CHASE & SANBORN, MONTREAL.

The Dawn of Better Baking

comes with "BEAVER" Flour. It is a blend of the best wheats grown in Canada—Manitoba Spring wheat and Ontario Fall wheat. It has the bread-making powers of the one—and the pastry-making powers of the other.

Every woman, who brings "BEAVER" Flour into her home, makes the right start towards better Bread and Pastry.

DEALERS—Write us for prices on Feed, Coarse Grain and Cereals. THE T. H. TAYLOR CO. LIMITED, CHATHAM, Ont.

POINTERS FOR HOUSING DUCKS. Ducks aren't partial to palaces; but like human quacks, they can't sleep with cold feet. Therefore, in building, make your duck house simple, but be sure to have a dry floor, for cold trills mean dead ducks.

Quacks can stand more cold than a hen, as their thick feathers seem cold proof, but as they sleep sitting a good dry earth floor covered with leaves, swamp grass or straw and protected from drafts is necessary.

Select a well drained site, have floor higher than outside surface and calculate a space of 12 by 14 feet for every fifteen old ducks.

Use rough inch boards, strip all racks, have a water tight shed roof.

HOUSE AND RUNS FOR DUCKS.

Place windows to catch the sun and keep floor space clear, as ducks roost and lay on the ground, and obstructions mean crippled ducks.

Arrange for good ventilation, for ducks need lots of air and must not be shut up tight, as they cannot stand confinement like hens.

Arrange outside yards and let them go in and out at their pleasure, for it is their ceaseless motion that keeps their digestive organs in good condition.

Place the water founts outside, where they may splash to their hearts' content.

Our picture shows a good plan for house, yards and water runs for breeding ducks that is simple and may be adapted to large or small flocks.

Breeding ducks should have water, if possible, as their eggs are more fertile than otherwise.

DOCTOR ADVISED OPERATION

Cured by Lydia E. Pinkham's Vegetable Compound

Canifton, Ont.—"I had been a great sufferer for five years. One doctor told me it was ulcers of the uterus, and another told me it was a fibroid tumor. No one knows what I suffered. I would always be worse at certain periods, and never was regular, and the bearing-down pains were terrible. I was very ill in bed, and the doctor told me I would have to have an operation, and that I might die during the operation. I wrote to my sister about it, and she advised me to take Lydia E. Pinkham's Vegetable Compound. Through personal experience I have found it the best medicine in the world for female troubles, for it has cured me, and I did not have to have the operation after all. The Compound also helped me while passing through Change of Life."—Mrs. LETITIA BLAIR, Canifton, Ontario.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has proved to be the most successful remedy for curing the worst forms of female ills, including displacements, inflammation, fibroid tumors, irregularities, periodic pains, backache, bearing-down, flatulency, indigestion, and nervous prostration. It costs but a trifle to try it, and the result has been worth millions to suffering women.

It is a great relief to find a medicine that does not require an operation, and that is so easy to take. It is a great relief to find a medicine that does not require an operation, and that is so easy to take.

VIOLENT STORM ON ITALIAN COAST.

ROME, Nov. 3.—A violent storm is reported along the coast of Italy, north of Naples, as far as the Gulf of Genoa. Sixteen lives are reported to have been lost so far. Damage to telegraphs and wireless stations has made communication difficult.

The storm has raged for more than twenty-four and a number of shipping disasters have been reported. High winds blew down buildings and caused vessels to break from their moorings. Wreckage strewn the coast and life savers have been keeping constant vigil for ships and survivors from wrecks.

Many fishing craft are missing. The terrific wind caused the sea to rise in mountains of water, rivalling the tidal wave. These dashed in shore carrying destruction in their wake. It is feared that the damage and loss of life in remote places is very heavy.

In this city great damage was done to the construction work on the field where the international exposition will be held next spring.

The Cardinal's pavilion, one of the most imposing of the new buildings, is to-day a mass of ruins and wreckage. This structure was blown down and demolished, burying ten workmen beneath the debris. Four of them were fatally hurt.

The Romagna Pavilion was partly destroyed and other structures of lesser importance were razed. Many had narrow escapes from death. Traffic was hindered by the debris which filled the streets. Many were hurt by flying wreckage which was carried in some instances for nearly a quarter of a mile by the tremendous wind. Rain fell in great quantities but the most of the damage was done by the devastating wind.
