The prices quoted by the wholesalers are: Potatoes, 40c; pressed hay, $13; white oats, 60c; to 61c; black oats 61 to 63c; straw, $5.50 to $6.50, and turnips, 23c.

J. Edwin Treakle, 20 Fulton Market, New York, is an extensive buyer of clams and oysters in Prince Edward Island. His name is familiar to a wide circle of fishermen as he has a business ability that is first class in every respect. Mr. Treakle has handled an exceptionally large quantity of New Brunswick and P. E. Island clams this season on the New York market and as he understands the business thoroughly secured good prices for same.

H. H. Howard, Little York, is offering his splendid farm of one hundred acres for sale. This property is admitted to be one of the best in the province, and is beautifully situated, near railway, churches, schools, well watered and only seven miles from Charlottetown. It is regretable to learn that such a splendid farmer as Mr. Howard, has decided to pull stakes and move West. Mr. Howard offers his farm with or without crop and promises to sell reasonable to make a quick sale. Splendid dwelling and barns are located thereon and a fine opportunity is offered too anyone interested in real estate.

A Charlottetown citizen of more than ordinary intelligence and cleverness is greatly puzzled to know whether it will be in his interests to adopt the latest style of writing paper for his large private and business correspondence, having recently received, from a valued friend in Alberta, a letter written on the modern kind. The paper is many yards long and creased crosswise at each fold, rather than being in sheets of two pages, or of four pages creased at the centre from top to bottom. How frequently, when writing a letter of more than two or four pages, the first sheet is mislaid or blown away, but with the new style it is impossible for that to happen, as the entire letter is on one sheet and is separated by the writer at a crease when complete. It folds up neatly where creased and only requires a special kind of envelope to match the writing paper which it contains. The idea is at least novel in the extreme, and the paper has but to be seen to be regarded as exceedingly useful and appropriate.

A book which is somewhat different has just reached the office of the Guardian. This is a publication issued by the Canadian Highway Association, and deals in an interesting way with the work accomplished by that body since its organization on November 3 and 4, 1911. It contains an interesting mass of valuable information concerning roads, and road conditions, in different parts of Canada, but more particularly British Columbia. The book is splendidly illustrated with photographs of road scenes and of scenes at the planting of the first post on the west coast of Vancouver Island. Photogravures of President W. J. Kerr and his fellow officers add a personal touch to the work. The mission of "The Canadian Highway" is to educate the public to the advantages of good roads and anyone interested in this work may obtain a copy by addressing Secretary P. W. Luce, New Westminster, B. C.

FINE CUT GLASS

Purchasers of cut glass need to make sure that they are getting the genuine article.

We know that there is being marketed by manufacturers who are considered reliable a line of so called cut glass in which the pattern is really pressed, and afterwards touched up and polished on a wheel.

Our Cut Glass

is fully cut When the cutter takes a piece in hand it is perfectly plain on both sides and every line is cut and polished by hand.

We control for Charlottetown, the product of the oldest and largest Canadian factory, and feel that we have the very best in cut glass to offer our patrons.
