

Greetings From The Government of Prince Edward Island To The 10th Province Of The Dominion --- Newfoundland

"Because we are an Island and because they are an Island, and have to trade in ships, we have an excellent opportunity of trading in close association with Newfoundland; and in addition we produce those agricultural products which Newfoundland desires, and we are the nearest place by hundreds of miles from which they can purchase such commodities. We hope to develop a reciprocity of trade over the years that will make us both prosperous."

Premier J. Walter Jones,
The Legislature, March 25, 1949.
