456983.

The captain lumbered across from the fireplace and squinted his left eye at the brass-rimmed pad in his colleague's hand.

Waving and Curling Dries Life from Hair

The constant curling and waving demanded by present styles in bobbed hair, slowly burns the color, lustre and very life from the hair, leaving it dry, faded, brittle, and full of dandruff; then the hair roots shrink and the hair falls out fast.

Since girls just must curl and wave the hair to appear their prettiest, try "Danderine" to offset any bad effects. After the first application your hair will take on new life and that healthy, youthful lustre, become incomparably soft, wavy and appear twice as thick and abundant. Falling hair stops and dandruff disappears.

A 35-cent bottle of refreshing "Danderine" from any drug store or toilet counter will do wonders for any girl's hair. It goes right to the roots, invigorates, nourishes and strengthens them, helping the hair to grow thick, healthy and luxuriant.

Builds up weak bodies

"Headaches, nervousness and dizzy spells were frequent. I wasted to 89 lbs. After sixth bottle of Tanlac, weigh 101 lbs., eat and sleep normally again, have no aches or nervousness." Mlle. Jeanne Aubin, 1946 Chateaubriand Ave., Montreal.

From Mother Nature's storehouse we have gathered the roots, barks and herbs which are compounded, under the famous Tanlac formula, to make Tanlac.

If your body is weak and undernourished, if you can't sleep or eat, have stomach trouble or burning rheumatism, just you see how quickly Tanlac can help you back to health and strength.

Don't delay taking Tanlac another day. Stop at your druggist's now and get a bottle of this, the greatest of all tonics. Take Tanlac Vegetable Pills for constipation.

Then he turned over his shoulder to Burke, who had followed his chief across to the desk.

"Say, kid, give this the once-over," he ordered. "You've been through that class in code reading lately. What do you make of it?"

The squatty assistant took the calendar and, placing it on the desk under the light studied it carefully.

"It certainly is a code of some sort," he concluded in his high, piping voice, "and you notice that it was written at this desk with this blue pencil on Saturday, the day Mr. Warburton was so upset. I wouldn't wonder if it is a death threat. I've thought all along that there was some blackhand gang mixed up in this business."

The Chalk on the Wheels

For a time the group bent over the table-desk, intent on the rectangular piece of paper standing out on the dull green of the huge blotter. Graham was the first to draw back.

"It is certainly a curious cipher," he observed. "You notice that the numbers occur in about equal proportion and that there are no numbers or groups of numbers that keep repeating as in ordinary code. Also B, S, S and U are evidently lacking because they are written out, which is extraordinary, for how could that long line of words be written without a B, a C, an S or a U?

"Still the B and C and S and U are at the beginning of lines and possibly Mr. Warburton began to write them ordinarily and then went in to cipher."

"But what does B-S-U and SC-U-S mean?" Dr. Darnell mused. "Don't you think, Anne, that the whole thing was probably just a meaningless string of numbers that Mr. Warburton was jotting down as he was sitting at his desk?"

The girl shook her head decidedly.

"Uncle wasn't the sort to jot down figures idly," she objected. "I never saw anything like that on that pad before. It must mean something, don't you think so, captain?"

"We'll soon find out," the officer grumbled, "Burke, we're going down on the sidewalk to take a look at that runabout, and, while we're gone, will you stay here and call Tiernan? Read the numbers off to him to get busy with his code keys and to phone back when he has any results. Tiernan knows more about code keys than anyone else in the world."

"Miss Mason," he requested, "when you and the doctor finish arranging Mr. Warburton's body, will you please bring us the memorandum book with the safe combination in it? I should like to know if your uncle actually did sign a new will and what its terms are."

As the group followed Anne into the corridor, a neat, white-capped maid came running from the stairway brought up flustered and breathless before her mistress.

"Mrs. Hammond, she very sick," she spluttered, her Gallic voice trembling. "She have the hysteric in the guest room on the floor down."

"I suppose I had better go to her," Dr. Darnell looked questioningly at Anne. "It won't take me long to straighten her out; then I will come and help you."

The distinguished physician hurried after the maid, and disappeared down the stairway to the floor below.

As the two detectives filed into the waiting elevator, John stepped back and, taking Anne's hand, drew her away from the corridor. Gripping her by the wrists, he looked down tenderly into her eyes, veiled with the vague shadows of the troubled future.

"Don't worry, my Anne," he spoke low. "It's all going to come out right dear."

For a moment the girl pressed close in his arms, clinging to him convulsively as he stooped and burled his lips in the great mass of her red-brown hair.

Then as Busby's tousled shock stuck out of the grilled door of the elevator, she drew back and, raising her figure to its full height, passed resolutely into the dimly lighted bedroom opposite, with the strange stillness of sudden death.

A minute later John was following the two detectives across the brilliantly lighted vestibule and down the steps to the sidewalk.

In the street below, the pavement stretched like a broad ribbon of black rubber, glistening in the dripping mist. At the curb the low-hung blue runabout was still parked, its plate-glass windows reflecting faintly the wan glare of the street lamps nearby. Beside it, O'Neil and a lean, carroty-haired patrolman had their heads together in earnest conversation.

"Well, Joyce, any one try to beat it?" Busby questioned, as Graham and John followed him across the clean-washed sidewalk.

"No one but that Japanese chef," the red-headed one answered. "He almost threw a fit when Hughes and Brady nabbed him trying to sneak out the back way. No, we got the place sealed up tight, chief. There ain't no one going to get out."

For a time the detectives stood on the edge of the sidewalk, silently examining the empty runabout. As he watched them, John shook his head meditatively. How strange life was, flowing now fast, now slow. Certainly it seemed years since he had sauntered along from the avenue and been startled by that fine gray head, rolling against the whipcord of the seats.

"Say, take a look at the mud on these tires," Graham burst out suddenly, stepping into the gutter and bending over the rear fenders.

"Sure and I asked Mr. Warburton's chauffeur about it when he came to fetch the car a while back. He swears by the Saints that the tires were clean when he left the runabout at the door at 3:30 today."

Graham picked up a piece of the white chalk-like paste, which was caked between the heavy knobs of the treads.

"You notice," he pointed out, "you notice that one quarter of each of the tires on the right side of the car is heavily caked with this stuff, while the rest of the tire is merely splashed. Also that there is no mud at all on the tires on the left side of the car. This shows that the machine must have stood close to the curb of a street where they had dug up the pavement right below the curbing."

Busby took a lump of the chalk in his hands and held it over to the light.

"It's a funny sort of mud," he commented. "Once I made a study of soils in Manhattan and, in my recollection this kind of chalk is only found over on the East Side waterfront.

"O'Neil, run in the house, call up Doheny of the Construction Department and ask him if there is any gas or water mains being laid in the East River section. His house number is in the telephone directory."

ALKALI IN SHAMPOOS BAD FOR WASHING HAIR

Do not use prepared shampoos or anything else that contains too much free alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

MAE MURRAY
Fascinating Cinema Star
Secret of her beautiful hair

The best thing to use is Mulsified cocoanut oil shampoo, for this is pure and entirely greaseless. It is inexpensive and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Two or three teaspoonfuls of Mulsified is all that is required. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to manage. Besides it loosens and takes out every particle of dust, dirt, and dandruff. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

SICK ABED EIGHT MONTHS

After Taking Lydia E. Pinkham's Vegetable Compound Could Do All Her Work and Gained in Weight

Melfort, Saskatchewan. — "I had inward troubles, headaches and severe pains in my back and sides. I was so sick generally that I could not sit up and I was in bed most of the time for eight months. An aunt came to visit and help me as I was unable to attend to my baby and could not do my work. She told me to try Lydia E. Pinkham's Vegetable Compound, and after taking two bottles I could get up and dress myself. I also took Lydia E. Pinkham's Blood Medicine. When I first took the medicine I only weighed seventy-eight pounds. Now I weigh twice as much. If I get out of sorts or weary and can't sleep I always take another bottle of the Vegetable Compound. I find it wonderfully good for female troubles, and have recommended it to my neighbors. I will be only too glad to answer any letters I receive asking about it." — Mrs. WILLIAM RITCHIE, Box 486, Melfort, Saskatchewan. C

Women's Safety

from loss of charm under trying hygienic conditions secure this way. True protection—discards like tissue

SCORES of women's disorders are largely traced today to old-time "sanitary pads," insecure and unsanitary.

Eight in 10 better-class women today employ "KOTEX."

Wear lightest gowns and frocks without a second thought, any day, anywhere.

✓ Discards as easily as a piece of tissue. No laundry.

Five times as absorbent as ordinary cotton pads!

Deodorizes. Ends ALL fear of offending.

You get it at any drug or department store simply by saying, "KOTEX." No embarrassment.

In fairness to yourself, try this new way. Costs only a few cents. Twelve in a package.
