On Thursday evening, Oct. 21st a meeting was held at 10a for the purpose of organizing a Cattle Improvement Center. The meeting was enthusiastically attended. Addresses were delivered by Messrs. W. R. Shaw, Live Stock Supt., and C. A. Archibald, Federal Promoter, Cattle Division, on the various policies in operation for the improvement of cattle.

After considerable discussion, it was decided to organize a Bull Loaning center composed of three district units, embracing Iona East, Iona West, and Newtown Cross. Organization for each of these units was quickly effected and the members signed up. It was further decided to select the Guernsey breed for the district, the bulls to be delivered the latter part of the winter.

This center makes the fifth organized in the province during the present season. The work thus accomplished is a compliment to the co-operation of the Federal and Provincial Live Stock Branches who have energetically pushed the policy involved to a successful conclusion.

The farmers of the Iona district or the Southern Queen's Cattle Breeding Club as it is called deserve a great measure of credit for their co-operation. All are looking forward to a great deal of optimism to some real improvement in cattle breeding in this section of the country.

Early yesterday morning the S. S. Teta, under the command of Captain A. Hauge, sailed from this port for Jersey City with the largest cargo of seed potatoes ever shipped from this province.

After working five days the stevedores last night stowed the last sack of a cargo of 39,200 bags, each containing two and one half bushels, making a total of 98,000 bushels of high-quality potatoes.

Capt. Hauge in an interview with the Guardian reporter, who was received and entertained with the kindness and hospitality for which Norwegians are noted, highly praised the quality, packing and handling of the cargo. The quality of the shipment is the highest the Captain had ever had on any ship under his command. "They are like apples," he said. "If I were sailing for Norway I would surely take home some sacks to show my people the high quality of the potatoes grown on Prince Edward Island."

So greatly impressed was he that he intends having a reporter from one of the New York papers inspect the cargo upon its arrival, so that "Spud Island" might receive the publicity it deserves in this line. This unsolicited act of Captain Hauge, deserves the full appreciation of not only the farmers, but all the people of Prince Edward Island.

Captain Hauge, although of a non-combatant country had his experiences in the World War. On the 9th of December, 1917, while commander of the S. S. Corinto, he had that ship torpedoed and sunk by a German submarine, when taking a cargo of unfiled shells from Swansea, England to Bresque, France. For three days and nights he and the survivors of his crew, were exposed to the elements on the open sea in an open boat, before they reached the coast of France. On his arrival he was taken to a hospital suffering from pneumonia, contracted through exposure.

Yesterday afternoon before a large audience of parishioners and laymen, the corner stone of the new Catholic church at St. Margaret's was laid by His Lordship Bishop Louis O'Leary. The weather was ideal for the ceremony which commenced at three o'clock and was not concluded until nearly five. The proceedings opened with the laying of the corner stone by His Lordship and was followed by a scholarly and able sermon by Rev. Fr. A. McAulay, pastor of St. Peter's Bay who took as his theme the subject "Has Catholicity Failed?"

Following the sermon His Lordship blessed the bell. He was assisted in the ceremony by Right Rev. Monsignor McLean, P. A. V. G. Rev. Fr. Louis Callaghan, D. D., acted as deacon and Fr. Patrick Walsh of the Cathedral staff was master of ceremonies. In the sanctuary besides the pastor Rev. Fr. Kenneth McPherson were: Fr. J. Hogan, Fr. P. D. McGuigan, Fr. R. J. McDonald and Fr. J. A. The S. S. Munisto, under the command of Captain A. F. Carlson, made port yesterday about noon to load the second shipment of seed potatoes. The Munisto received orders in Montreal last Wednesday to proceed to Charlottetown as soon as its cargo of phosphate from Tampa, Fla., was unloaded. Capt. Carlson left Montreal on Saturday for this port. Except for a strong wind and a head sea met with on gaining the mouth of the St. Lawrence, the voyage was uneventful. The shipment of potatoes the Munisto is taking from this port is destined for Norfolk, Virginia. Capt. Carlson says he expects that his cargo will number somewhere in the vicinity of 40,000 bags of about 100,000 bushels. About one hundred and ten stevedores were at work yesterday afternoon and last night loading the cargo and if conditions are favorable the entire shipment should be under the hatches on Saturday so that the ship may sail Sunday morning.

Capt. Carlson is a native of Noor-kopping, Sweden, the great textile city. This is his first trip to Prince Edward Island. He has been following the sea for the past twenty-four years and has been holding captain's papers since 1920. Captain Carlson's sea-faring career has been most fortunate. Never in all his quarter of a century as a seaman has he experienced any of the difficulties or disasters which are usually the fate of those who go "down to the sea in ships." On entering the harbor he was agreeably surprised and impressed by the mellow beauty of the pastoral scenery which stretched in the beauty of our island shores. He said, equals if not surpasses the scenic charm along the St. Lawrence River. He thought that the Garden of the Gulf has wonderful opportunities as a tourist paradise. He had met several of the tourists who visited the island on the S. S. Munargo last summer and all seemed captivated. The Captain evinced great interest in the fox industry. He had heard of the fame P. E. I. had gained in this line and asked many

questions relative to foxes and fox breeding. The S. S. Munisto carries thirty men, representing all nationalities as a full crew. At present they are short handed. One of the crew, a wiper from Tampa is at present in the Montreal General Hospital suffering from fractured skull, due to having a bottle broken over his head in a fracas with two negroes. The sailor had been given on arriving at Montreal, a certificate of entrance to the hospital to undergo treatment for boils. The Captain was surprised, on answering a telephone call from the Montreal General Hospital to find his wiper with a broken skull and guarded by a policeman. After the departure of the Munisto from this port another Munson steamer is expected to dock on Tuesday to ship another load of seed potatoes.

He had suddenly strayed away and when his little brother gave the alarm a search was begun. He had strayed into the next yard and it was found had fallen into a hole of water about two feet deep. Medical aid was summoned at once but life was extinct as he had fallen in headlong and must have smothered instantly. Much sympathy is felt for Mr. and Mrs. MacKenzie by their many friends.

On Oct. 16, at the P. E. I. Hospital, there passed away in his seventy-eighth year, Peter McIntosh, a respected, resident of Belle River. The deceased was born at River Inhabitants, Cape Breton and during childhood, moved with his parents to this island where he spent his life. He was a quiet, inoffensive, God-fearing man and was a regular attendant at the house of God. A year ago, he suffered a shock from which he never recovered and later was attacked by a more painful malady which he endured with patience. He leaves to cherish his memory five children: Ronald, of White Rock, B. C.; Jessie of Quincy, Mass.; Katherine, Mrs. R. W. Belyea of Wilton, N. D.; Mary and Stewart at home. One brother Alexander McIntosh of Caledonia survives him. His wife, a daughter of the late Ronald Stewart, predeceased him nineteen years ago and during the funeral service was conducted by the Rev. M. D. McDonald of the United Church, who spoke comforting words to the bereaved who sorrow not without hope. Interment was at Belfast cemetery.

WEDDING BELLS. — In the delightful home of Mr. and Mrs. Fred Hyde, Cornwall, overlooking the banks of the beautiful West River an event of more than passing interest took place on the evening of October 20th, when their eldest daughter, Lillian Jean, became the bride of Mr. Watson Livingston, son of Mr. and Mrs. Boyd Livingston, Clyde River. The marriage ceremony was performed by Rev. E. M. Aitken, pastor of the United Church, Cornwall, in the presence of about sixty invited guests. The bride who looked very winsome in a gown of white greg, blossoms and carrying a bouquet of chrysanthemums and maidenhair fern, was given away by her father, while the Wedding March was played by Miss Ina Livingston, sister of the groom. After the usual congratulations, and an appropriate solo entitled "Because," was rendered by Reginald Ayers, cousin of the bride, the guests sat down to a beautiful supper. The presents were numerous and costly, showing the esteem in which the young couple are held by their numerous friends. The groom's present to the bride was a beautiful string of pearls. After a pleasant evening spent in music and conversation, Mr. and Mrs. Livingston left for their future home in Clyde River followed by the best wishes of their many friends.

On Sunday, October 17th inst. he celebrated high Mass in St. Patrick's Church, where he preached to a large congregation an eloquent and impressive sermon from the text, "Whose sins you shall forgive they are forgiven and whose sins you shall retain they are retained." In the afternoon a number of relatives and friends gathered to greet Fr. Duffy at his home, where they were highly entertained by Mr. and Mrs. Duffy and family. He left on Wednesday morning enroute to New York to see his sister Mrs. Walsh also to Boston and Lynn, where he will visit relatives before returning to his home in Western Canada. CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an itching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, corn between the toes, and the corn calluses, without soreness or irritation.
